Safety information

Conventions

Note: A *note* identifies information that could help you.

Warning: A *warning* identifies something that could damage the product hardware or software.

CAUTION: A *caution* indicates a potentially hazardous situation that could injure you.

Different types of caution statements include:

-  **CAUTION—POTENTIAL INJURY:** Indicates a risk of injury.
-  **CAUTION—SHOCK HAZARD:** Indicates a risk of electrical shock.
-  **CAUTION—HOT SURFACE:** Indicates a risk of burn if touched.
-  **CAUTION—TIPPING HAZARD:** Indicates a crush hazard.
-  **CAUTION—PINCH HAZARD:** Indicates a risk of being caught between moving parts.

Product statements

-  **CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.
-  **CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, use only the power cord provided with this product or the manufacturer's authorized replacement.
-  **CAUTION—POTENTIAL INJURY:** Do not use this product with extension cords, multioutlet power strips, multioutlet extenders, or UPS devices. The power capacity of these types of accessories can be easily overloaded by a laser printer and may result in a risk of fire, property damage, or poor printer performance.
-  **CAUTION—POTENTIAL INJURY:** Do not use this product with an inline surge protector. The use of a surge protection device may result in a risk of fire, property damage, or poor printer performance.
-  **CAUTION—POTENTIAL INJURY:** To reduce the risk of fire, use only a 26 AWG or larger telecommunications (RJ-11) cord when connecting this product to the public switched telephone network. For users in Australia, the cord must be approved by the Australian Communications and Media Authority.
-  **CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, do not place or use this product near water or wet locations.
-  **CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, do not set up this product or make any electrical or cabling connections, such as the power cord, fax feature, or telephone, during a lightning storm.

 **CAUTION—POTENTIAL INJURY:** Do not cut, twist, bind, crush, or place heavy objects on the power cord. Do not subject the power cord to abrasion or stress. Do not pinch the power cord between objects such as furniture and walls. If any of these things happen, a risk of fire or electrical shock results. Inspect the power cord regularly for signs of such problems. Remove the power cord from the electrical outlet before inspecting it.

 **CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, make sure that all external connections (such as Ethernet and telephone system connections) are properly installed in their marked plug-in ports.

 **CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, if you are accessing the controller board or installing optional hardware or memory devices sometime after setting up the printer, then turn the printer off, and unplug the power cord from the electrical outlet before continuing. If you have any other devices attached to the printer, then turn them off as well, and unplug any cables going into the printer.

 **CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, do not use the fax feature during a lightning storm.

 **CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock when cleaning the exterior of the printer, unplug the power cord from the electrical outlet and disconnect all cables from the printer before proceeding.

 **CAUTION—POTENTIAL INJURY:** If the printer weight is greater than 20 kg (44 lb), then it may require two or more people to lift it safely.

 **CAUTION—POTENTIAL INJURY:** When moving the printer, follow these guidelines to avoid personal injury or printer damage:

- Make sure that all doors and trays are closed.
- Turn off the printer, and then unplug the power cord from the electrical outlet.
- Disconnect all cords and cables from the printer.
- If the printer has separate floor-standing optional trays or output options attached to it, then disconnect them before moving the printer.
- If the printer has a caster base, then carefully roll it to the new location. Use caution when passing over thresholds and breaks in flooring.
- If the printer does not have a caster base but is configured with optional trays or output options, then remove the output options and lift the printer off the trays. Do not try to lift the printer and any options at the same time.
- Always use the handholds on the printer to lift it.
- Any cart used to move the printer must have a surface able to support the full footprint of the printer.
- Any cart used to move the hardware options must have a surface able to support the dimensions of the options.
- Keep the printer in an upright position.
- Avoid severe jarring movements.
- Make sure that your fingers are not under the printer when you set it down.
- Make sure that there is adequate clearance around the printer.

 **CAUTION—TIPPING HAZARD:** Installing one or more options on your printer or MFP may require a caster base, furniture, or other feature to prevent instability causing possible injury. For more information on supported configurations, contact the place where you purchased the printer.

-  **CAUTION—TIPPING HAZARD:** To reduce the risk of equipment instability, load each tray separately. Keep all other trays closed until needed.
-  **CAUTION—HOT SURFACE:** The inside of the printer might be hot. To reduce the risk of injury from a hot component, allow the surface to cool before touching it.
-  **CAUTION—PINCH HAZARD:** To avoid the risk of a pinch injury, use caution in areas marked with this label. Pinch injuries may occur around moving parts, such as gears, doors, trays, and covers.
-  **CAUTION—POTENTIAL INJURY:** This product uses a laser. Use of controls or adjustments or performance of procedures other than those specified in the *User's Guide* may result in hazardous radiation exposure.
-  **CAUTION—POTENTIAL INJURY:** The lithium battery in this product is not intended to be replaced. There is a danger of explosion if a lithium battery is incorrectly replaced. Do not recharge, disassemble, or incinerate a lithium battery. Discard used lithium batteries according to the manufacturer's instructions and local regulations.

This product is designed, tested, and approved to meet strict global safety standards with the use of specific manufacturer's components. The safety features of some parts may not always be obvious. The manufacturer is not responsible for the use of other replacement parts.

Refer service or repairs, other than those described in the user documentation, to a service representative.

SAVE THESE INSTRUCTIONS.

Learn about the printer

Finding the printer serial number

1 Open the front door.

2 Locate the printer serial number behind the front door.

Printer configuration

1	Automatic document feeder (ADF)
2	ADF tray
3	ADF bin
4	Control panel
5	Standard bin
6	Multipurpose feeder
7	Standard 250-sheet tray
8	Optional 550-sheet tray

Using the control panel

	Control panel part	Function
1	Display	<ul style="list-style-type: none"> View printer messages and supply status. Set up and operate the printer.
2	Power button	Turn on or turn off the printer. Note: To turn off the printer, press and hold the power button for five seconds.
3	Home button	Go to the home screen.
4	Back button	Return to the previous screen.
5	Start button	Start a job, depending on which mode is selected.
6	Indicator light	Check the status of the printer.

Customizing the home screen

- From the control panel, touch **Settings > Device > Visible Home Screen Icons**.
- Select the icons that you want to appear on the home screen.
- Apply the changes.

Changing the language of the on-screen keyboard

Note: You can only change the language of the keyboard in printer tasks that require alphanumeric input such as e-mail or scan.

- Touch the input field.
- On the keyboard, touch and hold the language key.
- Select a language.

Understanding the status of the indicator light

Indicator light	Printer status
Off	The printer is off or in Hibernate mode.
Blue	The printer is ready or processing data.
Blinking red	The printer requires user intervention.
Solid amber	The printer is in Sleep mode.

Selecting paper

Paper guidelines

Use the appropriate paper to prevent jams and help ensure trouble-free printing.

- Always use new, undamaged paper.
- Before loading paper, know the recommended printable side of the paper. This information is usually indicated on the paper package.
- Do not use paper that has been cut or trimmed by hand.
- Do not mix paper sizes, types, or weights in the same tray; mixing results in jams.
- Do not use coated papers unless they are specifically designed for electrophotographic printing.

Paper characteristics

The following paper characteristics affect print quality and reliability. Consider these factors before printing on them.

Weight

The standard tray can feed paper weights from 60 to 120 g/m² (16 to 32 lb) grain long paper. Paper lighter than 60 g/m² (16 lb) may not be stiff enough to feed properly, and may cause jams.

Curl

Curl is the tendency for paper to curl at its edges. Excessive curl can cause paper feeding problems. Curl can occur after the paper passes through the printer, where it is exposed to high temperatures. Storing paper unwrapped in hot, humid, cold, or dry conditions can contribute to paper curling before printing and can cause feeding problems.

Smoothness

Paper smoothness directly affects print quality. If paper is too rough, toner cannot fuse to it properly. If paper is too smooth, it can cause paper feeding or print quality issues. We recommend the use of paper with 50 Sheffield points.

Moisture content

The amount of moisture in paper affects both print quality and the printer ability to feed the paper correctly. Leave paper in its original wrapper until you use it. Exposure of paper to moisture changes can degrade its performance.

Store paper in its original wrapper in the same environment as the printer for 24 to 48 hours before printing. Extend the time several days if the storage or transportation environment is very different from the printer environment. Thick paper may also require a longer conditioning period.

Grain direction

Grain refers to the alignment of the paper fibers in a sheet of paper. Grain is either *grain long*, running the length of the paper, or *grain short*, running the width of the paper.

For 60–120 g/m² (16–32-lb) paper, grain long paper is recommended.

Fiber content

Most high-quality xerographic paper is made from 100 percent chemically treated pulped wood. This content provides the paper with a high degree of stability, resulting in fewer paper feeding problems and better print quality. Paper containing fibers such as cotton can negatively affect paper handling.

Unacceptable paper

The following paper types are not recommended for use with the printer:

- Chemically treated papers used to make copies without carbon paper, also known as carbonless papers, carbonless copy paper (CCP), or no carbon required (NCR) paper
- Preprinted papers with chemicals that may contaminate the printer
- Preprinted papers that can be affected by the temperature in the printer fuser
- Preprinted papers that require a registration (the precise print location on the page) greater than ± 2.3 mm (± 0.9 in.), such as optical character recognition (OCR) forms

In some cases, registration can be adjusted with a software application to successfully print on these forms.

- Coated papers (erasable bond), synthetic papers, thermal papers
- Rough-edged, rough or heavily textured surface papers, or curled papers
- Recycled papers that fail EN12281:2002 (European)
- Paper weighing less than 60 g/m^2 (16 lb)
- Multiple-part forms or documents

Selecting preprinted forms and letterhead

- Use grain long paper.
- Use only forms and letterhead printed using an offset lithographic or engraved printing process.
- Avoid paper with rough or heavily textured surfaces.
- Use inks that are not affected by the resin in toner. Inks that are oxidation-set or oil-based generally meet these requirements; latex inks might not.
- Print samples on preprinted forms and letterheads considered for use before buying large quantities. This action determines whether the ink in the preprinted form or letterhead affects print quality.
- When in doubt, contact your paper supplier.
- When printing on letterhead, load the paper in the proper orientation for your printer. For more information, see the *Paper and Specialty Media Guide*.

Storing paper

Use these paper storage guidelines to help avoid jams and uneven print quality:

- Store paper in its original wrapper in the same environment as the printer for 24 to 48 hours before printing.
- Extend the time several days if the storage or transportation environment is very different from the printer environment. Thick paper may also require a longer conditioning period.
- For best results, store paper where the temperature is 21°C (70°F) and the relative humidity is 40 percent.
- Most label manufacturers recommend printing in a temperature range of $18\text{--}24^\circ\text{C}$ ($65\text{--}75^\circ\text{F}$) with relative humidity between 40 and 60 percent.
- Store paper in cartons, on a pallet or shelf, rather than on the floor.

- Store individual packages on a flat surface.
- Do not store anything on top of individual paper packages.
- Take paper out of the carton or wrapper only when you are ready to load it in the printer. The carton and wrapper help keep the paper clean, dry, and flat.

Supported paper sizes

Paper size	Standard 250-sheet tray	Optional 550-sheet tray	Multipurpose feeder	Two-sided printing	ADF
A4 210 x 297 mm (8.27 x 11.7 in.)	✓	✓	✓	✓	✓
A5 Portrait (SEF) 148 x 210 mm (5.83 x 8.27 in.)	✓	✓	✓	✗	✓

* One-sided paper labels are supported for occasional use of less than 20 pages per month. Vinyl, pharmacy, or two-sided labels are not supported.

Supported paper weights

	Standard 250-sheet tray	Optional 550-sheet tray	Multipurpose feeder	Two-sided printing	Automatic document feeder
Paper weight	60–120 g/m ² (16–32 lb)	60–120 g/m ² (16–32 lb)	60–217 g/m ² (16–58 lb)	60–90 g/m ² (16–24 lb)	60–90 g/m ² (16–24 lb)

Set up, install, and configure

Selecting a location for the printer

- Leave enough room to open trays, covers, and doors and to install hardware options.
- Set up the printer near an electrical outlet.

⚠ CAUTION—POTENTIAL INJURY: To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.

⚡ CAUTION—SHOCK HAZARD: To avoid the risk of electrical shock, do not place or use this product near water or wet locations.

- Make sure that airflow in the room meets the latest revision of the ASHRAE 62 standard or the CEN Technical Committee 156 standard.
- Provide a flat, sturdy, and stable surface.
- Keep the printer:
 - Clean, dry, and free of dust
 - Away from stray staples and paper clips
 - Away from the direct airflow of air conditioners, heaters, or ventilators
 - Free from direct sunlight and humidity extremes
- Observe the recommended temperatures and avoid fluctuations.

Ambient temperature	10 to 32.2°C (50 to 90°F)
Storage temperature	15.6 to 32.2°C (60 to 90°F)

- Allow the following recommended amount of space around the printer for proper ventilation:

1	Top	305 mm (12 in.)
2	Rear	100 mm (3.94 in.)
3	Right side	76.2 mm (3 in.)

4	Front	305 mm (12 in.) Note: The minimum space needed in front of the printer is 76 mm (3 in.).
5	Left side	110 mm (4.33 in.)

Attaching cables

- ⚠ CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, do not set up this product or make any electrical or cabling connections, such as the power cord, fax feature, or telephone, during a lightning storm.
- ⚠ CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.
- ⚠ CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, use only the power cord provided with this product or the manufacturer's authorized replacement.
- ⚠ CAUTION—POTENTIAL INJURY:** To reduce the risk of fire, use only a 26 AWG or larger telecommunications (RJ-11) cord when connecting this product to the public switched telephone network. For users in Australia, the cord must be approved by the Australian Communications and Media Authority.

Warning—Potential Damage: To avoid loss of data or printer malfunction, do not touch the USB cable, any wireless network adapter, or the printer in the areas shown while actively printing.

	Printer port	Function
1	EXT port	Connect more devices (telephone or answering machine) to the printer and the telephone line. Use this port if you do not have a dedicated fax line for the printer and if this connection method is supported in your country or region.
2	LINE port	Connect the printer to an active telephone line through a standard wall jack (RJ-11), DSL filter, or VoIP adapter, or any other adapter that allows you to access the telephone line to send and receive faxes.
3	USB printer port	Connect the printer to a computer.
4	Ethernet port	Connect the printer to a network.

	Printer port	Function
5	Power cord socket	Connect the printer to a properly grounded electrical outlet.

Installing optional trays

⚠ CAUTION—SHOCK HAZARD: To avoid the risk of electrical shock, if you are accessing the controller board or installing optional hardware or memory devices sometime after setting up the printer, then turn the printer off, and unplug the power cord from the electrical outlet before continuing. If you have any other devices attached to the printer, then turn them off as well, and unplug any cables going into the printer.

- 1 Turn off the printer.
- 2 Unplug the power cord from the electrical outlet, and then from the printer.
- 3 Unpack the optional tray, and then remove all packing material.
- 4 Align the printer with the optional tray, and then lower the printer into place.

⚠ CAUTION—POTENTIAL INJURY: If the printer weight is greater than 20 kg (44 lb), then it may require two or more people to lift it safely.

- 5 Connect the power cord to the printer, and then to the electrical outlet.

⚠ CAUTION—POTENTIAL INJURY: To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.

- 6 Turn on the printer.

Add the tray in the print driver to make it available for print jobs. For more information, see [“Adding available options in the print driver” on page 42](#).

Setting up the printer to fax

Setting up the fax function using analog fax

Notes:

- This feature is available only in some printer models.
- Some connection methods are applicable only in some countries or regions.

- If the fax function is enabled and not fully set up, then the indicator light may blink red.
- If you do not have a TCP/IP environment, then use the control panel to set up fax.

Warning—Potential Damage: To avoid loss of data or printer malfunction, do not touch cables or the printer in the area shown while actively sending or receiving a fax.

Using the fax setup wizard in the printer

Notes:

- The setup wizard is available only if no device-based fax, such as analog or Fax over IP (FoIP), is configured.
- Before using the wizard, make sure that the printer firmware is updated. For more information, see [“Updating firmware” on page 41](#).

- 1 From the home screen, touch **Fax**.
- 2 Touch **Set up now**.
- 3 Type the fax name, and then touch **Next**.
- 4 Enter the fax number and then touch **Done**.

Using the Settings menu in the printer

- 1 From the home screen, touch **Settings > Fax > Fax Setup > General Fax settings**.
- 2 Configure the settings.

Using the Embedded Web Server

- 1 Open a web browser, and then type the printer IP address in the address field.

Notes:

- View the printer IP address on the home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.

- If you are using a proxy server, then temporarily disable it to load the web page correctly.

2 Click **Settings > Fax > Fax Setup > General Fax Settings**.

3 Configure the settings.

4 Apply the changes.

Setting up the fax function using fax server

Notes:

- This feature lets you send fax messages to a fax service provider that supports e-mail receiving.
- This feature supports outgoing fax messages only. To support fax receive, make sure that you have a device-based fax, such as analog fax or Fax over IP (FoIP), configured in your printer.

1 Open a web browser, and then type the printer IP address in the address field.

Notes:

- View the printer IP address on the home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the web page correctly.

2 Click **Settings > Fax**.

3 From the Fax Mode menu, select **Fax Server**, and then click **Save**.

4 Click **Fax Server Setup**.

5 In the To Format field, type **[#]@myfax.com**, where **[#]** is the fax number and **myfax.com** is the fax provider domain.

Notes:

- If necessary, configure the Reply Address, Subject, or Message fields.
- To let the printer receive fax messages, enable the device-based fax receive setting. Make sure that you have a device-based fax configured.

6 Click **Save**.

7 Click **Fax Server E-mail Settings**, and then do either of the following:

- Enable **Use E-mail SMTP Server**.

Note: If the E-mail SMTP settings are not configured, then see [“Configuring the e-mail SMTP settings” on page 28](#).

- Configure the SMTP settings. For more information, contact your e-mail service provider.

8 Apply the changes.

Setting up fax using a standard telephone line

Note: These instructions apply only to printers that support analog fax.

CAUTION—SHOCK HAZARD: To avoid the risk of electrical shock, do not set up this product or make any electrical or cabling connections, such as the power cord, fax feature, or telephone, during a lightning storm.

- ⚠ CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, do not use the fax feature during a lightning storm.
- ⚠ CAUTION—POTENTIAL INJURY:** To reduce the risk of fire, use only a 26 AWG or larger telecommunications (RJ-11) cord when connecting this product to the public switched telephone network. For users in Australia, the cord must be approved by the Australian Communications and Media Authority.

Setup 1: Printer is connected to a dedicated fax line

- 1 Connect one end of the telephone cable to the line port of the printer.
- 2 Connect the other end of the cable to an active analog telephone wall jack.

Notes:

- You can set the printer to receive faxes automatically (set Auto Answer to **On**) or manually (set Auto Answer to **Off**).
- If you want to receive faxes automatically, then set the printer to pick up on a specified number of rings.

Setup 2: Printer is sharing the line with an answering machine

Note: If you subscribe to a distinctive ring service, then make sure that you set the correct ring pattern for the printer. Otherwise, the printer does not receive faxes even if you have set it to receive faxes automatically.

Connected to the same telephone wall jack

Note: These instructions apply only to printers that have EXT and line ports.

- Connect one end of the telephone cable to the line port of the printer.
- Connect the other end of the cable to an active analog wall jack.
- Connect the answering machine to the telephone port of the printer.

Connected to different wall jacks

- 1 Connect one end of the telephone cable to the line port of the printer.
- 2 Connect the other end of the cable to an active analog wall jack.

Notes:

- If you have only one telephone number on your line, then set the printer to receive faxes automatically.
- Set the printer to pick up calls two rings after the answering machine. For example, if the answering machine picks up calls after four rings, then set the printer Rings to Answer setting to **6**.

Setting up fax in countries or regions with different telephone wall jacks and plugs

Note: These instructions apply only to printers that support analog fax.

⚡ CAUTION—SHOCK HAZARD: To avoid the risk of electrical shock, do not set up this product or make any electrical or cabling connections, such as the power cord, fax feature, or telephone, during a lightning storm.

 **CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, do not use the fax feature during a lightning storm.

 **CAUTION—POTENTIAL INJURY:** To reduce the risk of fire, use only a 26 AWG or larger telecommunications (RJ-11) cord when connecting this product to the public switched telephone network. For users in Australia, the cord must be approved by the Australian Communications and Media Authority.

The standard wall jack adopted by most countries or regions is RJ-11. If the wall jack or equipment in your facility is not compatible with this type of connection, then use a telephone adapter. An adapter for your country or region may not come with your printer, and you may need to purchase it separately.

There may be an adapter plug installed in the telephone port of the printer. Do not remove the adapter plug from the telephone port of the printer if you are connecting to a serial or cascaded telephone system.

Connecting the printer to a non-RJ-11 wall jack

- 1 Connect one end of the telephone cable to the line port of the printer.
- 2 Connect the other end of the cable to the RJ-11 adapter, and then connect the adapter to the wall jack.
- 3 If you want to connect another device with a non-RJ-11 connector to the same wall jack, then connect it directly to the telephone adapter.

Connecting to a distinctive ring service

A distinctive ring service lets you have multiple telephone numbers on one telephone line. Each telephone number is assigned a different ring pattern.

Note: These instructions apply only to printers that support analog fax.

- 1 From the home screen, touch **Settings > Fax > Fax Setup > Fax Receive Settings > Admin Controls > Answer On**.
- 2 Select a ring pattern.

Setting the fax date and time

Note: Make sure that fax is configured. For more information, see the [Setting up the printer to fax](#) section.

- 1 From the home screen, touch **Settings > Device > Preferences > Date and Time > Configure**.
- 2 Configure the settings.

Configuring daylight saving time

Note: Make sure that fax is configured. For more information, see the [Setting up the printer to fax](#) section.

- 1 From the home screen, touch **Settings > Device > Preferences > Date and Time > Configure**.
- 2 In the Time Zone menu, touch **(UTC+user) Custom**.
- 3 Touch **UTC (GMT) Offset**, and then configure the settings.

Configuring the fax speaker settings

Note: Make sure that fax is configured. For more information, see the [Setting up the printer to fax](#) section.

- 1 From the home screen, touch **Settings > Fax > Fax Setup > Speaker Settings**.
- 2 Do the following:
 - Set Speaker Mode to **Always On**.
 - Set Speaker Volume to **High**.
 - Enable Ringer Volume.

Configuring the e-mail SMTP settings

Configure the Simple Mail Transfer Protocol (SMTP) settings to send a scanned document through e-mail. The settings vary with each e-mail service provider.

Before you begin, make sure that the printer is connected to a network and that the network is connected to the Internet.

Using the Embedded Web Server

- 1 Open a web browser, and then type the printer IP address in the address field.

Notes:

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the web page correctly.

- 2 Click **Settings > E-mail**.

- 3 From the E-mail Setup section, configure the settings.

Notes:

- For more information on the password, see the list of [e-mail service providers](#).

- For e-mail service providers that are not on the list, contact your provider and ask for the settings.

4 Click **Save**.

Using the Settings menu in the printer

1 From the home screen, touch **Settings > E-mail > E-mail Setup**.

2 Configure the settings.

Notes:

- For more information on the password, see the list of [e-mail service providers](#).
- For e-mail service providers that are not on the list, contact your provider and ask for the settings.

E-mail service providers

- [AOL Mail](#)
- [Comcast Mail](#)
- [Gmail](#)
- [iCloud Mail](#)
- [Mail.com](#)
- [NetEase Mail \(mail.126.com\)](#)
- [NetEase Mail \(mail.163.com\)](#)
- [NetEase Mail \(mail.yeah.net\)](#)
- [Outlook Live or Microsoft 365](#)
- [QQ Mail](#)
- [Sina Mail](#)
- [Sohu Mail](#)
- [Yahoo! Mail](#)
- [Zoho Mail](#)

Notes:

- If you encounter errors using the settings provided, then contact your e-mail service provider.
- For e-mail service providers that are not on the list, contact your provider.

AOL Mail

Setting	Value
Primary SMTP Gateway	smtp.aol.com
Primary SMTP Gateway Port	587
Use SSL/TLS	Required
Require Trusted Certificate	Disabled
Reply Address	Your e-mail address
SMTP Server Authentication	Login / Plain
Device-Initiated E-mail	Use Device SMTP Credentials

Setting	Value
Device UserID	Your e-mail address
Device Password	App password Note: To create an app password, go to the AOL Account Security page, log in to your account, and then click Generate app password .

Comcast Mail

Setting	Value
Primary SMTP Gateway	smtp.comcast.net
Primary SMTP Gateway Port	587
Use SSL/TLS	Required
Require Trusted Certificate	Disabled
Reply Address	Your e-mail address
SMTP Server Authentication	Login / Plain
Device-Initiated E-mail	Use Device SMTP Credentials
Device UserID	Your e-mail address
Device Password	Account password

Note: Make sure that the Third Party Access Security setting is enabled on your account. For more information, go to the [Comcast Xfinity Connect help page](#).

Gmail™

Note: Make sure that two-step verification is enabled on your Google account. To enable two-step verification, go to the [Google Account Security](#) page, log in to your account, and then from the “Signing in to Google” section, click **2-Step Verification**.

Setting	Value
Primary SMTP Gateway	smtp.gmail.com
Primary SMTP Gateway Port	587
Use SSL/TLS	Required
Require Trusted Certificate	Disabled
Reply Address	Your e-mail address

Device Password	Account password or app password Notes: <ul style="list-style-type: none"> • For accounts with two-step verification disabled, use your account password. • For accounts with two-step verification enabled, use an app password. To create an app password, go to the Zoho Mail Account Security page, log in to your account, and then from the Application-Specific Passwords section, click Generate New Password.

Loading paper and specialty media

Setting the paper size and type

- 1 From the home screen, navigate to:
Settings > Paper > Tray Configuration > Paper Size/Type > select a paper source
- 2 Set the paper size and type.

Configuring Universal paper settings

- 1 From the home screen, touch **Settings > Paper > Media Configuration > Universal Setup**.
- 2 Configure the settings.

Loading trays

- 1 Remove the tray.
Note: To avoid paper jams, do not remove the tray while the printer is busy.

2 Adjust the guides to match the size of the paper that you are loading.

3 Flex, fan, and align the paper edges before loading.

4 Load the paper stack with the printable side facedown, and then make sure that the guides fit snugly against the paper.

Notes:

- Load letterhead facedown with the header toward the front of the tray for one-sided printing.
- Load letterhead faceup with the header toward the back of the tray for two-sided printing.
- Do not slide paper into the tray.
- To avoid paper jams, make sure that the stack height is below the maximum paper fill indicator.

