A new work style

Hybrid work is here to stay

Do you think your business is ready for hybrid work?

Today, work styles have been transformed into more flexible, immediate and secure ways of collaboration, no matter where we are. Achieving constant interaction between collaborators is necessary for business success. Decision makers have observed an increase in the productivity of their collaborators with hybrid work (from home and from the office).

The office continues to be the best place for interaction, since the need to socialize and share knowledge and ideas in a collaborative face-to-face environment always remains. Companies need tools that facilitate and streamline collaboration in the office, thus favoring communication between collaborators both who are there physically, as well as those who are remote.

+66%

of decision makers are considering redesigning their physical spaces to accommodate hybrid work environments.

Current challenges in Latin America

In this new era, a smooth and agile communication accompanied by efficient digital collaboration is essential to connect collaborators, customers and business partners in a world that demands immediacy.

Over time, some challenges have been observed in areas that companies today need to address, to transform their work spaces. Do you identify with some of them?

Facilities Managers

- Ensure a smooth communication in the hybrid environment.
- More efficient response times from your suppliers.
- To count on suppliers that offer complete services.

Functional Areas Managers

- Having up-to-date and easy-to-use tools.
- Easily change or adjust collaboration structures.
- Connecting your office equipment with remote collaborators efficiently.

IT Managers

- Having easy support tools.
- Same technological solution in all their facilities.
- Integrating solutions based on Cloud, and not just local.

Collaboration Types

In-Person

At the office, one to one, using collaboration tools such as an interactive screen or laptop.

In-person

Group

Formal meeting in a meeting room with 3 or more participants sharing screens and interacting on the whiteboards.

Remote

Voice and video communication between computers or other mobile devices.

Formal meeting in a collaboration room with both in-person and remote participants. The type of collaboration that prevails today (Hybrid environment)

RICOH Integrated Solutions by collaboration type

RICOH is not unfamiliar with new changes and considering the challenges that companies are facing and market trends, we present you a complete portfolio to streamline efficient collaboration and solve real challenges quickly, to empower the digital ecosystem of your company or institution:

NEW WORK STYLES

For Companies		For Education
Collaboration rooms	Video-conference rooms	Smart Classroom / STEAM & CREATOR Lab
Face-to-face group collaboration	Remote and face-to-face group collaboration (Hybrid)	Remote and Face-to-Face Group Collaboration (Hybrid)

Smart Collaboration Rooms

Face-to-face group collaboration

For Companies

Empower your workspaces with RICOH Interactive **White Boards**, that allow you to take notes and share them in real time, design, draft, instantly integrate participants, and much more.

Ideal to enhance the creativity of your collaborators and they adjust to your communication needs.

Easy Content Sharing

As a presenter, sharing information from your laptop or smartphone on the Interactive White Board taking control of the presentation is now easier than ever. With the new RICOH Creative Collaboration solution, this is possible via wireless connection or via HDMI (with no app). It connects seamlessly to Miracast, Google Cast or Apple Airplay.

Simultaneous collaboration between all members of the meeting.

You can share the information from the interactive screen to the entire team present in the meeting through a QR code. Thanks to RICOH Creative Collaboration, each member can view the presentation on their own device and interact with each other, while the entire team visualizes the changes in real time.

Video Conference Rooms

In-person and remote group collaboration (Hybrid)

For Companies

The flexibility and scope of RICOH Video Conferencing Solutions offer your business:

- Agile and efficient remote collaboration, as if your collaborators were in-person at the office.
- Quality and smooth communication (video, images, audio).
- Share information in real time and collaborate simultaneously.

Whether you are a startup, growing company, or a established corporation, we have what it takes to develop an Intelligent Video Conference Room that connects ideas and empowers collaboration in a hybrid environment. In addition to RICOH solutions, we integrate technology from our partner brands to deliver you more value. (See Ecosystem of Strategic Partners on page 11)

Smart Classrooms

In-person and remote group collaboration (hybrid)

Education

Developing deep learning in both the students who are in the classroom, and those who are remotely at home is possible and necessary in this digital age!

With the right collaboration tools, educational institutions connect teachers with their students in a collaborative hybrid environment, where students in classroom interact with their peers through video conferencing and shared notes.

In this new era, the RICOH Smart Classrooms and RICOH STEAM and Creator Labs solutions allow institutions to:

- Develop unlimited academic programs, no matter where the teachers or the student are.
- Have tools designed to develop the skills of the future and solve real challenges quickly.
- Facilitate the use of technology for teachers through rapid adaptation so that they achieve greater control of their virtual or hybrid classes.
- Create a collaborative environment that generates ideas, fuels students' creativity, and motivates them to participate and innovate.

Success Stories

"Bringing the educational community closer to technology has allowed us to remain active during the pandemic, without stopping the educational project at any time, thanks to a strategic ally and a total supplier such as RICOH."

Johanna Salazar A.
Institutional Executive
Colegio Científico de Alajuela, Costa Rica

"We have trusted Ricoh as a strategic partner for many years for its excellent service and response times. This business relationship will go on for many more years".

José F. Méndez
Chairman of UAGM
Universidad Ana G. Méndez, Puerto Rico

Strategic Allies Ecosystem

Today's digital age accelerates innovation by transforming traditional workspaces into hybrid work environments, to fuel creativity and achieve greater agility.

RICOH supports you as your sole digital service provider, to give continuity to your business by providing all the tools, infrastructure and support to your collaborators, so that they stay connected and productive in a modern collaborative environment.

Our integrated solutions rely on technologies from our strategic partners in Latin America.

Know who they are:

RICOH offers integrated turnkey solutions, providing a complete service from hardware and software, to equipment configuration, installation and maintenance. RICOH accelerates digital adoption by equipping organizations, connecting people, and unleashing its potential as the sole provider of digital services for local and global businesses.
