

RICOH
Creative
Collaboration
for Personal Meeting

RICOH Creative Collaboration improves your team's brainstorming process, as everyone can work on the same workspace real-time from anywhere, with any device.

► Collaborate

Maximize your team's collaboration by exchanging ideas on a single virtual canvas. Freely draw your ideas or share documents with everyone to boost creativity.

◀ From Anywhere

Improve teamwork by accessing the cloud whiteboard from office, home, or any place in the world for real-time collaboration.

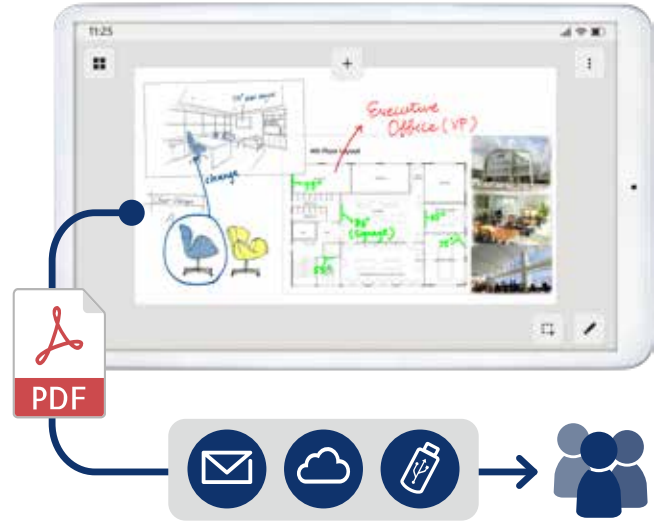

► With Any Device

Join the cloud whiteboard with any device by installing "RICOH Board Connect" app. (Available for Windows 10, Android and iOS devices)

Organize documents, capture real-time discussion, and instantly share the recap. The powerful canvas improves remote team collaboration with its rich features.

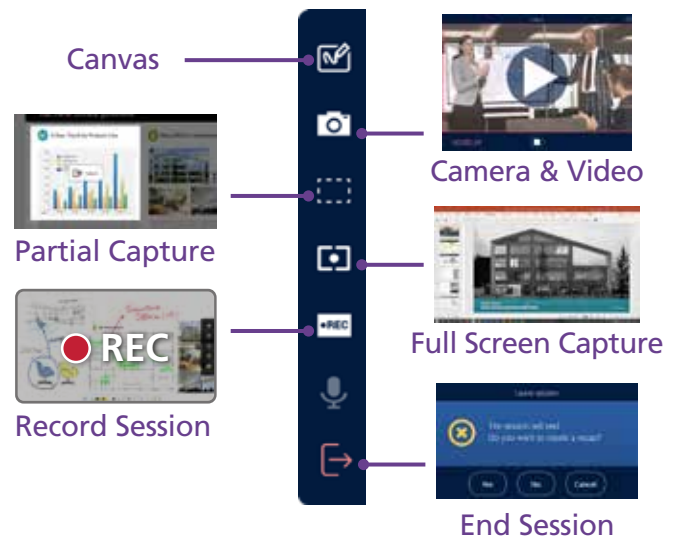

Insert Multiple Files

Various types of files including presentation, spreadsheet, PDF, video and web browser etc. can be inserted on the canvas. Once the files are open, annotation is still available for users to draw around the file or web page as well.

Instant Recap

Recap allows users to select which pages and files to be saved to your device or to the cloud. Clean up will delete data, cookies, and will close all opened applications and any information used during the session to leave the canvas ready for next meeting.

Object and Text Recognition

Start drawing by hand and then use our self-recognition tools (words, images and shapes) to turn your notes into digital contents. Choose from suggested cliparts when you draw an object by hand. Handwritten words will be converted to typed text to make your documents look more professional.

Capture & Record

Whether you want to capture a scene on a video, audio or an image on a web site, catch any moment and put it on the canvas. It can even record the whole meeting including conversation which helps to keep track of discussion.