5 Insert the tray.

If necessary, set the paper size and paper type from the control panel to match the paper loaded.

Loading the multipurpose feeder

- 1 Open the multipurpose feeder.

- 2 Flex, fan, and align the paper edges before loading.

- 3 Load paper with the printable side faceup.

Notes:

- Load letterhead faceup with the header toward the rear of the printer for one-sided printing.
- Load letterhead facedown with the header toward the front of the printer for two-sided printing.
- Load envelopes with the flap facedown on the left side.

Warning—Potential Damage: Do not use envelopes with stamps, clasps, snaps, windows, coated linings, or self-stick adhesives.

- 4 Adjust the guide to match the size of the paper that you are loading.

- 5 From the control panel, set the paper size and paper type to match the paper loaded.

Linking trays

- 1 From the home screen, touch **Settings** > **Paper** > **Tray Configuration** > select a paper source.
- 2 Set the same paper size and paper type for the trays that you are linking.
- 3 From the home screen, touch **Settings** > **Device** > **Maintenance** > **Config Menu** > **Tray Configuration** > **Tray Linking**.
- 4 Touch **Automatic**.

To unlink trays, make sure that no trays have the same paper size and paper type settings.

Warning—Potential Damage: The temperature of the fuser varies according to the specified paper type. To avoid printing issues, match the paper type setting in the printer with the paper loaded in the tray.

Installing and updating software, drivers, and firmware

Installing the printer software

Notes:

- The print driver is included in the software installer package.
 - For Macintosh computers with macOS version 10.7 or later, you do not need to install the driver to print on an AirPrint-certified printer. If you want custom printing features, then download the print driver.
- 1 Obtain a copy of the software installer package.
 - From the software CD that came with your printer.
 - From our website or the place where you purchased the printer.
 - 2 Run the installer, and then follow the instructions on the computer screen.

Installing the fax driver

- 1 Go to our website or the place where you purchased the printer, and then obtain the installer package.
- 2 Run the installer, and then follow the instructions on the computer screen.

Adding printers to a computer

Before you begin, do one of the following:

- Connect the printer and the computer to the same network. For more information on connecting the printer to a network, see [“Connecting the printer to a Wi-Fi network” on page 42](#).
- Connect the computer to the printer. For more information, see [“Connecting a computer to the printer” on page 44](#).
- Connect the printer to the computer using a USB cable. For more information, see [“Attaching cables” on page 19](#).

Note: The USB cable is sold separately.

For Windows users

- 1 From a computer, install the print driver.

Note: For more information, see [“Installing the printer software” on page 39](#).

- 2 Open **Printers & scanners**, and then click **Add a printer or scanner**.
- 3 Depending on your printer connection, do one of the following:
 - Select a printer from the list, and then click **Add device**.
 - Click **Show Wi-Fi Direct printers**, select a printer, and then click **Add device**.
 - Click **The printer that I want isn't listed**, and then from the Add Printer window, do the following:
 - a Select **Add a printer using a TCP/IP address or hostname**, and then click **Next**.
 - b In the “Hostname or IP address” field, type the printer IP address, and then click **Next**.

Notes:

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the web page correctly.

- c Select a print driver, and then click **Next**.
- d Select **Use the print driver that is currently installed (recommended)**, and then click **Next**.
- e Type a printer name, and then click **Next**.
- f Select a printer sharing option, and then click **Next**.
- g Click **Finish**.

For Macintosh users

- 1 From a computer, open **Printers & Scanners**.
- 2 Click **+**, and then select a printer.
- 3 From the Use menu, select a print driver.

Notes:

- To use the Macintosh print driver, select either **AirPrint** or **Secure AirPrint**.
- If you want custom printing features, then select the manufacturer print driver. To install the driver, see [“Installing the printer software” on page 39](#).

4 Add the printer.

Updating firmware

To enhance printer performance and fix issues, update the printer firmware regularly.

For more information on updating the firmware, contact your sales representative.

1 Open a web browser, and then type the printer IP address in the address field.

Notes:

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the web page correctly.

2 Click **Settings > Device > Update Firmware**.

3 Do either of the following:

- Click **Check for updates > I agree, start update**.
- Upload the flash file.
 - a Browse to the flash file.
 - b Click **Upload > Start**.

Exporting or importing a configuration file

You can export the configuration settings of your printer into a text file, and then import the file to apply the settings to other printers.

1 Open a web browser, and then type the printer IP address in the address field.

Notes:

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the web page correctly.

2 From the Embedded Web Server, click **Export Configuration** or **Import Configuration**.

3 Follow the instructions on the screen.

4 If the printer supports applications, then do the following:

- a Click **Apps > select the application > Configure**.
- b Click **Export** or **Import**.

Adding available options in the print driver

For Windows users

- 1 Open the printers folder.
- 2 Select the printer you want to update, and then do either of the following:
 - For Windows 7 or later, select **Printer properties**.
 - For earlier versions, select **Properties**.
- 3 Navigate to the Configuration tab, and then select **Update Now - Ask Printer**.
- 4 Apply the changes.

For Macintosh users

- 1 From System Preferences in the Apple menu, navigate to your printer, and then select **Options & Supplies**.
- 2 Navigate to the list of hardware options, and then add any installed options.
- 3 Apply the changes.

Networking

Connecting the printer to a Wi-Fi network

Before you begin, make sure that:

- Active Adapter is set to Auto. From the home screen, touch **Settings > Network/Ports > Network Overview > Active Adapter**.
- The Ethernet cable is not connected to the printer.

Using the wireless setup wizard in the printer

Before using the wizard, make sure that the printer firmware is updated. For more information, see [“Updating firmware” on page 41](#).

- 1 From the home screen, touch  > **Set up now**.
- 2 Select a Wi-Fi network, and then type the network password.
- 3 Touch **Done**.

Using the Settings menu in the printer

- 1 From the home screen, touch **Settings > Network/Ports > Wireless > Setup On Printer Panel > Choose Network**.
- 2 Select a Wi-Fi network, and then type the network password.

Note: For Wi-Fi-network-ready printer models, a prompt to set up the Wi-Fi network appears during initial setup.

Connecting the printer to a wireless network using Wi-Fi Protected Setup (WPS)

Before you begin, make sure that:

- The access point (wireless router) is WPS-certified or WPS-compatible. For more information, see the documentation that came with your access point.
- A wireless network adapter is installed in your printer. For more information, see the instructions that came with the adapter.
- Active Adapter is set to Auto. From the home screen, touch **Settings** > **Network/Ports** > **Network Overview** > **Active Adapter**.

Using the Push Button method

- 1 From the home screen, touch **Settings** > **Network/Ports** > **Wireless** > **Wi-Fi Protected Setup** > **Start Push Button Method**.
- 2 Follow the instructions on the display.

Using the personal identification number (PIN) method

- 1 From the home screen, touch **Settings** > **Network/Ports** > **Wireless** > **Wi-Fi Protected Setup** > **Start PIN Method**.
- 2 Copy the eight-digit WPS PIN.
- 3 Open a web browser, and then type the IP address of your access point in the address field.

Notes:

- To know the IP address, see the documentation that came with your access point.
- If you are using a proxy server, then temporarily disable it to load the web page correctly.

- 4 Access the WPS settings. For more information, see the documentation that came with your access point.
- 5 Enter the eight-digit PIN, and then save the changes.

Configuring Wi-Fi Direct

Wi-Fi Direct[®] is a Wi-Fi-based peer-to-peer technology that allows wireless devices to connect directly to a Wi-Fi Direct-enabled printer without using an access point (wireless router).

- 1 From the home screen, touch **Settings** > **Network/Ports** > **Wi-Fi Direct**.
- 2 Configure the settings.
 - **Enable Wi-Fi Direct**—Enables the printer to broadcast its own Wi-Fi Direct network.
 - **Wi-Fi Direct Name**—Assigns a name for the Wi-Fi Direct network.
 - **Wi-Fi Direct Password**—Assigns the password for negotiating the wireless security when using the peer-to-peer connection.
 - **Show Password on Setup Page**—Shows the password on the Network Setup Page.
 - **Auto-Accept Push Button Requests**—Lets the printer accept connection requests automatically.

Note: Accepting push-button requests automatically is not secured.

Notes:

- By default, the Wi-Fi Direct network password is not visible on the printer display. To show the password, enable the password peek icon. From the home screen, touch **Settings > Security > Miscellaneous > Enable Password/PIN Reveal**.
- To know the password of the Wi-Fi Direct network without showing it on the printer display, from the home screen touch **Settings > Reports > Network > Network Setup Page**.

Connecting a mobile device to the printer

Before connecting your mobile device, make sure that Wi-Fi Direct has been configured. For more information, see [“Configuring Wi-Fi Direct” on page 43](#).

Connecting using Wi-Fi Direct

Note: These instructions apply only to Android mobile devices.

- 1 From the mobile device, go to the settings menu.
- 2 Enable **Wi-Fi**, and then tap **Wi-Fi Direct**.
- 3 Select the printer Wi-Fi Direct name.
- 4 Confirm the connection on the printer control panel.

Connecting using Wi-Fi

- 1 From the mobile device, go to the settings menu.
- 2 Tap **Wi-Fi**, and then select the printer Wi-Fi Direct name.

Note: The string DIRECT-xy (where x and y are two random characters) is added before the Wi-Fi Direct name.

- 3 Enter the Wi-Fi Direct password.

Connecting a computer to the printer

Before connecting your computer, make sure that Wi-Fi Direct has been configured. For more information, see [“Configuring Wi-Fi Direct” on page 43](#).

For Windows users

- 1 Open **Printers & scanners**, and then click **Add a printer or scanner**.
- 2 Click **Show Wi-Fi Direct printers**, and then select the printer Wi-Fi Direct name.
- 3 From the printer display, take note of the eight-digit PIN of the printer.
- 4 Enter the PIN on the computer.

Note: If the print driver is not already installed, then Windows downloads the appropriate driver.

For Macintosh users

- 1 Click the wireless icon, and then select the printer Wi-Fi Direct name.

Note: The string DIRECT-xy (where x and y are two random characters) is added before the Wi-Fi Direct name.

- 2 Type the Wi-Fi Direct password.

Note: Switch your computer back to its previous network after disconnecting from the Wi-Fi Direct network.

Deactivating the Wi-Fi network

- 1 From the home screen, touch **Settings > Network/Ports > Network Overview > Active Adapter > Standard Network**.
- 2 Follow the instructions on the display.

Checking the printer connectivity

- 1 From the home screen, touch **Settings > Reports > Network > Network Setup Page**.
- 2 Check the first section of the network setup page, and confirm that the status is connected.
If the status is not connected, then the LAN drop may be inactive, or the network cable may be malfunctioning. Contact your administrator for assistance.

Printing the Menu Settings Page

From the home screen, touch **Settings > Reports > Menu Settings Page**.

Secure the printer

Locating the security slot

The printer is equipped with a security lock feature. Attach a security lock compatible with most laptop computers in the location shown to secure the printer in place.

Erasing printer memory

To erase volatile memory or buffered data in your printer, turn off the printer.

To erase non-volatile memory or individual settings, device and network settings, security settings, and embedded solutions, do the following:

- 1 From the home screen, touch **Settings** > **Device** > **Maintenance** > **Out of Service Erase**.
- 2 Select the **Sanitize all information on nonvolatile memory** check box, and then touch **OK**.
- 3 Select either **Start initial setup** or **Leave printer offline**, and then touch **OK**.

Restoring factory default settings

- 1 From the home screen, touch **Settings** > **Device** > **Restore Factory Defaults**.
- 2 In the Restore Settings menu, select the settings that you want to restore.
- 3 Touch **RESTORE**.
- 4 Follow the instructions on the display.

Statement of Volatility

Your printer contains various types of memory that can store device and network settings, and user data.

Type of memory	Description
Volatile memory	Your printer uses standard <i>random access memory</i> (RAM) to temporarily buffer user data during simple print jobs.
Non-volatile memory	Your printer may use two forms of non-volatile memory: EEPROM and NAND (flash memory). Both types are used to store operating system, device settings, and network information.

Erase the content of any installed printer memory in the following circumstances:

- The printer is being decommissioned.
- The printer is being moved to a different department or location.
- The printer is being serviced by someone from outside your organization.
- The printer is being removed from your premises for service.
- The printer is being sold to another organization.

Print

Printing from a computer

Note: For labels, card stock, and envelopes, set the paper size and type in the printer before printing the document.

- 1 From the document that you are trying to print, open the Print dialog.
- 2 If necessary, adjust the settings.
- 3 Print the document.

Printing from a mobile device

Printing from a mobile device using AirPrint

The AirPrint software feature is a mobile printing solution that allows you to print directly from Apple devices to an AirPrint-certified printer.

Notes:

- Make sure that the Apple device and the printer are connected to the same network. If the network has multiple wireless hubs, then make sure that both devices are connected to the same subnet.
- This application is supported only in some Apple devices.

- 1 From your mobile device, select a document from your file manager or launch a compatible application.
- 2 Tap  > **Print**.
- 3 Select a printer, and then adjust the settings, if necessary.
- 4 Print the document.

Printing from a mobile device using Wi-Fi Direct®

Wi-Fi Direct® is a printing service that lets you print to any Wi-Fi Direct-ready printer.

Note: Make sure that the mobile device is connected to the printer wireless network. For more information, see [“Connecting a mobile device to the printer” on page 44](#).

- 1 From your mobile device, launch a compatible application or select a document from your file manager.
- 2 Depending on your mobile device, do one of the following:
 - Tap  > **Print**.
 - Tap  > **Print**.
 - Tap  > **Print**.
- 3 Select a printer, and then adjust the settings, if necessary.
- 4 Print the document.

Printing from a flash drive

- 1 Insert the flash drive.

Notes:

- If you insert the flash drive when an error message appears, then the printer ignores the flash drive.
- If you insert the flash drive while the printer is processing other print jobs, then **Busy** appears on the display.

- 2 From the display, touch the document that you want to print.

If necessary, configure other print settings.

- 3 Send the print job.

To print another document, touch **USB Drive**.

Warning—Potential Damage: To avoid loss of data or printer malfunction, do not touch the flash drive or the printer in the area shown while actively printing, reading, or writing from the memory device.

Supported flash drives and file types

Flash drives

Notes:

- The printer supports high-speed flash drives with full-speed standard.
- Flash drives must support the File Allocation Table (FAT) system.

Many flash drives are tested and approved for use with the printer. For more information, contact the place where you purchased the printer.

File types

- GIF
- JPEG or JPG
- BMP
- PCX
- TIFF or TIF
- PNG

Configuring confidential jobs

- 1 From the home screen, touch **Settings** > **Security** > **Confidential Print Setup**.
- 2 Configure the settings.

Setting	Description
Max Invalid PIN	Set the limit for entering an invalid PIN. Note: When the limit is reached, the print jobs for that user name are deleted.
Confidential Job Expiration	Set an individual expiration time for each held job before it is automatically deleted from the printer memory, hard disk, or intelligent storage drive. Note: A held job is either Confidential, Repeat, Reserve, or Verify.
Repeat Job Expiration	Set the expiration time for print jobs that you want to repeat.
Verify Job Expiration	Set the expiration time for printing a copy of a job for you to check its quality before printing the remaining copies.
Reserve Job Expiration	Set the expiration time for jobs that you want to store in the printer for printing later.
Require All Jobs to be Held	Set the printer to hold all print jobs.
Keep duplicate documents	Set the printer to keep all documents with the same file name.

Printing confidential and other held jobs

For Windows users

- 1 With a document open, click **File > Print**.
- 2 Select a printer, and then click **Properties, Preferences, Options, or Setup**.
- 3 Click **Print and Hold**.
- 4 Select **Use Print and Hold**, and then assign a user name.
- 5 Select the print job type (Confidential, Repeat, Reserve, or Verify).
If you select **Confidential**, then secure the print job with a personal identification number (PIN).
- 6 Click **OK** or **Print**.
- 7 From the printer home screen, release the print job.
 - For confidential print jobs, touch **Held jobs** > select your user name > **Confidential** > enter the PIN > select the print job > configure the settings > **Print**.
 - For other print jobs, touch **Held jobs** > select your user name > select the print job > configure the settings > **Print**.

For Macintosh users

Using AirPrint

- 1 With a document open, choose **File > Print**.
- 2 Select a printer, and then from the drop-down menu following the Orientation menu, choose **PIN Printing**.
- 3 Enable **Print with PIN**, and then enter a four-digit PIN.

- 4 Click **Print**.
- 5 From the printer home screen, release the print job. Touch **Held jobs** > select your computer name > **Confidential** > enter the PIN > select the print job > **Print**.

Using the print driver

- 1 With a document open, choose **File** > **Print**.
- 2 Select a printer, and then from the drop-down menu following the Orientation menu, choose **Print and Hold**.
- 3 Choose **Confidential Print**, and then enter a four-digit PIN.
- 4 Click **Print**.
- 5 From the printer home screen, release the print job. Touch **Held jobs** > select your computer name > **Confidential** > select the print job > enter the PIN > **Print**.

Printing a font sample list

- 1 From the home screen, touch **Settings** > **Reports** > **Print** > **Print Fonts**.
- 2 Touch **PCL Fonts** or **PostScript Fonts**.

Placing separator sheets between copies

- 1 From the home screen, touch **Settings** > **Print** > **Layout** > **Separator Sheets** > **Between Copies**.
- 2 Print the document.

Canceling a print job

From the printer control panel

- 1 From the home screen, touch **Cancel Job**.
- 2 Select a job to cancel.

From the computer

- 1 Depending on the operating system, do either of the following:
 - Open the printers folder, and then select your printer.
 - From the System Preferences in the Apple menu, navigate to your printer, and then open the print queue.
- 2 Select a job to cancel.

Adjusting toner darkness

- 1 From the home screen, touch **Settings** > **Print** > **Quality** > **Toner Darkness**.
- 2 Select a setting.

Copy

Using the automatic document feeder and scanner glass

Automatic document feeder (ADF)	Scanner glass
 <ul style="list-style-type: none"> • Use the ADF for multiple-page or two-sided documents. • Load an original document faceup. For multiple-page documents, make sure to align the leading edge before loading. • Make sure to adjust the ADF guides to match the width of the paper that you are loading. 	 <ul style="list-style-type: none"> • Use the scanner glass for single-page documents, book pages, small items (such as postcards or photos), transparencies, photo paper, or thin media (such as magazine clippings). • Place the document facedown in the corner with the arrow.

Making copies

- 1 Load an original document into the ADF tray or on the scanner glass.

Note: To avoid a cropped image, make sure that the original document and output have the same paper size.

- 2 From the home screen, touch **Copy**, and then specify the number of copies.
If necessary, adjust the copy settings.
- 3 Copy the document.

Note: To make a quick copy, from the control panel, press .

Copying photos

- 1 Place a photo on the scanner glass.
- 2 From the home screen, touch **Copy** > **Content Type** > **Photo**.
- 3 Copy the document.

Copying on letterhead

- 1 Load an original document into the ADF tray or on the scanner glass.
- 2 From the home screen, touch **Copy** > **Copy From** > select the size of the original document.
- 3 Touch **Copy To**, and then select the paper source that contains the letterhead.
If you loaded the letterhead into the multipurpose feeder, then touch **Copy To** > **MP Feeder** > select a paper size > **Letterhead**.
- 4 Copy the document.

Copying on both sides of the paper

- 1 Load an original document into the ADF tray or on the scanner glass.
- 2 From the home screen, touch **Copy** > **Sides**.
- 3 Touch **1 sided to 2 sided** or **2 sided to 2 sided**.
- 4 Copy the document.

Reducing or enlarging copies

- 1 Load an original document into the ADF tray or on the scanner glass.
- 2 From the home screen, touch **Copy** > **Scale** > select a scale value.
Note: Changing the size of the original document or output after setting Scale restores the scale value to Auto.
- 3 Copy the document.

Copying multiple pages onto a single sheet

- 1 Load an original document into the ADF tray or on the scanner glass.
- 2 From the home screen, touch **Copy** > **Pages per Side**.
- 3 Adjust the settings.
- 4 Copy the document.

Collating copies

- 1 Load an original document into the ADF tray or on the scanner glass.
- 2 From the home screen, touch **Copy** > **Collate** > **On [1,2,1,2,1,2]**.
- 3 Copy the document.

Copying cards

- 1 Load a card on the scanner glass.
- 2 From the home screen, touch **Copy** > **Copy From**.
- 3 Touch **ID Card**.
- 4 Copy the card.

Creating a copy shortcut

- 1 From the home screen, touch **Copy**.
- 2 Configure the settings, and then touch .
- 3 Create a shortcut.

E-mail

Using the automatic document feeder and scanner glass

Automatic document feeder (ADF)	Scanner glass
 <ul style="list-style-type: none"> • Use the ADF for multiple-page or two-sided documents. • Load an original document faceup. For multiple-page documents, make sure to align the leading edge before loading. • Make sure to adjust the ADF guides to match the width of the paper that you are loading. 	 <ul style="list-style-type: none"> • Use the scanner glass for single-page documents, book pages, small items (such as postcards or photos), transparencies, photo paper, or thin media (such as magazine clippings). • Place the document facedown in the corner with the arrow.

Sending an e-mail

Before you begin, make sure that the SMTP settings are configured. For more information, see [“Configuring the e-mail SMTP settings” on page 28](#).

- 1 Load an original document into the ADF tray or on the scanner glass.
- 2 From the home screen, touch **E-mail**, and then enter the needed information.
- 3 If necessary, configure the scan settings.
- 4 Send the e-mail.

Creating an e-mail shortcut

- 1 From the home screen, touch **E-mail**.
- 2 Configure the settings, and then touch .
- 3 Create a shortcut.

Fax

Using the automatic document feeder and scanner glass

Automatic document feeder (ADF)	Scanner glass
 <ul style="list-style-type: none"> • Use the ADF for multiple-page or two-sided documents. • Load an original document faceup. For multiple-page documents, make sure to align the leading edge before loading. • Make sure to adjust the ADF guides to match the width of the paper that you are loading. 	 <ul style="list-style-type: none"> • Use the scanner glass for single-page documents, book pages, small items (such as postcards or photos), transparencies, photo paper, or thin media (such as magazine clippings). • Place the document facedown in the corner with the arrow.

Sending a fax

Note: Make sure that fax is configured. For more information, see the [Setting up the printer to fax](#) section.

Using the control panel

- 1 Load an original document into the ADF tray or on the scanner glass.
- 2 From the home screen, touch **Fax**, and then enter the needed information.
If necessary, adjust the settings.
- 3 Send the fax.

Using the computer

Before you begin, make sure that the fax driver is installed. For more information, see [“Installing the fax driver” on page 40](#).

For Windows users

- 1 From the document that you are trying to fax, open the Print dialog.
- 2 Select the printer, and then click **Properties**, **Preferences**, **Options**, or **Setup**.

- 3 Click **Fax** > **Enable fax** > **Always display settings prior to faxing**, and then enter the recipient number.
If necessary, configure other fax settings.
- 4 Send the fax.

For Macintosh users

- 1 With a document open, choose **File** > **Print**.
- 2 Select the printer that has - **Fax** added after its name.
- 3 In the To field, enter the recipient number.
If necessary, configure other fax settings.
- 4 Send the fax.

Scheduling a fax

Note: Make sure that fax is configured. For more information, see the [Setting up the printer to fax](#) section.

- 1 Load an original document into the ADF tray or on the scanner glass.
- 2 From the home screen, touch **Fax** > **To** > enter the fax number > **Done**.
- 3 Touch **Send Time**, configure the date and time, and then touch **OK**.
- 4 Send the fax.

Creating a fax destination shortcut

Note: Make sure that fax is configured. For more information, see the [Setting up the printer to fax](#) section.

- 1 From the home screen, touch **Fax** > **To**.
- 2 Enter the recipient number, and then touch **Done**.
- 3 Configure the settings, and then touch .
- 4 Create a shortcut.

Changing the fax resolution

Note: Make sure that fax is configured. For more information, see the [Setting up the printer to fax](#) section.

- 1 Load an original document into the ADF tray or on the scanner glass.
- 2 From the home screen, touch **Fax**, and then enter the needed information.
- 3 Touch **Resolution**, and then select a setting.
- 4 Send the fax.

Adjusting the fax darkness

Note: Make sure that fax is configured. For more information, see the [Setting up the printer to fax](#) section.

- 1 Load an original document into the ADF tray or on the scanner glass.
- 2 From the home screen, touch **Fax**, and then enter the needed information.
- 3 Touch **Darkness**, and then adjust the setting.
- 4 Send the fax.

Printing a fax log

Note: Make sure that analog fax or etherFAX is configured. For more information, see the [Setting up the printer to fax](#) section.

- 1 From the home screen, touch **Settings** > **Reports** > **Fax**.
- 2 Touch **Fax Job Log** or **Fax Call Log**.

Blocking junk faxes

Note: Make sure that analog fax or etherFAX is configured. For more information, see the [Setting up the printer to fax](#) section.

- 1 From the home screen, touch **Settings** > **Fax** > **Fax Setup** > **Fax Receive Settings** > **Admin Controls**.
- 2 Set Block No Name Fax to **On**.

Holding faxes

Note: Make sure that analog fax or etherFAX is configured. For more information, see the [Setting up the printer to fax](#) section.

- 1 From the home screen, touch **Settings** > **Fax** > **Fax Setup** > **Fax Receive Settings** > **Holding Faxes**.
- 2 Select a mode.

Forwarding a fax

Note: Make sure that analog fax or etherFAX is configured. For more information, see the [Setting up the printer to fax](#) section.

- 1 Create a destination shortcut.
 - a Open a web browser, and then type the printer IP address in the address field.

Notes:

- View the printer IP address on the home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.

- If you are using a proxy server, then temporarily disable it to load the web page correctly.

b Click **Shortcuts > Add Shortcut**.

c Select a shortcut type, and then configure the settings.

Note: Take note of the shortcut number.

d Apply the changes.

2 Click **Settings > Fax > Fax Setup > Fax Receive Settings > Admin Controls**.

3 In the Fax Forwarding menu, select **Forward** or **Print and Forward**.

4 In the Forward to menu, select the destination type and then type the shortcut number.

5 Apply the changes.

Scan

Using the automatic document feeder and scanner glass

Automatic document feeder (ADF)	Scanner glass
 <ul style="list-style-type: none">• Use the ADF for multiple-page or two-sided documents.• Load an original document faceup. For multiple-page documents, make sure to align the leading edge before loading.• Make sure to adjust the ADF guides to match the width of the paper that you are loading.	 <ul style="list-style-type: none">• Use the scanner glass for single-page documents, book pages, small items (such as postcards or photos), transparencies, photo paper, or thin media (such as magazine clippings).• Place the document facedown in the corner with the arrow.

Scanning to a computer

Before you begin, make sure that the computer and the printer are connected to the same network.

For Windows users

Note: Make sure that the printer is added to the computer. For more information, see [“Adding printers to a computer” on page 40](#).

- 1 Load an original document into the automatic document feeder or on the scanner glass.
- 2 From the computer, open **Windows Fax and Scan**.
- 3 From the Source menu, select a scanner source.
- 4 If necessary, change the scan settings.
- 5 Scan the document.

For Macintosh users

Note: Make sure that the printer is added to the computer. For more information, see [“Adding printers to a computer” on page 40](#).

- 1 Load an original document into the automatic document feeder or on the scanner glass.
- 2 From the computer, do either of the following:
 - Open **Image Capture**.
 - Open **Printers & Scanners**, and then select a printer. Click **Scan > Open Scanner**.
- 3 From the Scanner window, do one or more of the following:
 - Select where you want to save the scanned document.
 - Select the size of the original document.
 - To scan from the ADF, select **Document Feeder** from the Scan Menu or enable **Use Document Feeder**.
 - If necessary, configure the scan settings.
- 4 Click **Scan**.

Scanning to an FTP server using a shortcut

- 1 Create an FTP shortcut.
 - a Open a web browser, and then type the printer IP address in the address field.

Notes:

 - View the printer IP address on the home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
 - If you are using a proxy server, then temporarily disable it to load the web page correctly.
 - b Click **Shortcuts > Add Shortcut**.
 - c From the Shortcut Type menu, select **FTP**, and then configure the settings.
 - d Apply the changes.
- 2 Load an original document into the ADF tray or on the scanner glass.
- 3 From the home screen, touch **Shortcuts > FTP**
- 4 Select the shortcut.

Scanning to a network folder using a shortcut

- 1 Create a network folder shortcut.
 - a Open a web browser, and then type the printer IP address in the address field.

Notes:

 - View the printer IP address on the home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
 - If you are using a proxy server, then temporarily disable it to load the web page correctly.
 - b Click **Shortcuts > Add Shortcut**.

- c From the Shortcut Type menu, select **Network Folder**, and then configure the settings.
 - d Apply the changes.
- 2 Load an original document into the ADF tray or on the scanner glass.
- 3 From the home screen, touch **Shortcuts > Scan to Network**.
- 4 Select the shortcut.

Scanning to a flash drive

- 1 Load an original document into the ADF tray or on the scanner glass.
- 2 Insert the flash drive.

- 3 Touch **Scan to USB** and adjust the settings if necessary.

Notes:

- To save the scanned document to a folder, touch **Scan to**, select a folder, and then touch **Scan Here**.
- If the USB Drive screen does not appear, then touch **USB Drive** on the control panel.

- 4 Scan the document.

Warning—Potential Damage: To avoid loss of data or printer malfunction, do not touch the flash drive or the printer in the area shown while actively printing, reading, or writing from the memory device.

Device

Preferences

Menu item	Description
Display Language	Set the language of the text that appears on the display.
Country/Region	Identify the country or region that the printer is configured to operate.
Run Initial Setup Yes No*	Run the setup wizard.
Displayed information Display Text 1 Display Text 2	Specify the information to appear on the home screen.
Date and Time Configure Current Date and Time Manually Set Date and Time Date Format (MM-DD-YYYY*) Time Format (12 hour A.M./P.M.*) Time Zone (GMT*) Network Time Protocol Enable NTP NTP Server Enable Authentication (None*)	Configure the printer date and time.
Paper Sizes U.S.* Metric	Specify the unit of measurement for paper sizes. Note: The country or region selected in the initial setup wizard determines the initial paper size setting.
Screen Brightness 20–100% (100*)	Adjust the brightness of the display.
Flash Drive Access Disabled Enabled*	Enable access to the flash drive.
One Page Flatbed Scanning On Off*	Set copies from the scanner glass to only one page at a time.
Screen Timeout 5–300 (60*)	Set the idle time in seconds before the display shows the home screen, or before the printer logs out a user account automatically.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Eco-Mode

Menu item	Description
Print Sides 1-Sided* 2-Sided	Specify whether to print on one side or two sides of the paper.
Print Pages per Side Off* 2 pages per side 3 pages per side 4 pages per side 6 pages per side 9 pages per side 12 pages per side 16 pages per side	Print multiple page images on one side of a sheet of paper.
Print Toner Darkness Light Normal* Dark	Determine the lightness or darkness of text or images.
Copy Sides 1 sided to 1 sided* 1 sided to 2 sided	Specify whether to print on one side or both sides of the paper.
Copy Pages per Side Off* 2 Portrait pages 4 Portrait pages 2 Landscape pages 4 Landscape pages	Specify the number of page images to print on one side of a sheet of paper.
Copy Darkness 1-9 (5*)	Adjust the darkness of the scanned image.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Remote Operator Panel

Menu item	Description
External VNC Connection Don't Allow* Allow	Connect an external Virtual Network Computing (VNC) client to the remote control panel.
Authentication Type None* Standard Authentication	Set the authentication type when accessing the VNC client server.
VNC Password	Specify the password to connect to the VNC client server. Note: This menu item appears only if Authentication Type is set to Standard Authentication.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Notifications

Menu item	Description
ADF Loaded Beep Off On*	Enable a sound when loading paper into the ADF.
Alarm Control Off Single* Continuous	Set the number of times that the alarm sounds when the printer requires user intervention.
Supplies Show Supply Estimates Show estimates* Do not show estimates	Show the estimated status of the supplies.
Supplies Cartridge Alarm Off* Single Continuous	Set the number of times that the alarm sounds when the cartridge is low.
Note: An asterisk (*) next to a value indicates the factory default setting.

Error Prevention Jam Assist Off On*	Set the printer to check for jammed paper automatically.
Error Prevention Auto Continue Disabled Enabled* (5 seconds) Auto Continue Time	Let the printer continue processing or printing a job automatically after clearing certain attendance conditions.
Error Prevention Auto Reboot Auto Reboot (Reboot always*)	Set the printer to restart when an error occurs.
Error Prevention Auto Reboot Max Auto Reboots (2*)	Set the number of automatic reboots that the printer can perform.
Error Prevention Auto Reboot Auto Reboot Window (720*)	Set the number of seconds before the printer performs an automatic reboot.
Error Prevention Auto Reboot Auto Reboot Counter	Show a read-only information of the reboot counter.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Menu item	Description
Error Prevention Display Short Paper Error On Auto-clear*	Set the printer to show a message when a short paper error occurs. Note: Short paper refers to the size of the paper loaded.
Error Prevention Page Protect Off* On	Set the printer to process the entire page into the memory before printing it.
Jam Content Recovery Jam Recovery Off On Auto*	Set the printer to reprint jammed pages.
Jam Content Recovery Scanner Jam Recovery Job level Page level*	Specify how to restart a scan job after resolving a paper jam.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Power Management

Menu item	Description
Sleep Mode Profile Print from Sleep Mode Stay awake after printing Enter Sleep Mode after printing*	Set the printer to stay in Ready mode or return to Sleep mode after printing.
Timeouts Sleep Mode 1–120 minutes (15*)	Set the idle time before the printer begins operating in Sleep mode.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Menu item	Description
Timeouts Hibernate Timeout Disabled 1 hour 2 hours 3 hours 6 hours 1 day 2 days 3 days* 1 week 2 weeks 1 month	Set the time before the printer turns off.
Timeouts Hibernate Timeout on Connection Hibernate Do Not Hibernate*	Set Hibernate Timeout to turn off the printer while an active Ethernet connection exists.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Anonymous Data Collection

Menu item	Description
Anonymous Data Collection Device Usage and Performance Information None*	Send printer usage and performance information to the manufacturer. Note: Anonymous Data Send Time appears only when you set Anonymous Data Collection to Device Usage and Performance.
Anonymous Data Send Time Start Time Stop Time	
Note: An asterisk (*) next to a value indicates the factory default setting.	

Restore Factory Defaults

Menu item	Description
Restore Settings Restore all settings Restore printer settings Restore network settings Restore fax settings	Restore the printer factory default settings.

Maintenance

Config Menu

Menu item	Description
USB Configuration USB PnP 1* 2	Change the USB driver mode of the printer to improve its compatibility with a personal computer.
USB Configuration USB Scan to Local On* Off	Set whether the USB device driver enumerates as a USB Simple device (single interface) or as a USB Composite device (multiple interfaces).
USB Configuration USB Speed Full Auto*	Set the USB port to run at full speed and disable its high-speed capabilities.
Tray Configuration Tray Linking Automatic* Off	Set the printer to link the trays that have the same paper type and paper size settings.
Tray Configuration Show Tray Insert Message Off Only for unknown sizes* Always	Display a message to select paper size and type after inserting the tray.
Tray Configuration A5 Loading Short Edge Long Edge*	Specify the page orientation when loading A5 paper size.
Tray Configuration Paper Prompts Auto* MP Feeder Manual Paper	Set the paper source that the user fills when a prompt to load paper appears.
Tray Configuration Envelope Prompts Auto* MP Feeder Manual Envelope	Set the paper source that the user fills when a prompt to load envelope appears.

Note: An asterisk (*) next to a value indicates the factory default setting.

Menu item	Description
Tray Configuration Action for Prompts Prompt user* Continue Use current	Set the printer to resolve paper- or envelope-related change prompts.
Reports Menu Settings Page Event Log Event Log Summary	Print reports about printer menu settings, status, and event logs.
Supply Usage And Counters Clear Supply Usage History Reset Black Cartridge Counter Reset Black Imaging Unit Counter Reset Maintenance Counter	Reset the supply page counter or view the total printed pages.
Printer Emulations PS Emulation Off On*	Set the printer to recognize and use the PS data stream.
Printer Emulations Emulator Security Page Timeout 0–60 (60*)	Set the page timeout during emulation.
Printer Emulations Emulator Security Reset Emulator After Job (Off*)	Reset the emulator after a print job.
Printer Emulations Emulator Security Disable Printer Message Access (On*)	Disable access to the printer message during emulation.
Fax Configuration Fax Low Power Support Disable Sleep Permit Sleep Auto*	Set fax to enter Sleep mode whenever the printer determines that it must. Note: This menu item is available only in some printer models.
Print Configuration Font Sharpening 0–150 (24*)	Set a text point-size value below which the high-frequency screens are used when printing font data.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Menu item	Description
Print Configuration Print Density Disabled 1–5 (3*) Copy Density Disabled 1–5 (3*)	Adjust the toner density when printing or copying documents.
Device Operations Quiet Mode On Off*	Set the printer to reduce the amount of noise that it makes when printing. Note: Enabling this setting slows down the overall performance of the printer.
Device Operations Panel Menus Enable* Disable	Set the printer to show the control panel menus. Note: This menu item appears only in the Embedded Web Server.
Device Operations Safe Mode Off* On	Set the printer to operate in a special mode, in which it attempts to continue offering as much functionality as possible, despite known issues. For example, when set to On, and the duplex motor is nonfunctional, the printer performs one-sided printing of the documents even if the job is two-sided printing. Note: This setting cannot be used when the tray is not fully inserted or the tray sensor is damaged.
Device Operations Clear Custom Status	Erase all custom messages.
Device Operations Clear all remotely-installed messages	Erase all remotely-installed messages.
Device Operations Automatically Display Error Screens On* Off	Show existing error messages on the display after the printer remains inactive on the home screen for a length of time equal to the Screen Timeout setting.
Scanner Configuration Scanner Manual Registration Print Quick Test	Print a Quick Test target page. Note: Make sure that the margin spacing on the target page is uniform all the way around the target. If it is not, then the printer margins must be reset.
Scanner Configuration Scanner Manual Registration Front ADF Registration Flatbed Registration	Manually register the flatbed and ADF after replacing the ADF, scanner glass, or controller board.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Menu item	Description
Scanner Configuration Edge Erase Flatbed Edge Erase (3*) ADF Edge Erase (3*)	Set the size, in millimeters, of the no-print area around an ADF or flatbed scan job.
Scanner Configuration Disable Scanner Enabled* Disabled ADF Disabled	Disable the scanner if it is not working properly.
Scanner Configuration Tiff Byte Order CPU Endianness* Little Endian Big Endian	Set the byte order of a TIFF-formatted scan output.
Scanner Configuration Exact Tiff Rows Per Strip On* Off	Set the RowsPerStrip tag value of a TIFF-formatted scan output.

Note: An asterisk (*) next to a value indicates the factory default setting.

Out of Service Erase

Menu item	Description
Sanitize all information on nonvolatile memory Erase all printer and network settings Erase all shortcuts and shortcut settings	Clear all settings and applications that are stored in the printer.

Visible Home Screen Icons

Menu	Description
Copy E-mail Fax Status/Supplies Job Queue Change Language Held Jobs USB Scan to Computer	Specify which icons to show on the home screen.

About this Printer

Menu item	Description
Asset Tag	Describe the printer. The maximum length is 32 characters.
Printer Location	Identify the printer location. The maximum length is 63 characters.
Contact	Personalize the printer name. The maximum length is 63 characters.
Export Configuration File to USB	Export configuration files to a flash drive.
Export Compressed Logs to USB	Export compressed log files to a flash drive.

Print

Layout

Menu item	Description
Sides 1-Sided* 2-Sided	Specify whether to print on one side or both sides of the paper.
Flip Style Long Edge* Short Edge	Determine which side of the paper is bound when performing two-sided printing. Note: Depending on the option selected, the printer automatically offsets each printed information of the page to bind the job correctly.
Blank Pages Print Do Not Print*	Print blank pages that are included in a print job.
Collate Off [1,1,1,2,2,2] On [1,2,1,2,1,2]*	Keep the pages of a print job stacked in sequence, particularly when printing multiple copies of the job.
Separator Sheets None* Between Copies Between Jobs Between Pages	Insert blank separator sheets when printing.
Separator Sheet Source Tray [x] (1*) MP Feeder	Specify the paper source for the separator sheet.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Menu item	Description
Pages per Side Off* 2 pages per side 3 pages per side 4 pages per side 6 pages per side 9 pages per side 12 pages per side 16 pages per side	Print multiple page images on one side of a sheet of paper.
Pages per Side Ordering Horizontal* Reverse Horizontal Vertical Reverse Vertical	Specify the positioning of multiple page images when using Pages per Side. Note: The positioning depends on the number of page images and their page orientation.
Pages per Side Orientation Auto* Landscape Portrait	Specify the orientation of a multiple-page document when using Pages per Side.
Pages per Side Border None* Solid	Print a border around each page image when using Pages per Side.
Copies 1–9999 (1*)	Specify the number of copies for each print job.
Print Area Normal* Whole Page	Set the printable area on a sheet of paper.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Setup

Menu item	Description
Printer Language PCL Emulation* PS Emulation	Set the printer language. Note: Setting a printer language default does not prevent a software program from sending print jobs that use another printer language.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Menu item	Description
Resource Save Off* On	Determine what the printer does with downloaded resources, such as fonts and macros, when it receives a job that requires more than the available memory. Notes: <ul style="list-style-type: none"> • When set to Off, the printer retains downloaded resources only until memory is needed. Resources associated with the inactive printer language are deleted. • When set to On, the printer preserves all the permanent downloaded resources across all language switches. When necessary, the printer shows memory full messages instead of deleting permanent resources.
Print All Order Alphabetical* Newest First Oldest First	Specify the order when you choose to print all held and confidential jobs.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Quality

Menu item	Description
Print Resolution 300 dpi 600 dpi* 1200 Image Q 2400 Image Q	Set the resolution for the text and images on the printed output. Note: Resolution is determined in dots per inch or image quality.
Toner Darkness Light Normal* Dark	Determine the lightness or darkness of text images.
Halftone Normal* Detail	Enhance the printed output to have smoother lines with sharper edges.
Note: An asterisk (*) next to a value indicates the factory default setting.	

PDF

Menu item	Description
Scale To Fit Yes No*	Scale the page content to fit the selected paper size.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Menu item	Description
Annotations Print Do Not Print*	Specify whether to print annotations in the PDF.
Print PDF Error Off On*	Enable the printing of PDF error.
Note: An asterisk (*) next to a value indicates the factory default setting.	

PostScript

Menu item	Description
Print PS Error Off* On	Print a page that describes the PostScript® error. Note: When an error occurs, processing of the job stops, the printer prints an error message, and the rest of the print job is flushed.
Minimum Line Width 1–30 (2*)	Set the minimum stroke width. Note: Jobs printed in 1200 dpi use the value directly.
Lock PS Startup Mode Off On*	Disable the SysStart file.
Wait Timeout Disabled Enabled*	Set the printer to wait for more data before canceling a print job. Note: Wait Timeout Time appears only when Wait Timeout is enabled.
Wait Timeout Time 15–65535 (40 seconds*)	
Note: An asterisk (*) next to a value indicates the factory default setting.	

PCL

Menu item	Description
Font Name [List of available fonts] (Courier*)	Select a font from the specified font source.
Symbol Set [List of available symbol set] (10U PC-8*)	Specify the symbol set for each font name. Note: A symbol set is a set of alphabetic and numeric characters, punctuation, and special symbols. Symbol sets support the different languages or specific programs such as math symbols for scientific text.
Pitch 0.08–100.00 (10.00*)	Specify the pitch for fixed or monospaced fonts. Note: Pitch refers to the number of fixed-space characters in a horizontal inch of type.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Menu item	Description
Orientation Portrait* Landscape Reverse Portrait Reverse Landscape	Specify the orientation of text and graphics on the page.
Lines per Page 1–255	Specify the number of lines of text for each page printed through the PCL® data stream. Notes: <ul style="list-style-type: none"> • This menu item activates vertical escapement that causes the selected number of requested lines to print between the default margins of the page. • 60 is the U.S. factory default setting. 64 is the international factory default setting.
PCL5 Minimum Line Width 1–30 (2*)	Set the initial minimum stroke width. Note: Jobs printed in 1200 dpi use the value directly.
PCLXL Minimum Line Width 1–30 (2*)	
A4 Width 198 mm* 203 mm	Set the width of the logical page on A4-size paper. Note: Logical page is the space on the physical page where data is printed.
Auto CR after LF Off* On	Set the printer to perform a carriage return after a line feed control command. Note: Carriage return is a mechanism that commands the printer to move the position of the cursor to the first position on the same line.
Auto LF after CR Off* On	Set the printer to perform a line feed after a carriage return control command.
Tray Renumber Assign MP Feeder Assign Tray [x] Assign Manual Paper Assign Manual Envelope	Configure the printer to work with a different print driver or custom application that uses a different set of source assignments to request a given paper source. Choose from the following options: Off*—The printer uses the factory default paper source assignments. None—The paper source ignores the Select Paper Feed command. 0–199—Select a numeric value to assign a custom value to a paper source.
Tray Renumber View Factory Defaults	Show the factory default value assigned for each paper source.
Tray Renumber Restore Defaults	Restore the tray renumber values to their factory defaults.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Menu item	Description
Print Timeout Disabled Enabled*	Set the printer to end a print job after it has been idle for the specified amount of time in seconds. Note: Print Timeout Time appears only when Print Timeout is enabled.
Print Timeout Time 1–255 (90*)	
Note: An asterisk (*) next to a value indicates the factory default setting.	

Image

Menu item	Description
Auto Fit On Off*	Select the best available paper size and orientation setting for an image. Note: When set to On, this menu item overrides the scaling and orientation settings for the image.
Invert Off* On	Invert bitonal monochrome images. Note: This menu item does not apply to GIF or JPEG image formats.
Scaling Anchor Top Left Best Fit* Anchor Center Fit Height/Width Fit Height Fit Width	Adjust the image to fit the printable area. Note: When Auto Fit is set to On, Scaling is automatically set to Best Fit.
Orientation Portrait* Landscape Reverse Portrait Reverse Landscape	Specify the orientation of text and graphics on the page.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Paper

Tray Configuration

Menu item	Description
Default Source Tray [x] (1*) MP Feeder Manual Paper Manual Envelope	Set the paper source for all print jobs. Note: MP Feeder appears only when Configure MP is set to Cassette.
Paper Size/Type Tray [x] MP Feeder Manual Paper Manual Envelope	Specify the paper size or paper type loaded in each paper source.
Substitute Size Off Letter/A4 All Listed*	Set the printer to substitute a specified paper size if the requested size is not loaded in any paper source. Notes: <ul style="list-style-type: none"> • Off prompts the user to load the required paper size. • Letter/A4 prints A4-size document on letter when loading letter, and letter-size jobs on A4 paper size when loading A4. • All Listed substitutes Letter/A4.
Configure MP Cassette* Manual First	Set the printer when to pick paper loaded in the multipurpose feeder. Notes: <ul style="list-style-type: none"> • When set to Cassette, the printer treats the multipurpose feeder like a tray. • When set to Manual, the printer treats the multipurpose feeder like a manual feeder. • When set to First, the printer picks paper from the multipurpose feeder until it is empty, regardless of the required paper source or paper size.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Media Configuration

Universal Setup

Menu item	Description
Units of Measure Inches Millimeters	Specify the unit of measurement for the universal paper. Note: Inches is the U.S. factory default setting. Millimeters is the international factory default setting.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Menu item	Description
Portrait Width 3.90–14.17 inches (8.50*) 99–360 mm (216*)	Set the portrait width of the universal paper.
Portrait Height 3.90–14.17 inches (14*) 99–360 mm (356*)	Set the portrait height of the universal paper.
Feed Direction Short Edge* Long Edge	Set the printer to pick paper from the short edge or long edge direction. Note: Long Edge appears only when the longest edge is shorter than the maximum width supported.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Custom Scan Sizes

Menu item	Description
Custom Scan Size [x] Scan Size Name Width 1–8.50 inches (8.50*) 25–216 mm (216*) Height 1–14 inches (14*) 25–356 mm (297*) Orientation Portrait* Landscape 2 scans per side Off* On	Assign a scan size name and configure the scan settings.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Media Types

Menu item	Description
Plain Paper Card Stock Recycled Labels Bond Envelope Rough Envelope Letterhead Preprinted Colored Paper Light Heavy Rough/Cotton Custom Type [X]	Specify the texture, weight, and orientation of the paper loaded.

Copy

Copy Defaults

Menu item	Description
Content Type Text Text/Photo* Photo Graphics	Improve the output result based on the content of the original document.
Sides 1 sided to 1 sided* 1 sided to 2 sided	Specify the scanning behavior based on the original document.
Pages per Side Off* 2 Portrait pages 4 Portrait pages 2 Landscape pages 4 Landscape pages	Specify the number of page images to print on one side of a sheet of paper.
Print Page Borders On Off*	Place a border around each image when printing multiple pages on a single page.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Menu item	Description
Collate Off [1,1,1,2,2,2] On [1,2,1,2,1,2]*	Print multiple copies in sequence.
“Copy from” Size [List of paper sizes]	Set the paper size of the original document. Note: Letter is the U.S. factory default setting. A4 is the international factory default setting.
“Copy to” Source Tray [x] (1*) MP Feeder Auto Size Match	Specify the paper source for the copy job.
Darkness 1 to 9 (5*)	Adjust the darkness of the scanned image.
Number of Copies 1–9999 (1*)	Specify the number of copies.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Advanced Imaging

Menu item	Description
Contrast Best for Content* 0–5	Specify the contrast of the output.
Background Removal Level -4 to 4 (0*)	Adjust the amount of background visible on a scanned image.
Scan Edge to Edge On Off*	Allow edge-to-edge scanning of the original document.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Admin Controls

Menu item	Description
Allow Save as Shortcut On* Off	Save custom copy settings as shortcuts.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Fax

Fax Defaults

Fax Mode

Menu item	Description
Fax Mode Fax Fax Server Disabled	Select a fax mode. Note: Depending on your printer model, the factory default setting may vary.

Fax Setup

General Fax settings

Menu item	Description
Fax Name	Identify your fax machine.
Fax Number	Identify your fax number.
Fax ID Fax Name Fax Number*	Notify fax recipients of your fax name or fax number.
Memory Use All receive Mostly receive Equal* Mostly send All send	Set the amount of internal printer memory allocated for faxing. Note: This menu item prevents memory buffer conditions and failed faxes.
Cancel Faxes Allow* Don't Allow	Cancel outgoing faxes before they are transmitted, or cancel incoming faxes before they finish printing.
Fax Number Masking Off* From Left From Right	Specify the format for masking an outgoing fax number.
Digits to Mask 0–58 (0*)	Specify the number of digits to mask in an outgoing fax number.
Enable Line Connected Detection On* Off	Determine whether a telephone line is connected to the printer. Note: Detection takes place when turning on the printer and before each call.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Menu item	Description
Optimize Fax Compatibility	Configure the printer fax functionality for optimal compatibility with other fax machines.
Fax Transport T.38 Analog G.711	Set the fax transport method. Notes: <ul style="list-style-type: none"> • This menu item appears only if a Fax over IP (FoIP) license bundle is installed in the printer. • Depending on your printer model, the factory default settings may vary.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Fax Send Settings

Menu item	Description
Resolution Standard* Fine Super Fine Ultra Fine	Set the resolution of the scanned image. Note: A higher resolution increases fax transmission time and requires more memory.
Original Size [List of paper sizes] (Mixed Sizes*)	Specify the size of the original document.
Orientation Portrait* Landscape	Specify the orientation of the original document. Note: This menu item appears only in some printer models.
Sides Off* Short Edge Long Edge	Specify the orientation of the original document when scanning on both sides of the document. Note: This menu item appears only in some printer models.
Content Type Text* Text/Photo Photo Graphics	Improve the output result based on the content of the original document.
Darkness 1–9 (5*)	Adjust the darkness of the scanned image.
Behind a PABX On Off*	Set the printer to dial a fax number without waiting to recognize the dial tone. Note: Private Automated Branch Exchange (PABX) is a telephone network that allows a single access number to offer multiple lines to outside callers.
Dial Mode Tone* Pulse	Specify the dial mode for incoming or outgoing faxes.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Advanced Imaging

Menu item	Description
Color Balance Cyan - Red -4 to 4 (0*) Magenta - Green -4 to 4 (0*) Yellow - Blue -4 to 4 (0*)	Adjust the color intensity during scanning.
Contrast Best for Content* 0 1 2 3 4 5	Set the contrast of the output.
Background Removal Level -4 to 4 (0*)	Adjust the amount of background visible on a scanned image.
Scan Edge to Edge On Off*	Allow edge-to-edge scanning of the original document.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Admin Controls

Menu item	Description
Automatic Redial 0–9 (5*)	Adjust the number of redial attempts based on the activity levels of recipient fax machines.
Redial Frequency 1–200 minutes (3*)	Increase the time between redial attempts to increase the chance of sending fax successfully.
Enable ECM On* Off	Activate Error Correction Mode (ECM) for fax jobs. Note: ECM detects and corrects errors in the fax transmission process caused by telephone line noise and poor signal strength.
Enable Fax Scans On* Off	Fax documents that are scanned at the printer.
Driver to Fax On* Off	Allow the print driver to send fax.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Menu item	Description
Allow Save as Shortcut On* Off	Save fax numbers as shortcuts on the printer.
Max Speed 33600* 14400 9600 4800 2400	Set the maximum speed for sending fax.
Enable Color Fax Scans Off by Default* On by Default Never Use Always Use	Enable color scans for fax.
Auto Convert Color Faxes to Mono Faxes On* Off	Convert all outgoing color faxes to black and white.
Confirm Fax Number Off* On	Ask the user to confirm the fax number.
Dial Prefix	Set a dialing prefix.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Fax Receive Settings

Menu item	Description
Rings to Answer 1–25 (3*)	Set the number of rings for incoming fax.
Auto Reduction On* Off	Scale incoming fax to fit on the page.
Paper Source Tray [X] Auto*	Set the paper source for printing incoming fax.
Sides On Off*	Print on both sides of the paper.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Menu item	Description
Separator Sheets None* Before Job After Job	Specify whether to insert blank separator sheets when printing.
Separator Sheet Source Tray [X] (1*)	Specify the paper source for the separator sheet.
Fax Footer On Off*	Print the transmission information at the bottom of each page from a received fax.
Fax Footer Time Stamp Receive* Print	Print the time stamp at the bottom of each page from a received fax.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Admin Controls

Menu item	Description
Enable Fax Receive On* Off	Set the printer to receive fax.
Enable Color Fax Receive On* Off	Set the printer to receive fax in color.
Enable Caller ID On Off*	Show the number that is sending the incoming fax.
Block No Name Fax On Off*	Block incoming faxes sent from devices with no station ID or fax ID specified.
Answer On All Rings* Single Ring Only Double Ring Only Triple Ring Only Single or Double Rings Only Single or Triple Rings Only Double or Triple Rings Only	Set a distinctive ring pattern for incoming fax.
Auto Answer On* Off	Set the printer to receive fax automatically.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Menu item	Description
Fax Forwarding Print* Print and Forward Forward	Specify whether to forward received fax.
Forward To Destination 1 Destination 2	Specify where to forward received fax. Note: This menu item appears only when Fax Forwarding is set to Print and Forward or Forward.
Max Speed 33600* 14400 9600 4800 2400	Set the maximum speed for transmitting fax.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Fax Log settings

Menu item	Description
Transmission Log Frequency Always* Never Only for Error	Specify how often the printer creates a transmission log.
Transmission Log Action Print Off On* E-mail Off* On	Print or e-mail a log for successful fax transmission or transmission error.
Receive Error Log Print Never* Print on Error	Print a log for fax-receive failures.
Auto Print Logs On* Off	Print all fax activity.
Log Paper Source Tray [x] (1*)	Specify the paper source for printing logs.
Logs Display Remote Fax Name* Dialed Number	Identify the sender by remote fax name or fax number.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Menu item	Description
Enable Job Log On* Off	View a summary of all fax jobs.
Enable Call Log On* Off	View a summary of fax dialing history.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Speaker settings

Menu item	Description
Speaker Mode Always Off* Always On On until Connected	Set the fax speaker mode.
Speaker Volume Low* High	Adjust the fax speaker volume.
Ringer Volume Off* On	Enable the ringer volume.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Fax Server Setup

General Fax Settings

Menu item	Description
To Format	Specify a fax recipient. Note: If you want to use the fax number, then type the number sign (#) before a number.
Reply Address	Specify a reply address for sending fax.
Subject	Specify the fax subject and message.
Message	
Enable analog receive Off* On	Set the printer to receive analog faxes.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Fax Server E-mail Settings

Menu item	Description
Use E-mail SMTP Server On* Off	Use the Simple Mail Transfer Protocol (SMTP) settings for e-mail in receiving and sending faxes. Note: When set to On, all other settings of the Fax Server E-mail Settings menu do not appear.
Primary SMTP Gateway	Type the IP address or host name of the primary SMTP server.
Primary SMTP Gateway Port 1–65535 (25*)	Enter the port number of the primary SMTP server.
Secondary SMTP Gateway	Type the server IP address or host name of your secondary or backup SMTP server.
Secondary SMTP Gateway Port 1–65535 (25*)	Enter the server port number of your secondary or backup SMTP server.
SMTP Timeout 5–30 (30*)	Set the time before the printer times out if the SMTP server does not respond.
Reply Address	Specify a reply address for sending fax.
Use SSL/TLS Disabled* Negotiate Required	Specify whether to send fax using an encrypted link.
Require Trusted Certificate Off On*	Specify a trusted certificate when accessing the SMTP server.
SMTP Server Authentication No authentication required* Login / Plain NTLM CRAM-MD5 Digest-MD5 Kerberos 5	Set the authentication type for the SMTP server.
Device-Initiated E-mail None* Use Device SMTP Credentials	Specify whether credentials are required for device-initiated e-mail.
User-Initiated E-mail None* Use Device SMTP Credentials Use Session User ID and Password Use Session E-mail address and Password Prompt user	Specify whether credentials are required for user-initiated e-mail.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Menu item	Description
Use Active Directory Device Credentials Off* On	Enable user credentials and group destinations to connect to the SMTP server.
Device Userid Device Password	Specify the user ID and password to connect to the SMTP server.
Kerberos 5 REALM	Specify the realm for the Kerberos 5 authentication protocol.
NTLM Domain	Specify the domain name for the NTLM security protocol.
Disable "SMTP server not set up" error Off* On	Hide the "SMTP server not set up" error message.

Note: An asterisk (*) next to a value indicates the factory default setting.

Fax Server Scan Settings

Menu item	Description
Image Format TIFF (.tif) PDF (.pdf)* XPS (.xps)	Specify the file format for the scanned image.
Content Type Text* Text/Photo Photo Graphics	Improve the output result based on the content of the original document.
Content Source Black and White Laser Color Laser* Inkjet Photo/Film Magazine Newspaper Press Other	Improve the output result based on the source of the original document.
Fax Resolution Standard* Fine Super Fine Ultra Fine	Set the fax resolution.

Note: An asterisk (*) next to a value indicates the factory default setting.

Menu item	Description
Sides Off* Short Edge Long Edge	Specify the orientation of the original document when scanning on both sides of the document.
Darkness 1–9 (5*)	Set the darkness of the output.
Orientation Portrait* Landscape	Specify the orientation of text and graphics on the page.
Original Size [List of paper sizes]	Set the paper size of the original document. Notes: <ul style="list-style-type: none"> • Mixed Sizes is the U.S. factory default setting. A4 is the international factory default setting. • This setting may vary depending on your printer model.
Use Multi-Page TIFF Off On*	Choose between single- and multiple-page TIFF files.
Note: An asterisk (*) next to a value indicates the factory default setting.	

E-mail

E-mail Setup

Menu item	Description
Primary SMTP Gateway	Type the IP address or host name of the primary SMTP server for sending e-mail.
Primary SMTP Gateway Port 1–65535 (25*)	Enter the port number of the primary SMTP server.
Secondary SMTP Gateway	Type the server IP address or host name of your secondary or backup SMTP server.
Secondary SMTP Gateway Port 1–65535 (25*)	Enter the server port number of your secondary or backup SMTP server.
SMTP Timeout 5–30 seconds (30*)	Set the time before the printer times out if the SMTP server does not respond.
Reply Address	Specify a reply address in the e-mail.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Menu item	Description
Always use SMTP default Reply Address On Off*	Always use the default reply address in the SMTP server.
Use SSL/TLS Disabled* Negotiate Required	Specify whether to send e-mail using an encrypted link.
Require Trusted Certificate Off On*	Require a trusted certificate when accessing the SMTP server.
SMTP Server Authentication No authentication required* Login / Plain NTLM CRAM-MD5 Digest-MD5	Set the authentication type for the SMTP server.
Device-Initiated E-mail None* Use Device SMTP Credentials	Specify whether credentials are required for device-initiated e-mail.
Device Userid	Specify the user ID and password to connect to the SMTP server.
Device Password	
NTLM Domain	Specify the domain name for the NTLM security protocol.
Disable "SMTP server not set up" error Off* On	Hide the SMTP server not set up error message.
Note: An asterisk (*) next to a value indicates the factory default setting.	

E-mail Defaults

Menu item	Description
Subject	Specify the e-mail subject and message.
Message	
File Name	Specify the filename for the scanned document.
Format PDF (.pdf)* TIFF (.tif) JPEG (.jpg)	Specify the file format of the scanned document.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Menu item	Description
PDF Settings PDF Version (1.5*) Archival Version (A-1a*) Secure (Off*) Archival (PDF/A) (Off*)	Configure the PDF settings of the scanned document. Note: Archival Version and Archival (PDF/A) are supported only when PDF Version is set to 1.4.
Content Type Text Text/Photo* Photo Graphics	Improve the output result based on the content type of the original document.
Color Black and White Gray Color*	Set the printer to capture file content in color or in mono.
Resolution 75 dpi 150 dpi* 200 dpi 300 dpi 400 dpi 600 dpi	Set the resolution of the scanned image.
Darkness 1–9 (5*)	Adjust the darkness of the scanned image.
Orientation Portrait* Landscape	Specify the orientation of the original document.
Original Size Mixed Sizes*	Set the paper size of the original document.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Advanced Imaging

Menu item	Description
Color Balance Cyan - Red (0*) Magenta - Green (0*) Yellow - Blue (0*)	Adjust the color intensity for cyan, magenta, and yellow.
Contrast Best for content* 0–5	Specify the contrast for the scanned image.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Menu item	Description
Background Removal Level (0*)	Remove the background color or image noise from the original document.
Scan Edge to Edge On Off*	Scan the original document from edge to edge.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Admin Controls

Menu item	Description
Max E-mail Size 0–65535 (0*)	Set the allowable file size for each e-mail.
Size Error Message	Specify an error message that the printer sends when an e-mail exceeds its allowable file size. Note: You can type up to 1024 characters.
Send Me a Copy Never appears* On by Default Off by Default Always On	Send a copy of the e-mail to yourself.
Text Default 5–95 (75*)	Set the text quality in the content being scanned.
Text/Photo Default 5–95 (75*)	Set the text and photo quality in the content being scanned.
Photo Default 5–95 (50*)	Set the photo quality of the content being scanned.
Transmission Log Print log* Do Not Print Log Print Only For Error	Print a transmission log for e-mail scans.
Log Paper Source Tray [x] (1*) MP Feeder	Specify the paper source for printing e-mail logs.
Allow Save as Shortcut On* Off	Save an e-mail address as a shortcut.
Reset E-mail Information After Sending On* Off	Reset the To, Subject, Message, and Filename fields to their default values after sending an e-mail.
Note: An asterisk (*) next to a value indicates the factory default setting.	

FTP

FTP Defaults

Menu item	Description
Format PDF (.pdf)* TIFF (.tif) JPEG (.jpg)	Specify the file format for the scanned image.
PDF Settings PDF Version (1.5*) Archival Version (A-1a*) Secure (Off*) Archival (PDF/A) (Off*)	Configure the PDF settings for the scanned image. Note: Archival Version and Archival (PDF/A) are supported only when PDF Version is set to 1.4.
Content Type Text Text/Photo* Graphics Photo	Improve the output result based on the content type of the original document.
Color Black and White Gray Color*	Set the printer to capture file content in color or in mono.
Resolution 75 dpi 150 dpi* 200 dpi 300 dpi 400 dpi 600 dpi	Set the resolution of the scanned image.
Darkness 1–9 (5*)	Adjust the darkness of the scanned image.
Orientation Portrait* Landscape	Specify the orientation of the original document.
Original Size Mixed Sizes*	Set the paper size of the original document.
File Name	Specify the file name of the scanned image.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Advanced Imaging

Menu item	Description
Color Balance Cyan - Red (0*) Magenta - Green (0*) Yellow - Blue (0*)	Adjust the color intensity for cyan, magenta, and yellow.
Contrast Best for content* 0–5	Specify the contrast for the scanned image.
Background Removal Level (0*)	Remove the background color or image noise from the original document.
Scan Edge to Edge On Off*	Allow edge-to-edge scanning of the original document.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Admin Controls

Menu item	Description
Text Default 5–95 (75*)	Set the quality of text on the scanned image.
Text/Photo Default 5–95 (75*)	Set the quality of text and photo on the scanned image.
Photo Default 5–95 (50*)	Set the quality of photo on the scanned image.
Transmission Log Print Log* Do Not Print Log Print Only For Error	Print a transmission log for FTP scans.
Log Paper Source Tray [x] (1*) MP Feeder	Specify the paper source for printing FTP logs.
Note: An asterisk (*) next to a value indicates the factory default setting.	

USB Drive

Flash Drive Scan

Menu item	Description
Format JPEG (.jpg) PDF (.pdf)* TIFF (.tif)	Specify the file format for the scanned image.
PDF Settings PDF Version (1.5*) Archival Version (A-1a*) Secure (Off*) Archival (PDF/A) (Off*)	Configure the PDF settings of the scanned image. Note: Archival Version and Archival (PDF/A) are supported only when PDF Version is set to 1.4.
Content Type Text Text/Photo* Graphics Photo	Improve the output result based on the content type of the original document.
Color Black and White Gray Color*	Set the printer to capture file content in color or in mono.
Resolution 75 dpi 150 dpi* 200 dpi 300 dpi 400 dpi 600 dpi	Set the resolution of the scanned image.
Darkness 1–9 (5*)	Adjust the darkness of the scanned image.
Orientation Portrait* Landscape	Specify the orientation of the original document.
Original Size Mixed Sizes*	Set the paper size of the original document.
File Name	Specify the file name of the scanned image.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Advanced Imaging

Menu item	Description
Color Balance Cyan - Red (0*) Magenta - Green (0*) Yellow - Blue (0*)	Adjust the color intensity for cyan, magenta, and yellow.
Contrast Best for content* 0–5	Specify the contrast for the scanned image.
Background Removal Level (0*)	Remove the background color or image noise from the original document.
Scan Edge to Edge Off* On	Scan the original document from edge to edge.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Admin Controls

Menu item	Description
Text Default 5–95 (75*)	Set the quality of text on the scanned image.
Text/Photo Default 5–95 (75*)	Set the quality of text and photo on the scanned image.
Photo Default 5–95 (50*)	Set the quality of a photo on the scanned image.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Flash Drive Print

Menu item	Description
Number of Copies 1–9999 (1*)	Set the number of copies.
Paper Source Tray [x] (1*) MP Feeder Manual Paper Manual Envelope	Set the paper source for the print job.
Collate 1,1,1 - 2,2,2 1,2,3 - 1,2,3	Keep the pages of a print job stacked in sequence, particularly when printing multiple copies of the job.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Menu item	Description
Sides 1-Sided* 2-Sided	Specify whether to print on one side or both sides of the paper.
Flip Style Long Edge* Short Edge	Determine which side of the paper is bound when performing two-sided printing.
Pages per Side Off* 2 pages per side 3 pages per side 4 pages per side 6 pages per side 9 pages per side 12 pages per side 16 pages per side	Print multiple page images on one side of a sheet of paper.
Pages per Side Ordering Horizontal* Reverse Horizontal Reverse Vertical Vertical	Specify the positioning of multiple page images when using Pages per Side menu.
Pages per Side Orientation Auto* Landscape Portrait	Specify the orientation of multiple page images when using Pages per Side menu.
Pages per Side Border None* Solid	Print a border around each page image when using Pages per Side menu.
Separator Sheets Off* Between Copies Between Jobs Between Pages	Insert blank separator sheets when printing.
Separator Sheet Source Tray [x] (1*) MP Feeder	Specify the paper source for the separator sheet.
Blank Pages Do Not Print* Print	Print blank pages in a print job.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Network/Ports

Network Overview

Menu item	Description
Active Adapter Auto* Standard Network Wireless	Specify the type of the network connection.
Network Status	Show the connectivity status of the printer network.
Display Network Status on Printer Off On*	Show the network status on the display.
Speed, Duplex	Show the speed of the currently active network card.
IPv4	Show the IPv4 address.
All IPv6 Addresses	Show all IPv6 addresses.
Reset Print Server Start	Reset all active network connections to the printer. Note: This setting removes all network configuration settings.
Network Job Timeout Off On* (90 seconds)	Set the time before the printer cancels a network print job.
Banner Page Off* On	Print a banner page.
Scan to PC Port Range	Specify a valid port range for printers that are behind a port blocking firewall.
Enable Network Connections Enable* Disable	Enable or disable all network connections.
Enable LLDP Off* On	Enable Link Layer Discovery Protocol (LLDP) in the printer.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Wireless

Menu item	Description
Setup On Printer Panel Choose Network Add Wi-Fi Network <ul style="list-style-type: none"> • Network Name • Network Mode Infrastructure • Wireless Security Mode Disabled* WEP WPA2/WPA - Personal WPA2 - Personal 	Determine the wireless network that the printer connects to. Note: This menu item appears as <i>Wireless Connection Setup</i> in the Embedded Web Server.
Wi-Fi Protected Setup Start Push Button Method Start PIN Method	Establish a wireless network and enable network security. Notes: <ul style="list-style-type: none"> • Start Push Button Method connects the printer to a wireless network when buttons on both the printer and the access point (wireless router) are pressed within a given time. • Start PIN Method connects the printer to a wireless network when a PIN on the printer is entered into the wireless settings of the access point.
Compatibility 802.11b/g/n (2.4GHz) 802.11a/b/g/n/ac (2.4GHz/5GHz)* 802.11a/n/ac (5GHz)	Specify the wireless standard for the wireless network.
Wireless Security Mode Disabled* WEP WPA2/WPA-Personal WPA2-Personal 802.1x - RADIUS	Set the type of security for connecting the printer to wireless devices.
WEP Authentication Mode Auto* Open Shared	Set the type of Wireless Encryption Protocol (WEP) used by the printer. Note: This menu item appears only if Wireless Security Mode is set to WEP.
Set WEP Key	Specify a WEP password for secure wireless connection. Note: This menu item appears only if Wireless Security Mode is set to WEP.
WPA2-Personal AES*	Enable wireless security through WPA2. Note: This menu item appears only if Wireless Security Mode is set to WPA2-Personal.

Menu item	Description
Set PSK	Set the password for secure wireless connection. Note: This menu item appears only if Wireless Security Mode is set to WPA2/WPA-Personal or WPA2-Personal.
WPA2/WPA-Personal AES*	Enable wireless security through WPA2/WPA. Note: This menu item appears only if Wireless Security Mode is set to WPA2/WPA-Personal.
802.1x Encryption Mode WPA+ WPA2*	Enable wireless security through 802.1x standard. Note: This menu item appears only if Wireless Security Mode is set to 802.1x - Radius.
IPv4 Enable DHCP On* Off	Enable Dynamic Host Configuration Protocol (DHCP). Note: DHCP is a standard protocol that allows a server to distribute IP addressing and configuration information dynamically to clients.
IPv4 Set Static IP Address IP Address Netmask Gateway	Set the static IP address of your printer.
IPv6 Enable IPv6 On* Off	Enable IPv6 in the printer.
IPv6 Enable DHCPv6 On Off*	Enable DHCPv6 in the printer.
IPv6 Stateless Address Autoconfiguration Off On*	Set the network adapter to accept the automatic IPv6 address configuration entries provided by a router.
IPv6 DNS Address	Specify the DNS server address.
IPv6 Manually Assigned IPV6 Address	Assign the IPv6 address.
IPv6 Manually Assigned IPV6 Router	Assign the IPv6 router address.
IPv6 Address Prefix 0–128 (64*)	Specify the address prefix.
IPv6 All IPv6 Addresses	Show all IPv6 addresses.

Menu item	Description
IPv6 All IPv6 Router Addresses	Show all IPv6 router addresses.
Network Address UAA LAA	View the network addresses.
PCL SmartSwitch On* Off	Set the printer to switch automatically to PCL emulation when a print job requires it, regardless of the default printer language. Note: If PCL SmartSwitch is off, then the printer does not examine incoming data and uses the default printer language specified in the Setup menu.
PS SmartSwitch On* Off*	Set the printer to switch automatically to PS emulation when a print job requires it, regardless of the default printer language. Note: If PS SmartSwitch is off, then the printer does not examine incoming data and uses the default printer language specified in the Setup menu.
Mac Binary PS Auto* On Off	Set the printer to process Macintosh binary PostScript print jobs. Notes: <ul style="list-style-type: none"> • On processes raw binary PostScript print jobs. • Off filters print jobs using the standard protocol.

Wi-Fi Direct

Menu item	Description
Enable Wi-Fi Direct On Off*	Set the printer to connect directly to Wi-Fi devices.
Wi-Fi Direct Name	Specify the name of the Wi-Fi Direct network.
Wi-Fi Direct Password	Set the password to authenticate and validate users on a Wi-Fi connection.
Show Password on Setup Page Off On*	Show the Wi-Fi Direct Password on the Network Setup Page.
Preferred Channel Number 1–11 Auto*	Set the preferred channel of the Wi-Fi network.
Group Owner IP Address	Specify the IP address of the group owner.
Auto-Accept Push Button Requests Off* On	Accept requests to connect to the network automatically. Note: Accepting clients automatically is not secured.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Ethernet

Menu item	Description
Network Speed	Show the speed of an active network adapter.
IPv4 Enable DHCP On* Off	Enable Dynamic Host Configuration Protocol (DHCP). Note: DHCP is a standard protocol that allows a server to distribute IP addressing and configuration information to clients in a dynamic manner.
IPv4 Set Static IP Address IP Address Netmask Gateway	Set the static IP address of your printer.
IPv6 Enable IPv6 On* Off	Enable IPv6 in the printer.
IPv6 Enable DHCPv6 Off* On	Enable DHCPv6 in the printer.
IPv6 Stateless Address Autoconfiguration On* Off	Set the network adapter to accept the automatic IPv6 address configuration entries provided by a router.
IPv6 DNS Address	Specify the DNS server address.
IPv6 Address Prefix 0–128 (64*)	Specify the address prefix.
IPv6 All IPv6 Addresses	Show all IPv6 addresses.
IPv6 All IPv6 Router Addresses	Show all IPv6 router addresses.
Network Address UAA LAA	Show the printer Media Access Control (MAC) addresses: Locally Administered Address (LAA) and Universally Administered Address (UAA). Note: You can change the printer LAA manually.
PCL SmartSwitch On* Off	Set the printer to switch automatically to PCL emulation when a print job requires it, regardless of the default printer language. Note: If PCL SmartSwitch is off, then the printer does not examine incoming data and uses the default printer language specified in the Setup menu.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Menu item	Description
PS SmartSwitch On* Off	Set the printer to switch automatically to PS emulation when a print job requires it, regardless of the default printer language. Note: If PS SmartSwitch is off, then the printer does not examine incoming data and uses the default printer language specified in the Setup menu.
Mac Binary PS Auto* On Off	Set the printer to process Macintosh binary PostScript print jobs. Notes: <ul style="list-style-type: none"> • On processes raw binary PostScript print jobs. • Off filters print jobs using the standard protocol.
Energy Efficient Ethernet Auto* On Off	Reduce power consumption when the printer does not receive data from the Ethernet network.
Note: An asterisk (*) next to a value indicates the factory default setting.	

TCP/IP

Note: This menu appears only in network printers or printers attached to print servers.

Menu item	Description
Set Hostname	Set the current TCP/IP host name.
Domain Name	Set the domain name.
Allow DHCP/BOOTP to update NTP server On* Off	Allow the DHCP and BOOTP clients to update the NTP settings of the printer.
Zero Configuration Name	Specify a service name for the zero configuration network.
Enable Auto IP On* Off	Assign an IP address automatically.
DNS Address	Specify the current Domain Name System (DNS) server address.
Backup DNS	Specify the backup DNS server addresses.
Backup DNS 2	
Backup DNS 3	
Domain Search Order	Specify a list of domain names to locate the printer and its resources that reside in different domains on the network.
Enable DDNS Off* On	Update the Dynamic DNS settings.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Menu item	Description
DDNS TTL	Specify the current DDNS settings.
Default TTL	
DDNS Refresh Time	
Enable mDNS On* Off	Update multicast DNS settings.
WINS Address	Specify a server address for Windows Internet Name Service (WINS).
Enable BOOTP Off* On	Allow the BOOTP to assign a printer IP address.
Restricted Server List	Specify an IP address for the TCP connections. Notes: <ul style="list-style-type: none"> • This menu item appears only in the Embedded Web Server. • Use a comma to separate each IP address. • You can add up to 50 IP addresses.
Restricted Server List Options Block All Ports* Block Printing Only Block Printing and HTTP Only	Specify how the IP addresses in the list can access the printer functionality. Note: This menu item appears only in the Embedded Web Server.
MTU	Specify a maximum transmission unit (MTU) parameter for the TCP connections.
Raw Print Port 1–65535 (9100*)	Specify a raw port number for printers connected on a network.
Outbound Traffic Maximum Speed Disabled* Enabled	Enable the printer maximum transfer rate.
Enable TLSv1.0 On* Off	Enable the TLSv1.0 protocol.
Enable TLSv1.1 On* Off	Enable the TLSv1.1 protocol.
SSL Cipher List	Specify the cipher algorithms to use for the SSL or the TLS connections.
Note: An asterisk (*) next to a value indicates the factory default setting.	

SNMP

Note: This menu appears only in network printers or printers that are attached to print servers.

Menu item	Description
<p>SNMP Versions 1 and 2c</p> <ul style="list-style-type: none"> Enabled Off On* Allow SNMP Set Off On* Enable PPM MIB Off On* SNMP Community 	<p>Configure Simple Network Management Protocol (SNMP) versions 1 and 2c to install print drivers and applications.</p>
<p>SNMP Version 3</p> <ul style="list-style-type: none"> Enabled Off On* Context Name Set Read/Write Credentials <ul style="list-style-type: none"> User Name Authentication Password Privacy Password Set Read-only Credentials <ul style="list-style-type: none"> User Name Authentication Password Privacy Password Authentication Hash <ul style="list-style-type: none"> MD5 SHA1* Minimum Authentication Level <ul style="list-style-type: none"> No Authentication, No Privacy Authentication, No Privacy Authentication, Privacy* Privacy Algorithm <ul style="list-style-type: none"> DES AES-128* 	<p>Configure SNMP version 3 to install and update the printer security.</p>

Note: An asterisk (*) next to a value indicates the factory default setting.

IPSec

Note: This menu appears only in network printers or printers that are attached to print servers.

Menu item	Description
Enable IPsec Off* On	Enable Internet Protocol Security (IPsec).
Base Configuration Default* Compatibility Secure	Set the IPsec base configuration. Note: This menu item appears only when Enable IPsec is set to On.
DH (Diffie-Hellman) Group Proposal modp2048 (14)* modp3072 (15) modp4069 (16) modp6144 (17)	Set the IPsec encryption. Notes: <ul style="list-style-type: none"> DH (Diffie-Hellman) Group Proposal appears only when Base Configuration is set to Compatibility. IKE SA Lifetime (Hours) and IPsec SA Lifetime (Hours) appear only when Base Configuration is set to Secure.
IKE SA Lifetime (Hours) 1 2 4 8 24*	
IPsec SA Lifetime (Hours) 1 2 4 8* 24	
Proposed Encryption Method 3DES AES*	Specify the encryption and authentication methods to connect to a network securely. Note: These menu items appear only when Base Configuration is set to Compatibility.
Proposed Authentication Method SHA1 SHA256* SHA512	
IPsec Device Certificate	Specify an IPsec certificate. Note: This menu item appears only when Enable IPsec is set to On.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Menu item	Description
Pre-Shared Key Authenticated Connections Host [x] Address Key	Configure the authenticated connections of the printer. Note: These menu items appear only when Enable IPsec is set to On.
Certificate Authenticated Connections Host [x] Address[/subnet] Address[/subnet]	
Note: An asterisk (*) next to a value indicates the factory default setting.	

802.1x

Note: This menu appears only in network printers or printers that are attached to print servers.

Menu item	Description
Active Off* On	Let the printer join networks that require authentication before allowing access.
Note: An asterisk (*) next to a value indicates the factory default setting.	

LPD Configuration

Note: This menu appears only in network printers or printers that are attached to print servers.

Menu item	Description
LPD Timeout 0–65535 seconds (90*)	Set the time-out value to stop the Line Printer Daemon (LPD) server from waiting indefinitely for hung or invalid print jobs.
LPD Banner Page Off* On	Print a banner page for all LPD print jobs. Note: A banner page is the first page of a print job used as a separator of print jobs and to identify the originator of the print job request.
LPD Trailer Page Off* On	Print a trailer page for all LPD print jobs. Note: A trailer page is the last page of a print job.
LPD Carriage Return Conversion Off* On	Enable carriage return conversion. Note: Carriage return is a mechanism that commands the printer to move the position of the cursor to the first position on the same line.
Note: An asterisk (*) next to a value indicates the factory default setting.	

HTTP/FTP Settings

Note: This menu appears only in network printers or printers that are attached to print servers.

Menu item	Description
Enable HTTP Server Off On*	Access the Embedded Web Server to monitor and manage the printer.
Enable HTTPS Off On*	Configure the Hypertext Transfer Protocol Secure (HTTPS) settings.
Force HTTPS Connections Off* On	Force the printer to use the HTTPS connections.
Enable FTP/TFTP Off On*	Send files using FTP.
HTTP Proxy IP Address	Configure the HTTP and FTP server settings. Note: This feature is available only in some printer models.
FTP Proxy IP Address	
HTTP Default IP Port 1–65535 (80*)	
HTTPS Device Certificate	
FTP Default IP Port 1–65535 (21*)	
Timeout for HTTP/FTP Requests 1–299 (30*)	Specify the amount of time before the server connection stops.
Retries for HTTP/FTP Requests 1–299 (3*)	Set the number of retries to connect to the HTTP/FTP server.
Note: An asterisk (*) next to a value indicates the factory default setting.	

USB

Menu item	Description
PCL SmartSwitch Off On*	Set the printer to switch to PCL emulation when a print job received through a USB port requires it, regardless of the default printer language. Note: If PCL SmartSwitch is off, then the printer does not examine incoming data and uses the default printer language specified in the Setup menu.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Menu item	Description
PS SmartSwitch Off On*	Set the printer to switch to PS emulation when a print job received through a USB port requires it, regardless of the default printer language. Note: If PS SmartSwitch is off, then the printer does not examine incoming data and uses the default printer language specified in the Setup menu.
Mac Binary PS On Auto* Off	Set the printer to process Macintosh binary PostScript print jobs. Notes: <ul style="list-style-type: none"> • When set to On, the printer processes raw binary PostScript print jobs from computers using the Macintosh operating system. • When set to Auto, the printer processes print jobs from computers using either Windows or Macintosh operating systems • When set to Off, the printer filters PostScript print jobs using the standard protocol.
Enable USB Port Disable Enable*	Enable the standard USB port.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Restrict external network access

Menu item	Description
Restrict external network access Off* On	Restrict access to network sites.
External network address	Specify the network addresses with restricted access.
E-mail address for notification	Specify an e-mail address to send a notification of logged events.
Ping frequency 1–300 (10*)	Specify the network query interval in seconds.
Subject	Specify the subject and message of the notification e-mail.
Message	
Note: An asterisk (*) next to a value indicates the factory default setting.	

Security

Login Methods

Public

Menu item	Description
Manage Permissions Function Access Manage Shortcuts Create Profiles Flash Drive Print Flash Drive Scan Copy Function E-mail Function Fax Function FTP Function Release Held Faxes Held Jobs Access User Profiles Cancel Jobs at the Device Change Language Internet Printing Protocol (IPP) Initiate Scans Remotely B/W Print Network Folder - Scan	Control access to the printer functions.
Manage Permissions Administrative Menus Security Menu Network/Ports Menu Paper Menu Reports Menu Function Configuration Menus Supplies Menu SE Menu Device Menu	Control access to the printer menus.
Manage Permissions Device Management Remote Management Firmware Updates Embedded Web Server Access Import / Export All Settings Out of Service Erase	Control access to the printer management options.

Local Accounts

Menu item	Description
Add User User Name/Password User Name Password PIN	Create local accounts to manage access to the printer functions.
Manage Groups/Permissions Add Group Import Access Controls Function Access Administrative Menus Device Management All Users Import Access Controls Function Access Administrative Menus Device Management Admin Function Access Administrative Menus Device Management	Control group or user access to the printer functions, applications, and security settings.

Certificate Management

Menu item	Menu item
Configure Certificate Defaults Common Name Organization Name Unit Name Country/Region Province Name City Name Subject Alternate Name	Set the default values for generated certificates.
Device Certificates	Generate, delete, or view device certificates.
Manage CA Certificates	Load, delete, or view Certificate Authority (CA) certificates.

Schedule USB Devices

Menu item	Description
Schedules Add New Schedule	Schedule access to the front USB port.

Login Restrictions

Menu item	Description
Login failures 1–10 (3*)	Specify the number of failed login attempts before the user gets locked out.
Failure time frame 1–60 minutes (5*)	Specify the time frame between failed login attempts before the user gets locked out.
Lockout time 1–60 minutes (5*)	Specify the lockout duration.
Web Login Timeout 1–120 minutes (10*)	Specify the delay for a remote login before the user is logged off automatically.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Confidential Print Setup

Menu item	Description
Max Invalid PIN 2–10 (0*)	Set the number of times an invalid PIN can be entered. Notes: <ul style="list-style-type: none"> • A value of zero turns off this setting. • When the limit is reached, the print jobs for that user name and PIN are deleted.
Confidential Job Expiration Off* 1 Hour 4 Hours 24 Hours 1 Week	Set the expiration time for confidential print jobs. Notes: <ul style="list-style-type: none"> • If this menu item is changed while confidential print jobs reside in the printer memory, then the expiration time for those print jobs does not change to the new default value. • If the printer is turned off, then all confidential jobs held in the printer memory are deleted.
Repeat Job Expiration Off* 1 Hour 4 Hours 24 Hours 1 Week	Set the expiration time for a print job that you want to repeat.
Verify Job Expiration Off* 1 Hour 4 Hours 24 Hours 1 Week	Set the expiration time that the printer prints a copy for the user to examine its quality, before printing the remaining copies.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Menu item	Description
Reserve Job Expiration Off* 1 Hour 4 Hours 24 Hours 1 Week	Set the expiration time that the printer stores print jobs for printing later.
Require All Jobs to be Held Off* On	Set the printer to hold all print jobs.
Keep duplicate documents Off* On	Allow the storage of documents with the same file name.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Erase Temporary Data Files

Menu item	Description
Stored in onboard memory Off* On	Delete all files stored on the printer memory.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Miscellaneous

Menu item	Description
Print Permission Off* On	Allow the user to print.
Default Print Permission Login	Shows the default permission used for the user to print. Note: This setting shows only when one or more Login Methods are created.
Security Reset Jumper Enable "Guest" access* No Effect	Specify user access to the printer. Notes: <ul style="list-style-type: none"> The jumper is located beside a lock icon on the controller board. Enable "Guest" access gives anyone access to all aspects of the printer. No Effect may make access to the printer impossible when the required security information is unavailable.
Minimum Password Length 0–32	Specify the password length.
Enable Password/PIN Reveal	Show the password or personal identification number.
Note: An asterisk (*) next to a value indicates the factory default setting.	

Reports

Menu Settings Page

Menu item	Description
Menu Settings Page	Print a report that contains the printer menus.

Device

Menu item	Description
Device Information	Print a report that contains information about the printer.
Device Statistics	Print a report about printer usage and supply status.
Profiles List	Print a list of profiles that are stored in the printer.
Asset Report	Print a report that contains the printer serial number and model name.

Print

Menu item	Description
Print Fonts PCL Fonts PostScript Fonts	Print samples and information about the fonts that are available in each printer language.
Print Demo	Print a demo page to determine print problems.

Shortcuts

Menu item	Description
All Shortcuts	Print a report that lists the shortcuts that are stored in the printer.
Fax Shortcuts	
Copy Shortcuts	
E-mail Shortcuts	
FTP Shortcuts	
Network Folder Shortcuts	

Fax

Note: This menu appears only if Fax is configured, and Enable Job Log is set to On.

Menu item	Description
Fax Job Log	Print a report about the last 200 completed fax jobs.
Fax Call Log	Print a report about the last 100 attempted, received, and blocked calls.

Network

Menu item	Description
Network Setup Page	Print a page that shows the configured network and wireless settings on the printer. Note: This menu item appears only in network printers or printers connected to print servers.
Wi-Fi Direct Connected Clients	Print a page that shows the list of devices that are connected to the printer using Wi-Fi Direct. Note: This menu item appears only when Enable Wi-Fi Direct is set to On.

Troubleshooting

Menu item	Description
Print Quality Test Pages	Print sample pages to identify and correct print quality defects.
Cleaning the Scanner	Print instructions on how to clean the scanner.

Maintain the printer

Checking the status of parts and supplies

- 1 From the home screen, touch **Status/Supplies**.
- 2 Select the parts or supplies that you want to check.

Note: You can also access this setting by touching the top section of the home screen.

Configuring supply notifications

- 1 Open a web browser, and then type the printer IP address in the address field.

Notes:

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the web page correctly.

- 2 Click **Settings > Device > Notifications**.
- 3 From the Supplies menu, click **Custom Supply Notifications**.
- 4 Select a notification for each supply item.
- 5 Apply the changes.

Setting up e-mail alerts

Configure the printer to send e-mail alerts when supplies are low, when paper must be changed or added, or when there is a paper jam.

- 1 Open a web browser, and then type the printer IP address in the address field.

Notes:

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the web page correctly.

- 2 Click **Settings > Device > Notifications > E-mail Alert Setup**, and then configure the settings.
Note: For more information on SMTP settings, contact your e-mail provider.
- 3 Apply the changes.
- 4 Click **Setup E-mail Lists and Alerts**, and then configure the settings.
- 5 Apply the changes.

Viewing reports

- 1 From the home screen, touch **Settings** > **Reports**.
- 2 Select the report that you want to view.

Ordering parts and supplies

To order supplies, contact the place where you purchased the printer.

Note: All life estimates for printer supplies assume printing on letter- or A4-size plain paper.

Warning—Potential Damage: Failure to maintain optimum printer performance, or to replace parts and supplies, may cause damage to your printer.

Ordering a toner cartridge

Notes:

- The estimated cartridge yield is based on the ISO/IEC 19752 standard.
- Extremely low print coverage for extended periods of time may negatively affect actual yield.

To order a toner cartridge, contact the place where you purchased the printer.

Ordering an imaging unit

To order an imaging unit, contact the place where you purchased the printer.

Replacing parts and supplies

Replacing the toner cartridge

- 1 Open the front door.

Warning—Potential Damage: To prevent damage from electrostatic discharge, touch any exposed metal frame of the printer before accessing or touching interior areas of the printer.

2 Remove the imaging unit.

3 Twist the blue latch, and then remove the used toner cartridge from the imaging unit.

Warning—Potential Damage: Do not expose the imaging unit to direct light for more than 10 minutes. Extended exposure to light may cause print quality problems.

Warning—Potential Damage: Do not touch the photoconductor drum. Doing so may affect the quality of future print jobs.

- 4 Unpack the new toner cartridge.
- 5 Shake the toner cartridge to redistribute the toner.

- 6 Insert the new toner cartridge into the imaging unit until it *clicks* into place.

- 7 Insert the imaging unit.

- 8 Close the door.

Replacing the imaging unit

- 1 Open the front door.

Warning—Potential Damage: To prevent damage from electrostatic discharge, touch any exposed metal frame of the printer before accessing or touching interior areas of the printer.

2 Remove the used imaging unit.

- 3 Twist the blue latch, and then remove the toner cartridge from the used imaging unit.

- 4 Unpack the new imaging unit, and then insert the toner cartridge until it *clicks* into place.

Warning—Potential Damage: Do not expose the imaging unit to direct light for more than 10 minutes. Extended exposure to light may cause print quality problems.

Warning—Potential Damage: Do not touch the photoconductor drum. Doing so may affect the quality of future print jobs.

- 5 Insert the new imaging unit.

- 6 Close the door.

Replacing the tray

- 1 Remove the used tray.

- 2 Unpack the new tray.

- 3 Insert the new tray.

Replacing the pick roller assembly

- 1 Turn off the printer.
- 2 Unplug the power cord from the electrical outlet, and then from the printer.

3 Open the front door.

4 Remove the imaging unit.

5 Close the front door.

6 Remove the tray.

7 Position the printer on its side.

8 Remove the used pick roller assembly.

9 Unpack the new pick roller assembly.

Note: To avoid contamination, make sure that your hands are clean.

- 10** Insert the new pick roller assembly.

- 11** Place the printer in its original position, and then insert the tray.
- 12** Open the front door.
- 13** Insert the imaging unit.
- 14** Close the front door.
- 15** Connect the power cord to the printer, and then to the electrical outlet.
- ⚠ CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.
- 16** Turn on the printer.

Replacing the tray separator roller

- 1 Remove the tray, and then remove the used separator roller.

- 2 Unpack the new separator roller.

Note: To avoid contamination, make sure that your hands are clean.

- 3 Insert the new separator roller.

- 4 Insert the tray.

Replacing the ADF separator pad

1 Open the ADF cover.

2 Remove the used ADF separator pad.

3 Unpack the new ADF separator pad.

4 Insert the new separator pad until it *clicks* into place.

5 Close the ADF cover.

Resetting the supply usage counters

- 1 From the home screen, touch **Settings > Device > Maintenance > Config Menu > Supply Usage And Counters**.
- 2 Select the counter that you want to reset.

Warning—Potential Damage: Supplies and parts without Return Program agreement terms may be reset and remanufactured. However, the manufacturer's warranty does not cover any damage caused by non-genuine supplies or parts. Resetting counters on the supply or part without proper remanufacturing can cause damage to your printer. After resetting the supply or part counter, your printer may display an error indicating the presence of the reset item.

Cleaning printer parts

Cleaning the printer

 **CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock when cleaning the exterior of the printer, unplug the power cord from the electrical outlet and disconnect all cables from the printer before proceeding.

Notes:

- Perform this task after every few months.
- Damage to the printer caused by improper handling is not covered by the printer warranty.

- 1 Turn off the printer, and then unplug the power cord from the electrical outlet.
- 2 Remove paper from the standard bin and multipurpose feeder.
- 3 Remove any dust, lint, and pieces of paper around the printer using a soft brush or vacuum.
- 4 Wipe the outside of the printer with a damp, soft, lint-free cloth.

Notes:

- Do not use household cleaners or detergents, as they may damage the finish of the printer.
- Make sure that all areas of the printer are dry after cleaning.

- 5 Connect the power cord to the electrical outlet, and then turn on the printer.

 **CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.

Cleaning the touch screen

 **CAUTION—SHOCK HAZARD:** To avoid the risk of electric shock when cleaning the exterior of the printer, unplug the power cord from the electrical outlet and disconnect all cables from the printer before proceeding.

- 1 Turn off the printer, and then unplug the power cord from the electrical outlet.
- 2 Using a damp, soft, lint-free cloth, wipe the touch screen.

Notes:

- Do not use household cleaners or detergents, as they may damage the touch screen.
- Make sure that the touch screen is dry after cleaning.

3 Connect the power cord to the electrical outlet, and then turn on the printer.

⚠ CAUTION—POTENTIAL INJURY: To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.

Cleaning the scanner

1 Open the scanner cover.

2 Using a damp, soft, lint-free cloth, wipe the following areas:

- ADF glass pad

Note: In some printer models, this location has an ADF glass instead of a pad.

- Scanner glass pad

- ADF glass

- Scanner glass

3 Close the scanner cover.

Cleaning the pick roller assembly

- 1** Turn off the printer.
- 2** Unplug the power cord from the electrical outlet, and then from the printer.

3 Open the front door.

4 Remove the imaging unit.

5 Close the front door.

6 Remove the tray.

7 Position the printer on its side.

8 Remove the pick roller assembly.

9 Apply isopropyl alcohol to a soft, lint-free cloth, and then wipe the pick roller assembly.

- 10** Insert the pick roller assembly.

- 11** Place the printer in its original position, and then insert the tray.
- 12** Open the front door.
- 13** Insert the imaging unit.
- 14** Close the front door.
- 15** Connect the power cord to the printer, and then to the electrical outlet.
- ⚠ CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.
- 16** Turn on the printer.

Saving energy and paper

Configuring the power save mode settings

Sleep mode

- 1 From the home screen, touch **Settings > Device > Power Management > Timeouts > Sleep Mode**.
- 2 Specify the amount of time that the printer stays idle before it enters Sleep Mode.

Hibernate mode

- 1 From the home screen, touch **Settings > Device > Power Management > Timeouts > Hibernate Timeout**.
- 2 Select the amount of time that the printer stays idle before it enters Hibernate mode.

Notes:

- For Hibernate Timeout to work, set Hibernate Timeout on Connection to Hibernate.
- The Embedded Web Server is disabled when the printer is in Hibernate mode.

Adjusting the brightness of the printer display

- 1 From the home screen, touch **Settings > Device > Preferences > Screen Brightness**.
- 2 Adjust the setting.

Conserving supplies

- Print on both sides of the paper.
Note: Two-sided printing is the default setting in the print driver.
- Print multiple pages on a single sheet of paper.
- Use the preview feature to see how the document looks like before printing it.
- Print one copy of the document to check its content and format for accuracy.

Moving the printer to another location

 **CAUTION—POTENTIAL INJURY:** If the printer weight is greater than 20 kg (44 lb), then it may require two or more people to lift it safely.

 **CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, use only the power cord provided with this product or the manufacturer's authorized replacement.

 **CAUTION—POTENTIAL INJURY:** When moving the printer, follow these guidelines to avoid personal injury or printer damage:

- Make sure that all doors and trays are closed.
- Turn off the printer, and then unplug the power cord from the electrical outlet.
- Disconnect all cords and cables from the printer.

- If the printer has separate floor-standing optional trays or output options attached to it, then disconnect them before moving the printer.
- If the printer has a caster base, then carefully roll it to the new location. Use caution when passing over thresholds and breaks in flooring.
- If the printer does not have a caster base but is configured with optional trays or output options, then remove the output options and lift the printer off the trays. Do not try to lift the printer and any options at the same time.
- Always use the handholds on the printer to lift it.
- Any cart used to move the printer must have a surface able to support the full footprint of the printer.
- Any cart used to move the hardware options must have a surface able to support the dimensions of the options.
- Keep the printer in an upright position.
- Avoid severe jarring movements.
- Make sure that your fingers are not under the printer when you set it down.
- Make sure that there is adequate clearance around the printer.

Note: Damage to the printer caused by improper moving is not covered by the printer warranty.

Shipping the printer

When shipping the printer, use the original packaging or contact the place where you purchased the printer.

Printing problems

Print quality is poor

Blank or white pages

Note: Before solving the problem, print the Print Quality Test Pages. From the control panel, navigate to **Settings > Troubleshooting > Print Quality Test Pages**. For non-touch-screen printer models, press **OK** to navigate through the settings.

Action	Yes	No
<p>Step 1</p> <p>a Check if the printer is using a genuine and supported toner cartridge.</p> <p>Note: If the cartridge is not supported, then install a supported one.</p> <p>b Print the document.</p> <p>Is the printer printing blank or white pages?</p>	Go to step 2.	The problem is solved.

Action	Yes	No
<p>Step 2</p> <p>a Remove the imaging unit.</p> <p>Warning—Potential Damage: Do not expose the imaging unit to direct light for more than 10 minutes. Extended exposure to light may cause print quality problems.</p> <p>Warning—Potential Damage: Do not touch the photoconductor drum under the imaging unit. Doing so may affect the quality of future print jobs.</p> <p>b Check the imaging unit for signs of damage.</p> <p>Note: Make sure that the photoconductor drum contact is not bent or out of place.</p> <p>c Firmly shake the imaging unit to redistribute the toner.</p> <p>d Insert the imaging unit.</p> <p>e Print the document.</p> <p>Is the printer printing blank or white pages?</p>	Go to step 3.	The problem is solved.
<p>Step 3</p> <p>Replace the toner cartridge.</p> <p>Is the printer printing blank or white pages?</p>	Go to step 4.	The problem is solved.
<p>Step 4</p> <p>Replace the imaging unit.</p> <p>Is the printer printing blank or white pages?</p>	Contact customer support .	The problem is solved.

Dark print

Note: Before solving the problem, print the Print Quality Test Pages. From the control panel, navigate to **Settings > Troubleshooting > Print Quality Test Pages**. For non-touch-screen printer models, press **OK** to navigate through the settings.

Action	Yes	No
<p>Step 1</p> <p>a Check if the printer is using a genuine and supported toner cartridge.</p> <p>Note: If the cartridge is not supported, then install a supported one.</p> <p>b Print the document.</p> <p>Is the print dark?</p>	Go to step 2.	The problem is solved.
<p>Step 2</p> <p>a Turn off the printer, wait for about 10 seconds, and then turn on the printer.</p> <p>b Reduce toner darkness. From the control panel, navigate to: Settings > Print > Quality > Toner Darkness</p> <p>c Print the document.</p> <p>Is the print dark?</p>	Go to step 3.	The problem is solved.
<p>Step 3</p> <p>a Depending on your operating system, specify the paper type from the Printing Preferences or Print dialog.</p> <p>Notes:</p> <ul style="list-style-type: none"> • Make sure that the setting matches the paper loaded. • You can also change the setting on the printer control panel. Navigate to Settings > Paper > Tray Configuration > Paper Size/Type. <p>b Print the document.</p> <p>Is the print dark?</p>	Go to step 4.	The problem is solved.
<p>Step 4</p> <p>Check if the paper has texture or rough finishes.</p> <p>Are you printing on textured or rough paper?</p>	Go to step 5.	Go to step 6.
<p>Step 5</p> <p>a Replace textured paper with plain paper.</p> <p>b Print the document.</p> <p>Is the print dark?</p>	Go to step 6.	The problem is solved.

Action	Yes	No
<p>Step 6</p> <p>a Load paper from a fresh package.</p> <p>Note: Paper absorbs moisture due to high humidity. Store paper in its original wrapper until you are ready to use it.</p> <p>b Print the document.</p> <p>Is the print dark?</p>	Go to step 7.	The problem is solved.
<p>Step 7</p> <p>a Remove, and then insert the imaging unit.</p> <p>Warning—Potential Damage: Do not expose the imaging unit to direct light for more than 10 minutes. Extended exposure to light may cause print quality problems.</p> <p>Warning—Potential Damage: Do not touch the photoconductor drum under the imaging unit. Doing so may affect the quality of future print jobs.</p> <p>b Print the document.</p> <p>Is the print dark?</p>	Go to step 8.	The problem is solved.
<p>Step 8</p> <p>a Replace the imaging unit.</p> <p>b Print the document.</p> <p>Is the print dark?</p>	Contact customer support .	The problem is solved.

Fine lines are not printed correctly

Note: Before solving the problem, print the Print Quality Test Pages. From the control panel, navigate to **Settings > Troubleshooting > Print Quality Test Pages**. For non-touch-screen printer models, press **OK** to navigate through the settings.

Action	Yes	No
<p>Step 1</p> <p>a Check if the printer is using a genuine and supported toner cartridge.</p> <p>Note: If the cartridge is not supported, then install a supported one.</p> <p>b Print the document.</p> <p>Are fine lines not printed correctly?</p>	Go to step 2.	The problem is solved.
<p>Step 2</p> <p>a Increase toner darkness.</p> <p>From the control panel, navigate to: Settings > Print > Quality > Toner Darkness</p> <p>b Print the document.</p> <p>Are fine lines not printed correctly?</p>	Contact customer support .	The problem is solved.

Folded or wrinkled paper

Note: Before solving the problem, print the Print Quality Test Pages. From the control panel, navigate to **Settings > Troubleshooting > Print Quality Test Pages**. For non-touch-screen printer models, press **OK** to navigate through the settings.

Action	Yes	No
<p>Step 1</p> <p>a Check if the printer is using a genuine and supported toner cartridge.</p> <p>Note: If the cartridge is not supported, then install a supported one.</p> <p>b Print the document.</p> <p>Is the paper folded or wrinkled?</p>	Go to step 2.	The problem is solved.

Action	Yes	No
<p>Step 2</p> <p>a Load paper from a fresh package.</p> <p>Note: Paper absorbs moisture due to high humidity. Store paper in its original wrapper until you are ready to use it.</p> <p>b Print the document.</p> <p>Is the paper folded or wrinkled?</p>	Go to step 3.	The problem is solved.
<p>Step 3</p> <p>a Depending on your operating system, specify the paper type from the Printing Preferences or Print dialog.</p> <p>Notes:</p> <ul style="list-style-type: none"> • Make sure that the setting matches the paper loaded. • You can also change the setting from the printer control panel. Navigate to Settings > Paper > Tray Configuration > Paper Size/Type. <p>b Print the document.</p> <p>Is the paper folded or wrinkled?</p>	Contact customer support .	The problem is solved.

Gray background

Note: Before solving the problem, print the Print Quality Test Pages. From the control panel, navigate to **Settings > Troubleshooting > Print Quality Test Pages**. For non-touch-screen printer models, press **OK** to navigate through the settings.

Action	Yes	No
<p>Step 1</p> <p>a Turn off the printer, wait for 10 seconds, and then turn on the printer.</p> <p>b Decrease toner darkness.</p> <p>From the control panel, navigate to:</p> <p>Settings > Print > Quality > Toner Darkness</p> <p>c Print the document.</p> <p>Does gray background appear on prints?</p>	Go to step 2.	The problem is solved.

Action	Yes	No
<p>Step 2</p> <p>a Check if the printer is using a genuine and supported toner cartridge.</p> <p>Note: If the toner cartridge is not supported, then install a supported one.</p> <p>b Print the document.</p> <p>Does gray background appear on prints?</p>	Go to step 3.	The problem is solved.
<p>Step 3</p> <p>a Depending on your operating system, specify the paper type from the Printing Preferences or Print dialog.</p> <p>Notes:</p> <ul style="list-style-type: none"> • Make sure that the setting matches the paper loaded. • You can also change the setting from the printer control panel. Navigate to Settings > Paper > Tray Configuration > Paper Size/Type. <p>b Print the document.</p> <p>Does gray background appear on prints?</p>	Go to step 4.	The problem is solved.
<p>Step 4</p> <p>a Remove, and then insert the imaging unit.</p> <p>Warning—Potential Damage: Do not expose the imaging unit to direct light for more than 10 minutes. Extended exposure to light may cause print quality problems.</p> <p>Warning—Potential Damage: Do not touch the photoconductor drum under the imaging unit. Doing so may affect the quality of future print jobs.</p> <p>b Print the document.</p> <p>Does gray background appear on prints?</p>	Go to step 5.	The problem is solved.
<p>Step 5</p> <p>a Update the printer firmware. For more information, see “Updating firmware” on page 41.</p> <p>b Print the document.</p> <p>Does gray background appear on prints?</p>	Go to step 6.	The problem is solved.
<p>Step 6</p> <p>a Replace the imaging unit.</p> <p>b Print the document.</p> <p>Does gray background appear on prints?</p>	Contact customer support .	The problem is solved.

Incorrect margins

Action	Yes	No
<p>Step 1</p> <p>a Adjust the paper guides to the correct position for the paper loaded.</p> <p>b Print the document.</p> <p>Are the margins correct?</p>	The problem is solved.	Go to step 2.
<p>Step 2</p> <p>a Set the paper size. From the control panel, navigate to: Settings > Paper > Tray Configuration > Paper Size/Type</p> <p>b Print the document.</p> <p>Are the margins correct?</p>	The problem is solved.	Go to step 3.
<p>Step 3</p> <p>a Depending on your operating system, specify the paper size from the Printing Preferences or Print dialog. Note: Make sure that the setting matches the paper loaded.</p> <p>b Print the document.</p> <p>Are the margins correct?</p>	The problem is solved.	Contact customer support .

Light print

Note: Before solving the problem, print the Print Quality Test Pages. From the control panel, navigate to **Settings > Troubleshooting > Print Quality Test Pages**. For non-touch-screen printer models, press **OK** to navigate through the settings.

Action	Yes	No
<p>Step 1</p> <p>a Check if the printer is using a genuine and supported toner cartridge.</p> <p>Note: If the cartridge is not supported, then install a supported one.</p> <p>b Print the document.</p> <p>Is the print light?</p>	<p>Go to step 2.</p>	<p>The problem is solved.</p>
<p>Step 2</p> <p>a Turn off the printer, wait for about 10 seconds, and then turn on the printer.</p> <p>b Increase toner darkness.</p> <p>From the control panel, navigate to: Settings > Print > Quality > Toner Darkness</p> <p>c Print the document.</p> <p>Is the print light?</p>	<p>Go to step 3.</p>	<p>The problem is solved.</p>
<p>Step 3</p> <p>a Depending on your operating system, specify the paper type from the Printing Preferences or Print dialog.</p> <p>Notes:</p> <ul style="list-style-type: none"> • Make sure that the setting matches the paper loaded. • You can also change the setting on the printer control panel. Navigate to Settings > Paper > Tray Configuration > Paper Size/Type. <p>b Print the document.</p> <p>Is the print light?</p>	<p>Go to step 4.</p>	<p>The problem is solved.</p>
<p>Step 4</p> <p>a Depending on your operating system, specify the print resolution from the Printing Preferences or Print dialog.</p> <p>b Set the resolution to 600 dpi.</p> <p>c Print the document.</p> <p>Is the print light?</p>	<p>Go to step 5.</p>	<p>The problem is solved.</p>

Action	Yes	No
<p>Step 5</p> <p>a Remove the imaging unit.</p> <p>Warning—Potential Damage: Do not expose the imaging unit to direct light for more than 10 minutes. Extended exposure to light can cause print quality problems.</p> <p>Warning—Potential Damage: Do not touch the photoconductor drum under the imaging unit. Doing so may affect the quality of future print jobs.</p> <p>b Firmly shake the imaging unit to redistribute the toner.</p> <p>c Insert the imaging unit.</p> <p>d Turn off the printer, wait for 10 seconds, and then turn on the printer.</p> <p>e Print the document.</p> <p>Is the print light?</p>	Go to step 6.	The problem is solved.
<p>Step 6</p> <p>a Check the status of the toner cartridge.</p> <p>From the control panel, navigate to:</p> <p>Settings > Reports > Device > Device Statistics</p> <p>b From the Supply Information section of the pages printed, check the status of the toner cartridge.</p> <p>Is the toner cartridge near end of life?</p>	Go to step 7.	Contact customer support .
<p>Step 7</p> <p>a Replace the toner cartridge.</p> <p>b Print the document.</p> <p>Is the print light?</p>	Contact customer support .	The problem is solved.

Mottled print and dots

Note: Before solving the problem, print the Print Quality Test Pages. From the home screen, touch **Settings > Troubleshooting > Print Quality Test Pages**.

Action	Yes	No
<p>Step 1</p> <p>a Check if the printer is using a genuine and supported toner cartridge.</p> <p>Note: If the cartridge is not supported, then install a supported one.</p> <p>b Print the document.</p> <p>Is the print mottled?</p>	Go to step 2.	The problem is solved.
<p>Step 2</p> <p>Check the printer for leaked toner contamination.</p> <p>Is the printer free of leaked toner?</p>	Go to step 3.	Contact customer support .
<p>Step 3</p> <p>a Check the status of the imaging unit.</p> <p>From the home screen, touch Settings > Reports > Device > Device Statistics.</p> <p>b From the Supply Information section of the pages printed, check the status of the imaging unit.</p> <p>Is the imaging unit near end of life?</p>	Go to step 4.	Contact customer support .
<p>Step 4</p> <p>a Replace the imaging unit.</p> <p>b Print the document.</p> <p>Is the print mottled?</p>	Contact customer support .	The problem is solved.

Paper curl

Action	Yes	No
<p>Step 1</p> <p>a Adjust the guides in the tray to the correct position for the paper loaded.</p> <p>b Print the document.</p> <p>Is the paper curled?</p>	Go to step 2.	The problem is solved.

Action	Yes	No
<p>Step 2</p> <p>a Depending on your operating system, specify the paper type from the Printing Preferences or Print dialog.</p> <p>Notes:</p> <ul style="list-style-type: none"> • Make sure that the setting matches the paper loaded. • You can also change the setting on the printer control panel. From the home screen, touch Settings > Paper > Tray Configuration > Paper Size/Type. <p>b Print the document.</p> <p>Is the paper curled?</p>	Go to step 3.	The problem is solved.
<p>Step 3</p> <p>Print on the other side of the paper.</p> <p>a Remove paper, flip it over, and then reload paper.</p> <p>b Print the document.</p> <p>Is the paper curled?</p>	Go to step 4.	The problem is solved.
<p>Step 4</p> <p>a Load paper from a fresh package.</p> <p>Note: Paper absorbs moisture due to high humidity. Store paper in its original wrapper until you are ready to use it.</p> <p>b Print the document.</p> <p>Is the paper curled?</p>	Contact customer support .	The problem is solved.

Print crooked or skewed

Note: Before solving the problem, print the Print Quality Test Pages. From the control panel, navigate to **Settings > Troubleshooting > Print Quality Test Pages**. For non-touch-screen printer models, press **OK** to navigate through the settings.

Action	Yes	No
<p>Step 1</p> <p>a Adjust the guides in the tray to the correct position for the paper loaded.</p> <p>b Print the document.</p> <p>Is the print crooked or skewed?</p>	Go to step 2.	The problem is solved.
<p>Step 2</p> <p>a Load paper from a fresh package.</p> <p>Note: Paper absorbs moisture due to high humidity. Store paper in its original wrapper until you are ready to use it.</p> <p>b Print the document.</p> <p>Is the print crooked or skewed?</p>	Go to step 3.	The problem is solved.
<p>Step 3</p> <p>a Check if the paper loaded is supported.</p> <p>Note: If paper is not supported, then load a supported paper.</p> <p>b Print the document.</p> <p>Is the print crooked or skewed?</p>	Contact customer support .	The problem is solved.
<p>Step 4</p> <p>a For two-sided printing, check if the paper size setting in the duplex unit is set correctly.</p> <p>Note: Letter, legal, Oficio, or folio must be set to Letter.</p> <p>b Print the document.</p> <p>Is the print crooked or skewed?</p>	Contact customer support .	The problem is solved.

Solid black pages

Note: Before solving the problem, print the Print Quality Test Pages. From the control panel, navigate to **Settings > Troubleshooting > Print Quality Test Pages**. For non-touch-screen printer models, press **OK** to navigate through the settings.

Action	Yes	No
<p>Step 1</p> <p>a Check if the printer is using a genuine and supported toner cartridge.</p> <p>Note: If the toner cartridge is not supported, then install a supported one.</p> <p>b Print the document.</p> <p>Is the printer printing solid black pages?</p>	Go to step 2.	The problem is solved.
<p>Step 2</p> <p>a Remove, and then insert the imaging unit.</p> <p>Warning—Potential Damage: Do not expose the imaging unit to direct light for more than 10 minutes. Extended exposure to light may cause print quality problems.</p> <p>Warning—Potential Damage: Do not touch the photoconductor drum under the imaging unit. Doing so may affect the quality of future print jobs.</p> <p>b Print the document.</p> <p>Is the printer printing solid black pages?</p>	Go to step 3.	The problem is solved.
<p>Step 3</p> <p>Check the imaging unit for signs of damage.</p> <p>Note: Make sure that the photoconductor drum contact is not bent or out of place.</p> <p>Is the imaging unit free from damage?</p>	Contact customer support .	Go to step 4.
<p>Step 4</p> <p>a Replace the imaging unit.</p> <p>b Print the document.</p> <p>Is the printer printing solid black pages?</p>	Contact customer support .	The problem is solved.

Text or images cut off

Note: Before solving the problem, print the Print Quality Test Pages. From the control panel, navigate to **Settings > Troubleshooting > Print Quality Test Pages**. For non-touch-screen printer models, press **OK** to navigate through the settings.

Action	Yes	No
<p>Step 1</p> <p>a Check if the printer is using a genuine and supported toner cartridge.</p> <p>Note: If the toner cartridge is not supported, then install a supported one.</p> <p>b Print the document.</p> <p>Are text or images cut off?</p>	Go to step 2.	The problem is solved.
<p>Step 2</p> <p>a Remove, and then insert the imaging unit.</p> <p>Warning—Potential Damage: Do not expose the imaging unit to direct light for more than 10 minutes. Extended exposure to light may cause print quality problems.</p> <p>Warning—Potential Damage: Do not touch the photoconductor drum under the imaging unit. Doing so may affect the quality of future print jobs.</p> <p>b Print the document.</p> <p>Are text or images cut off?</p>	Go to step 3.	The problem is solved.
<p>Step 3</p> <p>a Replace the imaging unit.</p> <p>b Print the document.</p> <p>Are text or images cut off?</p>	Contact customer support .	The problem is solved.

Toner easily rubs off

Note: Before solving the problem, print the Print Quality Test Pages. From the home screen, touch **Settings** > **Troubleshooting** > **Print Quality Test Pages**.

Action	Yes	No
<p>Step 1</p> <p>a Check if the printer is using a genuine and supported toner cartridge.</p> <p>Note: If the toner cartridge is not supported, then install a supported one.</p> <p>b Print the document.</p> <p>Does toner easily rub off?</p>	Go to step 2.	The problem is solved.
<p>Step 2</p> <p>a Depending on your operating system, specify the paper type from the Printing Preferences or Print dialog.</p> <p>Notes:</p> <ul style="list-style-type: none"> • Make sure that the setting matches the paper loaded. • You can also change the setting on the printer control panel. From the home screen, touch Settings > Paper > Tray Configuration > Paper Size/Type. <p>b Print the document.</p> <p>Does toner easily rub off?</p>	Contact customer support .	The problem is solved.

Horizontal light bands

Note: Before solving the problem, print the Print Quality Test Pages. From the control panel, navigate to **Settings > Troubleshooting > Print Quality Test Pages**. For non-touch-screen printer models, press **OK** to navigate through the settings.

Action	Yes	No
<p>Step 1</p> <p>a Check if the printer is using a genuine and supported toner cartridge.</p> <p>Note: If the cartridge is not supported, then install a supported one.</p> <p>b Print the document.</p> <p>Do horizontal light bands appear on prints?</p>	Go to step 2.	The problem is solved.

Action	Yes	No
<p>Step 2</p> <p>a Remove, and then insert the imaging unit.</p> <p>Warning—Potential Damage: Do not expose the imaging unit to direct light for more than 10 minutes. Extended exposure to light may cause print quality problems.</p> <p>Warning—Potential Damage: Do not touch the photoconductor drum under the imaging unit. Doing so may affect the quality of future print jobs.</p> <p>b Print the document.</p> <p>Do horizontal light bands appear on prints?</p>	Go to step 3.	The problem is solved.
<p>Step 3</p> <p>a Replace the imaging unit.</p> <p>b Print the document.</p> <p>Do horizontal light bands appear on prints?</p>	Contact customer support .	The problem is solved.

Vertical light bands

Note: Before solving the problem, print the Print Quality Test Pages. From the control panel, navigate to **Settings > Troubleshooting > Print Quality Test Pages**. For non-touch-screen printer models, press **OK** to navigate through the settings.

Action	Yes	No
<p>Step 1</p> <p>a Check if the printer is using a genuine and supported toner cartridge.</p> <p>Note: If the cartridge is not supported, then install a supported one.</p> <p>b Print the document.</p> <p>Do vertical light bands appear on prints?</p>	Go to step 2.	The problem is solved.

Action	Yes	No
<p>Step 2</p> <p>a Check the status of the toner cartridge. From the control panel, navigate to: Settings > Reports > Device > Device Statistics</p> <p>b From the Supply Information section of the pages printed, check the status of the toner cartridge.</p> <p>Do vertical light bands appear on prints?</p>	Go to step 3.	The problem is solved.
<p>Step 3</p> <p>a Replace the toner cartridge.</p> <p>b Print the document.</p> <p>Do vertical light bands appear on prints?</p>	Contact customer support .	The problem is solved.

Vertical white lines

Note: Before solving the problem, print the Print Quality Test Pages. From the home screen, touch **Settings > Troubleshooting > Print Quality Test Pages**.

Action	Yes	No
<p>Step 1</p> <p>a Check if the printer is using a genuine and supported toner cartridge. Note: If the cartridge is not supported, then install a supported one.</p> <p>b Print the document.</p> <p>Do vertical white lines appear on prints?</p>	Go to step 2.	The problem is solved.

Action	Yes	No
<p>Step 2</p> <p>a Depending on your operating system, specify the paper type from the Printing Preferences or Print dialog.</p> <p>Notes:</p> <ul style="list-style-type: none"> • Make sure that the setting matches the paper loaded. • You can also change the setting on the printer control panel. From the home screen, touch Settings > Paper > Tray Configuration > Paper Size/Type. <p>b Print the document.</p> <p>Do vertical white lines appear on prints?</p>	<p>Contact customer support.</p>	<p>The problem is solved.</p>

Vertical dark bands

Note: Before solving the problem, print the Print Quality Test Pages. From the control panel, navigate to **Settings > Troubleshooting > Print Quality Test Pages**. For non-touch-screen printer models, press **OK** to navigate through the settings.

Action	Yes	No
<p>Step 1</p> <p>a Check if the printer is using a genuine and supported toner cartridge.</p> <p>Note: If the toner cartridge is not supported, then install a supported one.</p> <p>b Print the document.</p> <p>Do vertical dark bands appear on prints?</p>	<p>Go to step 2.</p>	<p>The problem is solved.</p>

Action	Yes	No
<p>Step 2</p> <p>a Remove, and then insert the imaging unit.</p> <p>Warning—Potential Damage: Do not expose the imaging unit to direct light for more than 10 minutes. Extended exposure to light may cause print quality problems.</p> <p>Warning—Potential Damage: Do not touch the photoconductor drum under the imaging unit. Doing so may affect the quality of future print jobs.</p> <p>b Print the document.</p> <p>Do vertical dark bands appear on prints?</p>	Go to step 3.	The problem is solved.
<p>Step 3</p> <p>a Check if a bright light enters the right side of the printer, and move the printer if necessary.</p> <p>b Print the document.</p> <p>Do vertical dark bands appear on prints?</p>	Contact customer support .	The problem is solved.

Vertical dark lines or streaks

Note: Before solving the problem, print the Print Quality Test Pages. From the control panel, navigate to **Settings > Troubleshooting > Print Quality Test Pages**. For non-touch-screen printer models, press **OK** to navigate through the settings.

Action	Yes	No
<p>Step 1</p> <p>a Check if the printer is using a genuine and supported toner cartridge.</p> <p>Note: If the toner cartridge is not supported, then install a supported one.</p> <p>b Print the document.</p> <p>Do vertical dark lines or streaks appear on prints?</p>	Go to step 2.	The problem is solved.

Action	Yes	No
<p>Step 2</p> <p>a Remove, and then reinstall the imaging unit.</p> <p>Warning—Potential Damage: Do not expose the imaging unit to direct light for more than 10 minutes. Extended exposure to light can cause print quality problems.</p> <p>Warning—Potential Damage: Do not touch the photoconductor drum under the imaging unit. Doing so may affect the quality of future print jobs.</p> <p>b Print the document.</p> <p>Do vertical dark lines or streaks appear on prints?</p>	Go to step 3.	The problem is solved.
<p>Step 3</p> <p>a Replace the imaging unit.</p> <p>b Print the document.</p> <p>Do vertical dark lines or streaks appear on prints?</p>	Contact customer support .	The problem is solved.

Vertical dark streaks with print missing

Note: Before solving the problem, print the Print Quality Test Pages. From the control panel, navigate to **Settings > Troubleshooting > Print Quality Test Pages**. For non-touch-screen printer models, press **OK** to navigate through the settings.

Action	Yes	No
<p>Step 1</p> <p>a Remove, and then insert the imaging unit.</p> <p>Warning—Potential Damage: Do not expose the imaging unit to direct light for more than 10 minutes. Extended exposure to light may cause print quality problems.</p> <p>Warning—Potential Damage: Do not touch the photoconductor drum under the imaging unit. Doing so may affect the quality of future print jobs.</p> <p>b Print the document.</p> <p>Do vertical dark streaks with missing images appear on prints?</p>	Go to step 2.	The problem is solved.

Action	Yes	No
<p>Step 2</p> <p>a Check if the printer is using a genuine and supported toner cartridge.</p> <p>Note: If the toner cartridge is not supported, then install a supported one.</p> <p>b Print the document.</p> <p>Do vertical dark streaks with missing images appear on prints?</p>	<p>Contact customer support.</p>	<p>The problem is solved.</p>

Repeating defects

Note: Before solving the problem, print the Print Quality Test Pages. From the control panel, navigate to **Settings > Troubleshooting > Print Quality Test Pages**. For non-touch-screen printer models, press **OK** to navigate through the settings.

Action	Yes	No
<p>Step 1</p> <p>Using the Print Quality Test Pages, check if the distance between the repeating defects is equal to any of the following:</p> <p>Imaging unit</p> <ul style="list-style-type: none"> • 96 mm (3.78 in.) • 37.7 mm (1.48 in.) <p>Toner cartridge</p> <ul style="list-style-type: none"> • 43.5 mm (1.71 in.) • 37.5 mm (1.48 in.) <p>Transfer roller</p> <ul style="list-style-type: none"> • 52 mm (2.05 in.) <p>Fuser</p> <ul style="list-style-type: none"> • 79.8 mm (3.14 in.) • 62.5 mm (2.46 in.) <p>Does the distance between the repeating defects match the toner cartridge or imaging unit measurements?</p>	<p>Go to step 2.</p> <p>Note: If the repeating defects match the transfer roller or fuser measurements, then contact customer support.</p>	<p>Take note of the distance, and then contact customer support.</p>

Action	Yes	No
<p>Step 2</p> <p>a Replace the affected supply item.</p> <p>b Print the document.</p> <p>Do the repeating defects appear?</p>	Contact customer support .	The problem is solved.

Print jobs do not print

Action	Yes	No
<p>Step 1</p> <p>a From the document you are trying to print, open the Print dialog, and then check if you have selected the correct printer.</p> <p>b Print the document.</p> <p>Is the document printed?</p>	The problem is solved.	Go to step 2.
<p>Step 2</p> <p>a Check if the printer is on.</p> <p>b Resolve any error messages that appear on the display.</p> <p>c Print the document.</p> <p>Is the document printed?</p>	The problem is solved.	Go to step 3.
<p>Step 3</p> <p>a Check if the ports are working and if the cables are securely connected to the computer and the printer.</p> <p>For more information, see the setup documentation that came with the printer.</p> <p>b Print the document.</p> <p>Is the document printed?</p>	The problem is solved.	Go to step 4.
<p>Step 4</p> <p>a Turn off the printer, wait for about 10 seconds, and then turn on the printer.</p> <p>b Print the document.</p> <p>Is the document printed?</p>	The problem is solved.	Go to step 5.
<p>Step 5</p> <p>a Remove, and then reinstall the print driver.</p> <p>b Print the document.</p> <p>Is the document printed?</p>	The problem is solved.	Contact customer support .

Confidential and other held documents do not print

Action	Yes	No
<p>Step 1</p> <p>a From the control panel, check if the documents appear in the Held Jobs list.</p> <p>Note: If the documents are not listed, then print the documents using the Print and Hold options.</p> <p>b Print the documents.</p> <p>Are the documents printed?</p>	<p>The problem is solved.</p>	<p>Go to step 2.</p>
<p>Step 2</p> <p>The print job may contain a formatting error or invalid data.</p> <ul style="list-style-type: none"> • Delete the print job, and then send it again. • For PDF files, generate a new file, and then print the documents. <p>Are the documents printed?</p>	<p>The problem is solved.</p>	<p>Go to step 3.</p>
<p>Step 3</p> <p>If you are printing from the Internet, then the printer may be reading the multiple job titles as duplicates.</p> <p>For Windows users</p> <p>a Open the Printing Preferences dialog.</p> <p>b From the Print and Hold tab, click Use Print and Hold, and then click Keep duplicate documents.</p> <p>c From the Confidential Print section, enter a PIN.</p> <p>d Print the documents.</p> <p>For Macintosh users</p> <p>a Save and name each job differently.</p> <p>b Send the job individually.</p> <p>Are the documents printed?</p>	<p>The problem is solved.</p>	<p>Go to step 4.</p>
<p>Step 4</p> <p>a Delete some held jobs to free up printer memory.</p> <p>b Print the documents.</p> <p>Are the documents printed?</p>	<p>The problem is solved.</p>	<p>Contact customer support.</p>

Slow printing

Action	Yes	No
<p>Step 1 Make sure that the printer cable is securely connected to the printer and to the computer, print server, option, or other network device.</p> <p>Is the printer printing slow?</p>	Go to step 2.	The problem is solved.
<p>Step 2</p> <p>a Make sure that the printer is not in Quiet Mode. From the home screen, touch Settings > Device > Maintenance > Config Menu > Device Operations > Quiet Mode.</p> <p>b Print the document.</p> <p>Is the printer printing slow?</p>	Go to step 3.	The problem is solved.
<p>Step 3</p> <p>a Depending on your operating system, specify the print resolution from the Printing Preferences or Print dialog.</p> <p>b Set the resolution to 600 dpi.</p> <p>c Print the document.</p> <p>Is the printer printing slow?</p>	Go to step 4.	The problem is solved.
<p>Step 4</p> <p>a From the home screen, touch Settings > Print > Quality > Print Resolution.</p> <p>b Set the resolution to 600 dpi.</p> <p>c Print the document.</p> <p>Is the printer printing slow?</p>	Go to step 5.	The problem is solved.
<p>Step 5</p> <p>a Depending on your operating system, specify the paper type from the Printing Preferences or Print dialog.</p> <p>Notes:</p> <ul style="list-style-type: none"> • Make sure that the setting matches the paper loaded. • You can also change the setting on the printer control panel. • Heavier paper prints more slowly. • Paper narrower than letter, A4, and legal may print more slowly. <p>b Print the document.</p> <p>Is the printer printing slow?</p>	Go to step 6.	The problem is solved.

Action	Yes	No
<p>Step 6</p> <p>a Make sure that the printer settings for texture and weight match the paper being loaded.</p> <p>From the home screen, touch Settings > Paper > Media Configuration > Media Types.</p> <p>Note: Rough paper textures and heavy paper weights may print more slowly.</p> <p>b Print the document.</p> <p>Is the printer printing slow?</p>	Go to step 7.	The problem is solved.
<p>Step 7</p> <p>Remove held jobs.</p> <p>Is the printer printing slow?</p>	Go to step 8.	The problem is solved.
<p>Step 8</p> <p>a Make sure that the printer is not overheating.</p> <p>Notes:</p> <ul style="list-style-type: none"> • Allow the printer to cool down after a long print job. • Observe the recommended ambient temperature for the printer. For more information, see “Selecting a location for the printer” on page 18. <p>b Print the document.</p> <p>Is the printer printing slow?</p>	Contact customer support .	The problem is solved.

Job prints from the wrong tray or on the wrong paper

Action	Yes	No
<p>Step 1</p> <p>a Check if you are printing on the correct paper.</p> <p>b Print the document.</p> <p>Is the document printed on the correct paper?</p>	Go to step 2.	Load the correct paper size and paper type.
<p>Step 2</p> <p>a Depending on your operating system, specify the paper size and paper type from the Printing Preferences or Print dialog.</p> <p>Note: You can also change the settings on the printer control panel. From the home screen, touch Settings > Paper > Tray Configuration > Paper Size/Type.</p> <p>b Make sure that the settings match the paper loaded.</p> <p>c Print the document.</p> <p>Is the document printed on the correct paper?</p>	The problem is solved.	Go to step 3.

Action	Yes	No
<p>Step 3</p> <p>a Check if the trays are linked. For more information, see “Linking trays” on page 39.</p> <p>b Print the document.</p> <p>Is the document printed from the correct tray?</p>	<p>The problem is solved.</p>	<p>Contact customer support.</p>

The printer is not responding

Action	Yes	No
<p>Step 1</p> <p>Check if the power cord is connected to the electrical outlet.</p> <p> CAUTION—POTENTIAL INJURY: To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.</p> <p>Is the printer responding?</p>	<p>The problem is solved.</p>	<p>Go to step 2.</p>
<p>Step 2</p> <p>Check if the electrical outlet is turned off by a switch or breaker.</p> <p>Is the electrical outlet turned off by a switch or breaker?</p>	<p>Turn on the switch or reset the breaker.</p>	<p>Go to step 3.</p>
<p>Step 3</p> <p>Check if the printer is on.</p> <p>Is the printer on?</p>	<p>Go to step 4.</p>	<p>Turn on the printer.</p>
<p>Step 4</p> <p>Check if the printer is in Sleep or Hibernate mode.</p> <p>Is the printer in Sleep or Hibernate mode?</p>	<p>Press the power button to wake the printer.</p>	<p>Go to step 5.</p>
<p>Step 5</p> <p>Check if the cables connecting the printer and the computer are inserted to the correct ports.</p> <p>Are the cables inserted to the correct ports?</p>	<p>Go to step 6.</p>	<p>Insert the cables to the correct ports.</p>
<p>Step 6</p> <p>Turn off the printer, install the hardware options, and then turn on the printer.</p> <p>For more information, see the documentation that came with the option.</p> <p>Is the printer responding?</p>	<p>The problem is solved.</p>	<p>Go to step 7.</p>

Action	Yes	No
<p>Step 7 Install the correct print driver.</p> <p>Is the printer responding?</p>	The problem is solved.	Go to step 8.
<p>Step 8 Turn off the printer, wait for about 10 seconds, and then turn on the printer.</p> <p>Is the printer responding?</p>	The problem is solved.	Contact customer support .

Unable to read flash drive

Action	Yes	No
<p>Step 1 Check if the printer is not busy processing another print, copy, scan, or fax job.</p> <p>Is the printer ready?</p>	Go to step 3.	Go to step 2.
<p>Step 2</p> <ul style="list-style-type: none"> • Wait for the printer to finish processing the other job. • Remove, and then insert the flash drive. <p>Does the printer recognize the flash drive?</p>	The problem is solved.	Go to step 3.
<p>Step 3 Check if the flash drive is inserted into the front USB port.</p> <p>Note: The flash drive does not work when it is inserted into the rear USB port.</p> <p>Is the flash drive inserted into the correct port?</p>	Go to step 5.	Go to step 4.
<p>Step 4 Insert the flash drive into the correct port.</p> <p>Does the printer recognize the flash drive?</p>	The problem is solved.	Go to step 5.
<p>Step 5 Check if the flash drive is supported. For more information, see “Supported flash drives and file types” on page 50.</p> <p>Is the flash drive supported?</p>	Go to step 7.	Go to step 6.
<p>Step 6 Insert a supported flash drive.</p> <p>Does the printer recognize the flash drive?</p>	The problem is solved.	Go to step 7.

Action	Yes	No
<p>Step 7 Remove, and then insert the flash drive.</p> <p>Does the printer recognize the flash drive?</p>	The problem is solved.	Contact customer support .

Enabling the USB port

From the home screen, touch **Settings > Network/Ports > USB > Enable USB Port**.

Network connection problems

Cannot open Embedded Web Server

Action	Yes	No
<p>Step 1 a Check if the printer is on. b Access the printer Embedded Web Server (EWS).</p> <p>Can you open the EWS?</p>	The problem is solved.	Go to step 2.
<p>Step 2 a Make sure that the printer IP address is correct.</p> <p>Notes:</p> <ul style="list-style-type: none"> View the IP address on the home screen. An IP address appears as four sets of numbers separated by periods, such as 123.123.123.123. <p>b Access the EWS.</p> <p>Can you open the EWS?</p>	The problem is solved.	Go to step 3.
<p>Step 3 a Make sure that you installed a supported browser:</p> <ul style="list-style-type: none"> Internet Explorer version 11 or later Microsoft Edge Safari version 6 or later Google Chrome™ version 32 or later Mozilla Firefox version 24 or later <p>b Access the EWS.</p> <p>Can you open the EWS?</p>	The problem is solved.	Go to step 4.

Action	Yes	No
<p>Step 4</p> <p>a Check if the network connection is working. Note: If the connection is not working, then contact your administrator.</p> <p>b Access the EWS.</p> <p>Can you open the EWS?</p>	The problem is solved.	Go to step 5.
<p>Step 5</p> <p>a Make sure that the cable connections to the printer and print server are secure. For more information, see the documentation that came with the print server.</p> <p>b Access the EWS.</p> <p>Can you open the EWS?</p>	The problem is solved.	Go to step 6.
<p>Step 6</p> <p>a Check if the web proxy servers are disabled. Note: If the servers are disabled, then contact your administrator.</p> <p>b Access the EWS.</p> <p>Can you open the EWS?</p>	The problem is solved.	Contact customer support .

Cannot connect the printer to the Wi-Fi network

Action	Yes	No
<p>Step 1</p> <p>Make sure that Active Adapter is set to Auto. From the home screen, touch Settings > Network/Ports > Network Overview > Active Adapter > Auto.</p> <p>Can the printer connect to the Wi-Fi network?</p>	The problem is solved.	Go to step 2.
<p>Step 2</p> <p>Check if the correct Wi-Fi network is selected. Note: Some routers may share the default SSID.</p> <p>Are you connecting to the correct Wi-Fi network?</p>	Go to step 4.	Go to step 3.
<p>Step 3</p> <p>Connect to the correct Wi-Fi network. For more information, see “Connecting the printer to a Wi-Fi network” on page 42.</p> <p>Can the printer connect to the Wi-Fi network?</p>	The problem is solved.	Go to step 4.

Action	Yes	No
<p>Step 4 Check the wireless security mode. From the home screen, touch Settings > Network/Ports > Wireless > Wireless Security Mode.</p> <p>Is the correct wireless security mode selected?</p>	Go to step 6.	Go to step 5.
<p>Step 5 Select the correct wireless security mode.</p> <p>Can the printer connect to the Wi-Fi network?</p>	The problem is solved.	Go to step 6.
<p>Step 6 Make sure that you entered the correct network password. Note: Take note of the spaces, numbers, and capitalization in the password.</p> <p>Can the printer connect to the Wi-Fi network?</p>	The problem is solved.	Contact customer support .

Issues with supplies

Replace cartridge, printer region mismatch

Install the correct toner cartridge.

Non-Printer Manufacturer supply

The printer has detected an unrecognized supply or part installed in the printer.

Your printer is designed to function best with genuine supplies and parts made by the printer manufacturer. Use of third-party supplies or parts may affect the performance, reliability, or life of the printer and its imaging components.

All life indicators are designed to function with supplies and parts from the printer manufacturer and may deliver unpredictable results if third-party supplies or parts are used. Imaging component usage beyond the intended life may damage your printer or associated components.

Warning—Potential Damage: Use of third-party supplies or parts can affect warranty coverage. Damage caused by the use of third-party supplies or parts may not be covered by the warranty.

To accept any and all of these risks and to proceed with the use of non-genuine supplies or parts in your printer, do either of the following:

For touch-screen printer models, press  twice, and then press  twice.

For non-touch-screen printer models, press and hold **X** and **OK** simultaneously for 15 seconds.

If you do not want to accept these risks, then remove the third-party supply or part from your printer and install a genuine supply or part from the printer manufacturer.

Clearing jams

Avoiding jams

Load paper properly

- Make sure that the paper lies flat in the tray.

- Do not load or remove a tray while the printer is printing.
- Do not load too much paper. Make sure that the stack height is below the maximum paper fill indicator.
- Do not slide paper into the tray. Load paper as shown in the illustration.

- Make sure that the paper guides are positioned correctly and are not pressing tightly against the paper or envelopes.
- Push the tray firmly into the printer after loading paper.

Use recommended paper

- Use only recommended paper or specialty media.
- Do not load paper that is wrinkled, creased, damp, bent, or curled.

- Flex, fan, and align the paper edges before loading.

- Do not use paper that has been cut or trimmed by hand.
- Do not mix paper sizes, weights, or types in the same tray.
- Make sure that the paper size and type are set correctly on the computer or printer control panel.
- Store paper according to manufacturer recommendations.

Identifying jam locations

Notes:

- When Jam Assist is set to On, the printer flushes blank pages or pages with partial prints after a jammed page has been cleared. Check your printed output for blank pages.
- When Jam Recovery is set to On or Auto, the printer reprints jammed pages.

	Jam locations
1	Automatic document feeder
2	Standard bin
3	Multipurpose feeder
4	Trays
5	Duplex unit
6	Rear door

Paper jam in the automatic document feeder

- 1 Remove all original documents from the ADF tray.
- 2 Open the ADF cover.

- 3 Remove the jammed paper.

Note: Make sure that all paper fragments are removed.

- 4 Close the ADF cover.

Paper jam in the standard bin

- 1 Raise the scanner, and then remove the jammed paper.
- Note:** Make sure that all paper fragments are removed.

- 2 Lower the scanner.

Paper jam in the multipurpose feeder

- 1 Remove paper from the multipurpose feeder.

- 2 Remove the jammed paper.

Note: Make sure that all paper fragments are removed.

- 3 Close the multipurpose feeder.

- 4 Open the front door.

Warning—Potential Damage: To prevent damage from electrostatic discharge, touch any exposed metal frame of the printer before accessing or touching interior areas of the printer.

5 Remove the imaging unit.

Warning—Potential Damage: Do not expose the imaging unit to direct light for more than 10 minutes. Extended exposure to light may cause print quality problems.

Warning—Potential Damage: Do not touch the photoconductor drum. Doing so may affect the quality of future print jobs.

**6** Remove the jammed paper.

CAUTION—HOT SURFACE: The inside of the printer might be hot. To reduce the risk of injury from a hot component, allow the surface to cool before touching it.

Note: Make sure that all paper fragments are removed.

7 Insert the imaging unit.

8 Close the door.

9 Open the multipurpose feeder.

10 Flex, fan, and align the paper edges before loading.

- 11 Reload paper.

Paper jam in trays

- 1 Remove the tray.

- 2 Open the front door.

Warning—Potential Damage: To prevent damage from electrostatic discharge, touch any exposed metal frame of the printer before accessing or touching interior areas of the printer.

3 Remove the imaging unit.

Warning—Potential Damage: Do not expose the imaging unit to direct light for more than 10 minutes. Extended exposure to light may cause print quality problems.

Warning—Potential Damage: Do not touch the photoconductor drum. Doing so may affect the quality of future print jobs.

4 Remove the jammed paper.

CAUTION—HOT SURFACE: The inside of the printer might be hot. To reduce the risk of injury from a hot component, allow the surface to cool before touching it.

Note: Make sure that all paper fragments are removed.

5 Insert the imaging unit.

6 Close the front door, and then insert the tray.

7 Open the rear door.

CAUTION—HOT SURFACE: The inside of the printer might be hot. To reduce the risk of injury from a hot component, allow the surface to cool before touching it.

8 Remove the jammed paper.

Note: Make sure that all paper fragments are removed.

9 Close the rear door.

10 Remove the optional tray.

11 Remove the jammed paper.

Note: Make sure that all paper fragments are removed.

12 Insert the tray.

Paper jam in the duplex unit

1 Open the front door.

Warning—Potential Damage: To prevent damage from electrostatic discharge, touch any exposed metal frame of the printer before accessing or touching interior areas of the printer.

2 Remove the imaging unit.

Warning—Potential Damage: Do not expose the imaging unit to direct light for more than 10 minutes. Extended exposure to light may cause print quality problems.

Warning—Potential Damage: Do not touch the photoconductor drum. Doing so may affect the quality of future print jobs.

**3** Remove the jammed paper.

CAUTION—HOT SURFACE: The inside of the printer might be hot. To reduce the risk of injury from a hot component, allow the surface to cool before touching it.

Note: Make sure that all paper fragments are removed.

4 Insert the imaging unit.

5 Close the door.

6 Remove the tray.

7 Push the duplex unit latch to open the duplex unit.

8 Remove the jammed paper.

Note: Make sure that all paper fragments are removed.

- 9 Close the duplex unit.
- 10 Insert the tray.

Paper jam in the rear door

- 1 Open the front door.

Warning—Potential Damage: To prevent damage from electrostatic discharge, touch any exposed metal frame of the printer before accessing or touching interior areas of the printer.

- 2 Remove the imaging unit.

Warning—Potential Damage: Do not expose the imaging unit to direct light for more than 10 minutes. Extended exposure to light may cause print quality problems.

Warning—Potential Damage: Do not touch the photoconductor drum. Doing so may affect the quality of future print jobs.

3 Open the rear door.

 **CAUTION—HOT SURFACE:** The inside of the printer might be hot. To reduce the risk of injury from a hot component, allow the surface to cool before touching it.

4 Remove the jammed paper.

Note: Make sure that all paper fragments are removed.

5 Close the rear door.

6 Insert the imaging unit.

7 Close the front door.

Paper feed problems

Envelope seals when printing

Action	Yes	No
<p>Step 1</p> <p>a Use an envelope that has been stored in a dry environment. Note: Printing on envelopes with high moisture content can seal the flaps.</p> <p>b Send the print job.</p> <p>Does the envelope seal when printing?</p>	Go to step 2.	The problem is solved.
<p>Step 2</p> <p>a Make sure that paper type is set to Envelope. From the home screen, touch Settings > Paper > Tray Configuration > Paper Size/Type.</p> <p>b Send the print job.</p> <p>Does the envelope seal when printing?</p>	Contact customer support .	The problem is solved.

Collated printing does not work

Action	Yes	No
<p>Step 1</p> <p>a From the home screen, touch Settings > Print > Layout > Collate.</p> <p>b Touch On [1,2,1,2,1,2].</p> <p>c Print the document.</p> <p>Is the document collated correctly?</p>	The problem is solved.	Go to step 2.

Action	Yes	No
<p>Step 2</p> <p>a From the document that you are trying to print, open the Print dialog box, and then select Collate.</p> <p>b Print the document.</p> <p>Is the document collated correctly?</p>	The problem is solved.	Go to step 3.
<p>Step 3</p> <p>a Reduce the number of pages to print.</p> <p>b Print the document.</p> <p>Are the pages collated correctly?</p>	The problem is solved.	Contact customer support .

Tray linking does not work

Action	Yes	No
<p>Step 1</p> <p>a Check if the trays contain the same paper size and paper type.</p> <p>b Check if the paper guides are positioned correctly.</p> <p>c Print the document.</p> <p>Do the trays link correctly?</p>	The problem is solved.	Go to step 2.
<p>Step 2</p> <p>a From the home screen, touch Settings > Paper > Tray Configuration > Paper Size/Type.</p> <p>b Set the paper size and paper type to match the paper loaded in the linked trays.</p> <p>c Print the document.</p> <p>Do the trays link correctly?</p>	The problem is solved.	Go to step 3.
<p>Step 3</p> <p>a Make sure that Tray Linking is set to Automatic. For more information, see “Linking trays” on page 39.</p> <p>b Print the document.</p> <p>Do the trays link correctly?</p>	The problem is solved.	Contact customer support .

Paper frequently jams

Action	Yes	No
<p>Step 1</p> <p>a Remove the tray.</p> <p>b Check if paper is loaded correctly.</p> <p>Notes:</p> <ul style="list-style-type: none"> • Make sure that the paper guides are positioned correctly. • Make sure that the stack height is below the maximum paper fill indicator. • Make sure to print on recommended paper size and type. <p>c Insert the tray.</p> <p>d Print the document.</p> <p>Do paper jams occur frequently?</p>	Go to step 2.	The problem is solved.
<p>Step 2</p> <p>a From the home screen, touch Settings > Paper > Tray Configuration > Paper Size/Type.</p> <p>b Set the correct paper size and type.</p> <p>c Print the document.</p> <p>Do paper jams occur frequently?</p>	Go to step 3.	The problem is solved.
<p>Step 3</p> <p>a Load paper from a fresh package.</p> <p>Note: Paper absorbs moisture due to high humidity. Store paper in its original wrapper until you are ready to use it.</p> <p>b Print the document.</p> <p>Do paper jams occur frequently?</p>	Contact customer support .	The problem is solved.

Jammed pages are not reprinted

Action	Yes	No
<p>a From the home screen, touch Settings > Device > Notifications > Jam Content Recovery.</p> <p>b In the Jam Recovery menu, touch On or Auto.</p> <p>c Print the document.</p> <p>Are the jammed pages reprinted?</p>	The problem is solved.	Contact customer support .

E-mailing problems

Disabling the “SMTP server not set up” error message

From the home screen, touch **Settings > E-mail > E-mail Setup > Disable “SMTP Server not set up” error > On**.

To prevent the error from happening again, do one or more of the following:

- Update the printer firmware. For more information, see [“Updating firmware” on page 41](#).
- Configure the e-mail SMTP settings. For more information, see [“Configuring the e-mail SMTP settings” on page 28](#).

Cannot send e-mails

Action	Yes	No
<p>Step 1 Make sure that the e-mail SMTP settings are configured correctly. For more information, see “Configuring the e-mail SMTP settings” on page 28.</p> <p>Can you send an e-mail?</p>	The problem is solved.	Go to step 2.
<p>Step 2 Make sure that you are using the correct password. Depending on your e-mail service provider, use your account password, app password, or authentication password. For more information, see “Configuring the e-mail SMTP settings” on page 28.</p> <p>Can you send an e-mail?</p>	The problem is solved.	Go to step 3.
<p>Step 3 Make sure that the printer is connected to a network and that the network is connected to the Internet.</p> <p>Can you send an e-mail?</p>	The problem is solved.	Contact customer support .

Faxing problems

Caller ID is not shown

Note: These instructions apply only to printers that support analog fax. For more information, see the [Setting up the printer to fax](#) section.

Action	Yes	No
<p>Enable caller ID.</p> <p>From the home screen, touch Settings > Fax > Fax Setup > Fax Receive Settings > Admin Controls > Enable Caller ID.</p> <p>Does the caller ID appear?</p>	<p>The problem is solved.</p>	<p>Contact customer support.</p>

Cannot send or receive faxes using analog fax

Action	Yes	No
<p>Step 1</p> <p>Resolve any error messages that appear on the display.</p> <p>Can you send or receive a fax?</p>	<p>The problem is solved.</p>	<p>Go to step 2.</p>
<p>Step 2</p> <p>Make sure that the cable connections for the following equipment are secure:</p> <ul style="list-style-type: none"> • Telephone • Handset • Answering machine <p>Can you send or receive a fax?</p>	<p>The problem is solved.</p>	<p>Go to step 3.</p>
<p>Step 3</p> <p>Check for a dial tone.</p> <ul style="list-style-type: none"> • Call the fax number to check if it is working properly. • If you are using the On Hook Dial feature, then turn up the volume to check if you hear a dial tone. <p>Can you hear a dial tone?</p>	<p>Go to step 5.</p>	<p>Go to step 4.</p>

Action	Yes	No
<p>Step 4</p> <p>Check the telephone wall jack.</p> <ul style="list-style-type: none"> a Connect the analog telephone directly to the wall jack. b Listen for a dial tone. c If you do not hear a dial tone, then use a different telephone cable. d If you still do not hear a dial tone, then connect the analog telephone to a different wall jack. e If you hear a dial tone, then connect the printer to that wall jack. <p>Can you send or receive a fax?</p>	<p>The problem is solved.</p>	<p>Go to step 5.</p>
<p>Step 5</p> <p>Check if the printer is connected to an analog phone service or to the correct digital connector.</p> <ul style="list-style-type: none"> • If you are using an Integrated Services for Digital Network (ISDN) telephone service, then connect to an analog telephone port of an ISDN terminal adapter. For more information, contact your ISDN provider. • If you are using DSL, then connect to a DSL filter or router that supports analog use. For more information, contact your DSL provider. • If you are using a private branch exchange (PBX) telephone service, then make sure that you are connecting to an analog connection on the PBX. If none exists, then consider installing an analog telephone line for the fax machine. <p>Can you send or receive a fax?</p>	<p>The problem is solved.</p>	<p>Go to step 6.</p>
<p>Step 6</p> <p>Temporarily disconnect other equipment and disable other telephone services.</p> <ul style="list-style-type: none"> a Disconnect other equipment (such as answering machines, computers, modems, or telephone line splitters) between the printer and the telephone line. b Disable call waiting and voice mail. For more information, contact your telephone company. <p>Can you send or receive a fax?</p>	<p>The problem is solved.</p>	<p>Go to step 7.</p>
<p>Step 7</p> <p>Scan the original document one page at a time.</p> <ul style="list-style-type: none"> a Dial the fax number. b Scan the document. <p>Can you send or receive a fax?</p>	<p>The problem is solved.</p>	<p>Contact customer support.</p>

Can receive but not send faxes using analog fax

Action	Yes	No
<p>Step 1 Load an original document properly into the ADF tray or on the scanner glass.</p> <p>Can you send faxes?</p>	The problem is solved.	Go to step 2.
<p>Step 2 Set up the shortcut number properly.</p> <ul style="list-style-type: none"> • Check if the shortcut number is set for the telephone number that you want to dial. • Dial the telephone number manually. <p>Can you send faxes?</p>	The problem is solved.	Contact customer support .

Can send but not receive faxes using analog fax

Action	Yes	No
<p>Step 1 Make sure that the paper source is not empty.</p> <p>Can you receive faxes?</p>	The problem is solved.	Go to step 2.
<p>Step 2 Check the ring count delay settings.</p> <p>From the home screen, touch Settings > Fax > Fax Setup > Fax Receive Settings > Rings to Answer.</p> <p>Can you receive faxes?</p>	The problem is solved.	Go to step 3.
<p>Step 3 If the printer is printing blank pages, then see “Blank or white pages” on page 145.</p> <p>Can you receive faxes?</p>	The problem is solved.	Contact customer support .

Poor fax print quality

Action	Yes	No
<p>Step 1 Make sure that there are no print quality defects.</p> <p>a From the control panel, touch Settings > Troubleshooting > Print Quality Test Pages.</p> <p>b Correct any print quality defects. For more information, see “Print quality is poor” on page 145.</p> <p>Is the fax print quality satisfactory?</p>	<p>The problem is solved.</p>	<p>Go to step 2.</p>
<p>Step 2 Decrease the incoming fax transmission speed.</p> <p>a From the control panel, touch Settings > Fax > Fax Setup > Fax Receive Settings > Admin Controls.</p> <p>b In the Max Speed menu, select a lower transmission speed.</p> <p>Is the fax print quality satisfactory?</p>	<p>The problem is solved.</p>	<p>Contact customer support.</p>

Missing information on the fax cover page

Action	No	Yes
<p>a Turn off the printer, wait for about 10 seconds, and then turn on the printer.</p> <p>b Send or retrieve the fax.</p> <p>Is there missing information on the fax cover page?</p>	<p>The problem is solved.</p>	<p>Contact customer support.</p>

Cannot send the fax cover page from the computer

Action	Yes	No
<p>Step 1</p> <p>a Make sure that the print driver is updated. For more information, see “Installing the printer software” on page 39.</p> <p>b Send the fax.</p> <p>Can you send the fax cover page?</p>	<p>The problem is solved.</p>	<p>Go to step 2.</p>

Action	Yes	No
<p>Step 2</p> <p>a From the document that you are trying to fax, open the Print dialog.</p> <p>b Select the printer, and then click Properties, Preferences, Options, or Setup.</p> <p>c Click Fax, and then clear the Always display settings prior to faxing setting.</p> <p>d Send the fax.</p> <p>Can you send the fax cover page?</p>	<p>The problem is solved.</p>	<p>Contact customer support.</p>

Scanning problems

Cannot scan to a computer

Action	Yes	No
<p>Step 1</p> <p>Perform a copy job.</p> <p>Is the copy job successful?</p>	<p>Go to step 3.</p>	<p>Go to step 2.</p>
<p>Step 2</p> <p>a Turn off the printer, wait for about 10 seconds, and then turn it back on.</p> <p>b Scan the document.</p> <p>Can you scan the document to a computer?</p>	<p>The problem is solved.</p>	<p>Go to step 3.</p>
<p>Step 3</p> <p>Check the printer connectivity.</p> <p>a Print the Network Setup Page. From the home screen, touch Settings > Reports > Network > Network Setup Page.</p> <p>b Check the network status.</p> <p>Is the printer connected to the network?</p>	<p>Go to step 5.</p>	<p>Go to step 4.</p>
<p>Step 4</p> <p>a Connect the printer to the network.</p> <p>b Scan the document.</p> <p>Can you scan the document to a computer?</p>	<p>The problem is solved.</p>	<p>Go to step 5.</p>

Action	Yes	No
<p>Step 5</p> <p>a Make sure that the printer and the computer are connected to the same network.</p> <p>b Scan the document.</p> <p>Can you scan the document to a computer?</p>	<p>The problem is solved.</p>	<p>Contact customer support.</p>

Cannot scan to a network folder

Action	Yes	No
<p>Step 1</p> <p>a Create a network folder shortcut.</p> <p>b Scan a document using the shortcut. For more information, see “Scanning to a network folder using a shortcut” on page 62.</p> <p>Can you scan a document and save it to a network folder?</p>	<p>The problem is solved.</p>	<p>Go to step 2.</p>
<p>Step 2</p> <p>Make sure that the network folder path and format are correct. For example, <code>//server_hostname/foldername/path</code>, where server_hostname is a fully qualified domain (FQDN) or IP address.</p> <p>Is the network folder path and format correct?</p>	<p>Go to step 3.</p>	<p>Go to step 4.</p>
<p>Step 3</p> <p>Make sure that you have a write access permission to the network folder.</p> <p>Can you scan a document and save it to a network folder?</p>	<p>The problem is solved.</p>	<p>Go to step 4.</p>

Action	Yes	No
<p>Step 4</p> <p>Update the network folder shortcut.</p> <p>a Open a web browser, and then type the printer IP address in the address field.</p> <p>Notes:</p> <ul style="list-style-type: none"> View the printer IP address on the home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123. If you are using a proxy server, then temporarily disable it to load the web page correctly. <p>b Click Shortcuts, and then select a shortcut.</p> <p>Note: If you have multiple shortcut types, then select Network Folder.</p> <p>c In the Share Path field, type the network folder path.</p> <p>Notes:</p> <ul style="list-style-type: none"> If your share path is <code>\\server_hostname\foldername\path</code>, then type <code>//server_hostname/foldername/path</code>. Make sure that you use forward slashes when typing the share path. <p>d From the Authentication menu, select your authentication method.</p> <p>Note: If Authentication is set to “Use assigned username and password,” then in the User Name and Password fields, type your credentials.</p> <p>e Click Save.</p> <p>Can you scan a document and save it to a network folder?</p>	<p>The problem is solved.</p>	<p>Go to step 5.</p>
<p>Step 5</p> <p>Make sure that the printer and the network folder are connected to the same network.</p> <p>Can you scan a document and save it to a network folder?</p>	<p>The problem is solved.</p>	<p>Contact customer support.</p>

Partial copies of document or photo

Action	Yes	No
<p>Step 1</p> <p>a Make sure that the document or photo is loaded facedown on the upper left corner of the scanner glass.</p> <p>b Copy the document or photo.</p> <p>Is the document or photo copied correctly?</p>	<p>The problem is solved.</p>	<p>Go to step 2.</p>

Action	Yes	No
<p>Step 2</p> <p>a Match the paper size setting and the paper loaded in the tray.</p> <p>b Copy the document or photo.</p> <p>Is the document or photo copied correctly?</p>	<p>The problem is solved.</p>	<p>Contact customer support.</p>

Scan job was not successful

Action	Yes	No
<p>Step 1</p> <p>Check the cable connections.</p> <p>a Make sure that the Ethernet or USB cable is securely connected to the computer and the printer.</p> <p>b Resend the scan job.</p> <p>Is the scan job successful?</p>	<p>The problem is solved.</p>	<p>Go to step 2.</p>
<p>Step 2</p> <p>Check the file you want to scan.</p> <p>a Make sure that the file name is not already used in the destination folder.</p> <p>b Make sure that the document or photo you want to scan is not open in another application.</p> <p>c Resend the scan job.</p> <p>Is the scan job successful?</p>	<p>The problem is solved.</p>	<p>Go to step 3.</p>
<p>Step 3</p> <p>a Make sure that the Append time stamp or the Overwrite existing file check box is selected in the destination configuration settings.</p> <p>b Resend the scan job.</p> <p>Is the scan job successful?</p>	<p>The problem is solved.</p>	<p>Contact customer support.</p>

Poor copy quality

Action	Yes	No
<p>Step 1</p> <p>a Clean the scanner glass and the ADF glass with a damp, soft, lint-free cloth. If your printer has a second ADF glass inside the ADF, then also clean that glass.</p> <p>For more information, see “Cleaning the scanner” on page 137.</p> <p>b Make sure that the document or photo is loaded facedown on the upper left corner of the scanner glass.</p> <p>c Copy the document or photo.</p> <p>Is the copy quality satisfactory?</p>	<p>The problem is solved.</p>	<p>Go to step 2.</p>
<p>Step 2</p> <p>a Check the quality of the original document or photo.</p> <p>b Adjust the scan quality settings.</p> <p>c Copy the document or photo.</p> <p>Is the copy quality satisfactory?</p>	<p>The problem is solved.</p>	<p>Contact customer support.</p>

Vertical dark streaks on output when scanning from the ADF

Action	Yes	No
<p>a Open the scanner cover.</p> <p>b Using a damp, soft, lint-free cloth, wipe the ADF glass pad.</p> <p>Note: In some printer models, this location has an ADF glass instead of a pad.</p> <p>c Close the scanner cover.</p> <p>d Scan the document.</p> <p>Do vertical streaks appear on scanned documents?</p>	<p>Contact customer support.</p>	<p>The problem is solved.</p>

Jagged image or text when scanning from the ADF

Action	Yes	No
<p>a Load 50 sheets of clean, plain paper into the ADF. Note: The plain paper helps clean or remove dust and other coating from the ADF feed rollers.</p> <p>b From the home screen, touch .</p> <p>c Load an original document into the ADF.</p> <p>d Scan the document.</p> <p>Do jagged images or texts appear on the output?</p>	Contact customer support .	The problem is solved.

Scanner does not close

Action	Yes	No
<p>Remove obstructions that keep the scanner cover open.</p> <p>Did the scanner cover close correctly?</p>	The problem is solved.	Contact customer support .

Scanning takes too long or freezes the computer

Action	Yes	No
<p>Close all applications that are interfering with the scan.</p> <p>Does scanning take too long or freeze the computer?</p>	Contact customer support .	The problem is solved.

Scanner does not respond

Action	Yes	No
<p>Step 1</p> <p>a Check if the power cord is connected properly to the printer and the electrical outlet.</p> <p> CAUTION—POTENTIAL INJURY: To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.</p> <p>b Copy or scan the document.</p> <p>Is the scanner responding?</p>	The problem is solved.	Go to step 2.
<p>Step 2</p> <p>a Check if the printer is turned on.</p> <p>b Resolve any error messages that appear on the display.</p> <p>c Copy or scan the document.</p> <p>Is the scanner responding?</p>	The problem is solved.	Go to step 3.
<p>Step 3</p> <p>a Turn off the printer, wait for about 10 seconds, and then turn the printer on.</p> <p>b Copy or scan the document.</p> <p>Is the scanner responding?</p>	The problem is solved.	Contact customer support .

Adjusting scanner registration

- 1 From the control panel, navigate to:
Settings > Device > Maintenance > Config Menu > Scanner Configuration > Scanner Manual Registration
- 2 Touch **Print Quick Test**.
- 3 Place the Print Quick Test page on the scanner glass, and then touch **Flatbed Registration**.
- 4 Touch **Copy Quick Test**.
- 5 Compare the Copy Quick Test page with the original document.
Note: If the margins of the test page are different from the original document, then adjust Left Margin and Top Margin.
- 6 Repeat [step 4](#) and [step 5](#) until the margins of the Copy Quick Test page closely match the original document.

Adjusting ADF registration

- 1 From the control panel, navigate to:
Settings > Device > Maintenance > Config Menu > Scanner Configuration > Scanner Manual Registration
- 2 Touch **Print Quick Test**.
- 3 Place the Print Quick Test page on the ADF tray.
- 4 Touch **Front ADF Registration** or **Rear ADF Registration**.

Notes:

- To align Front ADF Registration, place the test page faceup, short edge first into the ADF.
- To align Rear ADF Registration, place the test page facedown, short edge first into the ADF.

- 5 Touch **Copy Quick Test**.
- 6 Compare the Copy Quick Test page with the original document.
Note: If the margins of the test page are different from the original document, then adjust Horizontal Adjust and Top Margin.
- 7 Repeat [step 5](#) and [step 6](#) until the margins of the Copy Quick Test page closely match the original document.

Contacting customer support

Before contacting customer support, make sure to have the following information:

- Printer problem
- Error message
- Printer model type and serial number

Visit the place where you purchased your printer.

Some states do not allow disclaimer of express or implied warranties in certain transactions; therefore, this statement may not apply to you.

This publication could include technical inaccuracies or typographical errors. Changes are periodically made to the information herein; these changes will be incorporated in later editions. Improvements or changes in the products or the programs described may be made at any time.

GOVERNMENT END USERS

The Software Program and any related documentation are "Commercial Items," as that term is defined in 48 C.F.R. 2.101, "Computer Software" and "Commercial Computer Software Documentation," as such terms are used in 48 C.F.R. 12.212 or 48 C.F.R. 227.7202, as applicable. Consistent with 48 C.F.R. 12.212 or 48 C.F.R. 227.7202-1 through 227.7207-4, as applicable, the Commercial Computer Software and Commercial Software Documentation are licensed to the U.S. Government end users (a) only as Commercial Items and (b) with only those rights as are granted to all other end users pursuant to the terms and conditions herein.

Licensing notices

All licensing notices associated with this product can be viewed from the CD:\NOTICES directory of the installation software CD.

Noise emission levels

The following measurements were made in accordance with ISO 7779 and reported in conformance with ISO 9296.

Note: Some modes may not apply to your product.

1-meter average sound pressure, dBA	
Printing	One-sided: 53 Two-sided: 50
Scanning	58
Copying	59
Ready	14

Waste from Electrical and Electronic Equipment (WEEE) directive

The WEEE logo signifies specific recycling programs and procedures for electronic products in countries of the European Union. We encourage the recycling of our products. If you have further questions about recycling options, contact your local sales office.

India E-Waste notice

This product including components, consumables, parts and spares complies with the “India E-Waste Rules” and prohibits use of lead, mercury, hexavalent chromium, polybrominated biphenyls or polybrominated diphenyl ethers in concentrations exceeding 0.1% by weight and 0.01% by weight for cadmium, except for the exemption set in the Rule.

Lithium-ion rechargeable battery

This product may contain a coin-cell, lithium-ion rechargeable battery, which should only be removed by a trained technician. Crossed-out wheeled bin means the product should not be discarded as unsorted waste but must be sent to separate collection facilities for recovery and recycling. In the event the battery is removed, do not dispose of the battery in your household waste. There may be separate collection systems for batteries in your local community, such as a battery-recycling drop-off location. The separate collection of waste batteries assures appropriate treatment of waste including reuse and recycling and prevents any potential negative effects on human health and environment. Please responsibly dispose of the batteries.

Product disposal

Do not dispose of the printer or supplies in the same manner as normal household waste. Consult your local authorities for disposal and recycling options.

EU battery directive

This product may contain a coin-cell lithium rechargeable battery. This product is in compliance with EU Directive 2006/66/EC as amended by Directive 2008/12/EC, 2008/103/EC, and 2013/56/EU.

Static sensitivity notice

This symbol identifies static-sensitive parts. Do not touch the areas near these symbols without first touching a metal surface in an area away from the symbol.

To prevent damage from electrostatic discharge when performing maintenance tasks such as clearing paper jams or replacing supplies, touch any exposed metal frame of the printer before accessing or touching interior areas of the printer even if the symbol is not present.

ENERGY STAR

Any product bearing the ENERGY STAR® emblem on the product or on a start-up screen is certified to comply with Environmental Protection Agency (EPA) ENERGY STAR requirements as of the date of manufacture.

Temperature information

Operating temperature and relative humidity	10 to 32.2°C (50 to 90°F) and 15 to 80% RH 15.6 to 32.2°C (60 to 90°F) and 8 to 80% RH Maximum wet-bulb temperature ² : 22.8°C (73°F) Non-condensing environment
Printer / cartridge / imaging unit long-term storage ¹	15.6 to 32.2°C (60 to 90°F) and 8 to 80% RH Maximum wet-bulb temperature ² : 22.8°C (73°F)
Printer / cartridge / imaging unit short-term shipping	-40 to 40°C (-40 to 104°F)
¹ Supplies shelf life is approximately 2 years. This is based on storage in a standard office environment at 22°C (72°F) and 45% humidity. ² Wet-bulb temperature is determined by the air temperature and the relative humidity.	

Laser notice

The printer is certified in the U.S. to conform to the requirements of DHHS 21 CFR, Chapter I, Subchapter J for Class I (1) laser products, and elsewhere is certified as a Class I laser product conforming to the requirements of IEC 60825-1: 2014 (JIS C 6802:2018).

Class I laser products are not considered to be hazardous. The laser system and printer are designed so there is never any human access to laser radiation above a Class I level during normal operation, user maintenance, or prescribed service conditions. The printer has a non-serviceable printhead assembly that contains a laser with the following specifications:

Class: IIIb (3b) AlGaInP

Nominal output power (milliwatts): 25

Wavelength (nanometers): 775–800

Power consumption

Product power consumption

The following table documents the power consumption characteristics of the product.

Note: Some modes may not apply to your product.

Mode	Description	Power consumption (Watts)
Printing	The product is generating hard-copy output from electronic inputs.	One-sided: 530 (7019-235), 580 (7019-4a6, 7019-4b6, 7019-486) Two-sided: 315 (7019-235), 330 (7019-4a6, 7019-4b6, 7019-486)
Copy	The product is generating hard-copy output from hard-copy original documents.	550 (7019-235), 600 (7019-4a6, 7019-4b6, 7019-486)
Scan	The product is scanning hard-copy documents.	13 (7019-235), 14 (7019-4a6, 7019-4b6, 7019-486)
Ready	The product is waiting for a print job.	6.5 (7019-235); 7 (7019-4a6); 7.5 (7019-4b6, 7019-486)
Sleep Mode	The product is in a high-level energy-saving mode.	0.8 (7019-235); 0.9 (7019-4a6); 1.1 (7019-4b6, 7019-486)
Hibernate	The product is in a low-level energy-saving mode.	N/A
Off	The product is plugged into an electrical outlet, but the power switch is turned off.	0.1

The power consumption levels listed in the previous table represent time-averaged measurements. Instantaneous power draws may be substantially higher than the average.

Sleep Mode

This product is designed with an energy-saving mode called *Sleep Mode*. The Sleep Mode saves energy by lowering power consumption during extended periods of inactivity. The Sleep Mode is automatically engaged after this product is not used for a specified period of time, called the *Sleep Mode Timeout*.

Factory default Sleep Mode Timeout for this product (in minutes):	15
---	----

By using the configuration menus, the Sleep Mode Timeout can be modified between 1 minute and 120 minutes. If the print speed is less than or equal to 30 pages per minute, then you can set the timeout only up to 60 minutes. Setting the Sleep Mode Timeout to a low value reduces energy consumption, but may increase the response time of the product. Setting the Sleep Mode Timeout to a high value maintains a fast response, but uses more energy.

Hibernate Mode

This product is designed with an ultra-low power operating mode called *Hibernate mode*. When operating in Hibernate Mode, all other systems and devices are powered down safely.

The Hibernate mode can be entered in any of the following methods:

- Using the Hibernate Timeout
- Using the Schedule Power modes

Factory default Hibernate Timeout for this product in all countries or regions	3 days
--	--------

The amount of time the printer waits after a job is printed before it enters Hibernate mode can be modified between one hour and one month.

Notes on EPEAT-registered imaging equipment products:

- Standby power level occurs in Hibernate or Off mode.
- The product shall automatically power down to a standby power level of ≤ 1 W. The auto standby function (Hibernate or Off) shall be enabled at product shipment.

Off mode

If this product has an off mode which still consumes a small amount of power, then to completely stop product power consumption, disconnect the power supply cord from the electrical outlet.

Total energy usage

It is sometimes helpful to estimate the total product energy usage. Since power consumption claims are provided in power units of Watts, the power consumption should be multiplied by the time the product spends in each mode in order to calculate energy usage. The total product energy usage is the sum of each mode's energy usage.

Applicability of Regulation (EU) 2019/2015 and (EU) 2019/2020

Per Commission Regulation (EU) 2019/2015 and (EU) 2019/2020, the light source contained within this product or its component is intended to be used for Image Capture or Image Projection only, and is not intended for use in other applications.

Regulatory notices for telecommunication terminal equipment

This section contains regulatory information pertaining to products that contain the analog facsimile card:

Regulatory Type/Model Number:

LEX-M14-002

Notice to users of the US telephone network: FCC requirements

This equipment complies with Part 68 of the FCC rules and the requirements adopted by the Administrative Council for Terminal Attachments (ACTA). On the back of this equipment is a label that contains, among other information, a product identifier in the format US:AAAEQ##TXXXX. If requested, this number must be provided to your telephone company.

This equipment uses the RJ-11C Universal Service Order Code (USOC) jack.

A plug and jack used to connect this equipment to the premises' wiring and telephone network must comply with the applicable FCC Part 68 rules and requirements adopted by the ACTA. Use a compliant telephone cord (RJ-11) that is 26 AWG or larger when connecting this product to the public switched telephone network. See your setup documentation for more information.

The Ringer Equivalence Number (REN) is used to determine the number of devices that may be connected to a telephone line. Excessive RENs on a telephone line may result in the devices not ringing in response to an incoming call. In most but not all areas, the sum of RENs should not exceed five (5.0). To be certain of the number of devices that may be connected to a line, as determined by the total RENs, contact your local telephone company. For products approved after July 23, 2001, the REN for this product is part of the product identifier that has the format US:AAAEQ##TXXXX. The digits represented by ## are the REN without a decimal point (for example, 03 is a REN of 0.3). For earlier products, the REN is shown separately on the label.

If this equipment causes harm to the telephone network, the telephone company will notify you in advance that temporary discontinuance of service may be required. If advance notice is not practical, the telephone company will notify the customer as soon as possible. You will also be advised of your right to file a complaint with the FCC.

The telephone company may make changes in its facilities, equipment, operations or procedures that could affect the operation of this equipment. If this happens, the telephone company will provide advance notice in order for you to make necessary modifications to maintain uninterrupted service.

If you experience trouble with this equipment, for repair or warranty information, contact your point of purchase. If the equipment is causing harm to the telephone network, the telephone company may request that you disconnect the equipment until the problem is resolved.

This equipment contains no user serviceable parts. For repair and warranty information, contact your point of purchase.

Connection to party line service is subject to state tariffs. Contact the state public utility commission, public service commission, or corporation commission for information.

If your home has specially wired alarm equipment connected to the telephone line, ensure the installation of this equipment does not disable your alarm equipment. If you have questions about what will disable alarm equipment, consult your telephone company or a qualified installer.

The Telephone Consumer Protection Act of 1991 makes it unlawful for any person to use a computer or other electronic device, including fax machines, to send any message unless said message clearly contains in a margin at the top or bottom of each transmitted page or on the first page of the transmission, the date and time it is sent and an identification of the business or other entity, or other individual sending the message, and the telephone number of the sending machine or such business, other entity, or individual. (The telephone number provided may not be a 900 number or any other number for which charges exceed local or long-distance transmission charges.)

See your user documentation in order to program this information into your fax machine.

Notice to users of the Canadian telephone network

This product meets the applicable Innovation, Science and Economic Development Canada technical specifications.

The Ringer Equivalence Number (REN) indicates the maximum number of devices allowed to be connected to a telephone interface. The termination of an interface may consist of any combination of devices subject only to the requirement that the sum of the RENs of all the devices not exceed five. The REN is located on the product label.

This equipment uses CA11A telephone jacks.

Avis réservé aux utilisateurs du réseau téléphonique du Canada

Ce produit est conforme aux spécifications techniques d'Innovation, Sciences et Développement économique Canada.

Le numéro REN (ringer equivalence number : numéro d'équivalence de sonnerie) indique le nombre maximum d'appareils pouvant être connectés à l'interface téléphonique. En bout de ligne, le nombre d'appareils qui peuvent être connectés n'est pas directement limité, mais la somme des REN de ces appareils ne doit pas dépasser cinq. Le numéro REN est indiqué sur l'étiquette produit.

Cet équipement utilise des prises de téléphone CA11A.

Notice to users of the New Zealand telephone network

The following are special conditions for the Facsimile User Instructions. The grant of a telepermit for any item of terminal equipment indicates only that Spark has accepted that the item complies with minimum conditions for connection to its network. It indicates no endorsement of the product by Spark, nor does it provide any sort of warranty. Above all, it provides no assurance that any item will work correctly in all respects with another item of telepermitted equipment of a different make or model, nor does it imply that any product is compatible with all of Spark's network services.

This equipment shall not be set up to make automatic calls to the Spark "111" Emergency Service.

This equipment may not provide for the effective hand-over of a call to another device connected to the same line.

This equipment should not be used under any circumstances that may constitute a nuisance to other Spark customers.

This equipment is not capable, under all operating conditions, of correct operation at the higher speeds for which it is designed. Spark will accept no responsibility should difficulties arise in such circumstances.

The decadic (or pulse) dialing on this device is unsuitable for use on the Spark network in New Zealand.

For correct operation, the total of all the Ringer Equivalence Numbers (RENs) of all parallel devices connected to the same telephone line may not exceed 5. The REN of this device is located on the label.

This device uses an RJ-11C modular connector. Contact your point of purchase if a BT adapter is required. The part number is 80D1873.

Some parameters required for compliance with Spark's telepermit requirements are dependent on the equipment associated with this device. The associated equipment shall be set to operate within the following limits for compliance to Spark's specifications:

- There shall be no more than 10 call attempts to the same number within any 30 minute period for any single manual call initiation, and
- The equipment shall go on-hook for a period of not less than 30 seconds between the end of one attempt and the beginning of the next call attempt.
- The equipment shall be set to ensure that automatic calls to different numbers are spaced such that there is not less than 5 seconds between the end of one call attempt and the beginning of another.

Japanese telecom notice

The installed optional modem is in compliance with Japanese Telecommunication Law and has been certified by JATE, with the following Certification Number:

A18-0046001

	LEX-M14-002
	A18-0046001

Using this product in Switzerland

This product requires a Swiss billing tone filter to be installed on any line which receives metering pulses in Switzerland.

Utilisation de ce produit en Suisse

Cet appareil nécessite l'utilisation d'un filtre de tonalité de facturation suisse devant être installé sur toute ligne recevant des impulsions de comptage en Suisse.

Verwendung dieses Produkts in der Schweiz

Für dieses Produkt muss ein schweizerischer Billing Tone Filter zur Zählzeichenübertragung für jede Leitung installiert werden, über die in der Schweiz Zeitsteuertakte übertragen werden.

Uso del prodotto in Svizzera

Questo prodotto richiede un filtro toni Billing svizzero, a installare su tutte le linee che ricevono impulsi remoti in Svizzera.

Regulatory notices for wireless products

This section contains regulatory information that applies only to wireless models.

If in doubt as to whether your model is a wireless model, go to our website.

Modular component notice

Wireless models contain the following modular component:

Regulatory Type/Model Number LEX-M08-001; FCC ID:IYLLEXM08001; IC:2376A-LEXM08001

To determine which modular components are installed in your particular product, refer to the labeling on your actual product.

Exposure to radio frequency radiation

The radiated output power of this device is far below the radio frequency exposure limits of the FCC and other regulatory agencies. A minimum separation of 20 cm (8 inches) must be maintained between the antenna and any persons for this device to satisfy the RF exposure requirements of the FCC and other regulatory agencies.

Innovation, Science and Economic Development Canada

This device complies with Innovation, Science and Economic Development Canada license-exempt RSS standards. Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Innovation, Sciences et Développement économique Canada

Cet appareil est conforme aux normes RSS exemptes de licence d'Innovation, Sciences et Développement économique Canada. Son fonctionnement est soumis aux deux conditions suivantes : (1) cet appareil ne doit pas causer d'interférences et (2) il doit accepter toutes les interférences, y compris les celles qui peuvent entraîner un fonctionnement indésirable.

European Community (EC) directives conformity

This product is in conformity with the protection requirements of EC Council directive 2014/53/EU on the approximation and harmonization of the laws of the Member States relating to radio equipment.

A declaration of conformity to the requirements of the Directives may be obtained at:

http://www.ricoh.com/products/ce_doc2/

Compliance is indicated by the CE marking:

EU and other countries statement of radio transmitter operational frequency bands and maximum RF power

This radio product transmits in the 2.4GHz (2.412–2.472GHz) band in the EU. The maximum transmitter EIRP power output, including antenna gain, is ≤ 20 dBm.

United Kingdom (UK) conformity

This product is in conformity with the protection requirements of the Radio Equipment Regulations 2017.

A declaration of conformity to the requirements of the Regulations may be obtained at:

http://www.ricoh.com/products/ce_doc2/

Compliance is indicated by the UKCA marking:

UK statement of radio transmitter operational frequency bands and maximum RF power

This radio product transmits in the 2.4GHz (2.412–2.472GHz) band in the UK. The maximum transmitter EIRP power output, including antenna gain, is $\leq 20\text{dBm}$.

Federal Communications Commission (FCC) compliance information statement

This product has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The FCC Class B limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult your point of purchase or service representative for additional suggestions.

The manufacturer is not responsible for radio or television interference caused by using other than recommended cables or by unauthorized changes or modifications to this equipment. Unauthorized changes or modifications could void the user's authority to operate this equipment.

Note: To assure compliance with FCC regulations on electromagnetic interference for a Class B computing device, use a properly shielded and grounded cable. Use of a substitute cable not properly shielded and grounded may result in a violation of FCC regulations.

Any questions regarding this compliance information statement should be directed to:

Ricoh Endo : Ricoh USA, Inc. (Regional HQ)
300 Eagleview Boulevard, Suite 200 Exton, PA 19341, U.S.A.
610-296-8000

Innovation, Science and Economic Development Canada compliance statement

This Class B digital apparatus meets all requirements of the Canadian Interference-Causing Equipment Standard ICES-003.

Avis de conformité aux normes de l'Innovation, Sciences et Développement économique Canada

Cet appareil numérique de classe B est conforme aux exigences de la norme canadienne relative aux équipements pouvant causer des interférences NMB-003.

日本の VCCI 規定

この装置は、クラス B 情報技術装置です。この装置は、家庭環境で使用することを目的としていますが、この装置がラジオやテレビジョン受信機に近接して使用されると、受信障害を引き起こすことがあります。

取扱説明書に従って正しい取り扱いをしてください。

VCCI-B

European Community (EC) directives conformity

This product is in conformity with the protection requirements of EC Council directives 2014/30/EU, 2014/35/EU, 2009/125/EC, and 2011/65/EU as amended by (EU) 2015/863 on the approximation and harmonization of the laws of the Member States relating to electromagnetic compatibility, safety of electrical equipment designed for use within certain voltage limits, the ecodesign of energy-related products, and on the restrictions of use of certain hazardous substances in electrical and electronic equipment.

A declaration of conformity to the requirements of the Directives may be obtained at:

http://www.ricoh.com/products/ce_doc2/

This product satisfies the Class B limits of EN 55032 and safety requirements of EN 62368-1.

United Kingdom (UK) conformity

This product is in conformity with the protection requirements of the Electromagnetic Compatibility Regulations 2016, the Electrical Equipment (Safety) Regulations 2016, the Ecodesign for Energy-Related Products and Energy Information (Amendment) (EU Exit) Regulations 2019, and the Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment Regulations 2012.

A declaration of conformity to the requirements of the Regulations may be obtained at:

http://www.ricoh.com/products/ce_doc2/

This product satisfies the Class B limits of BS EN 55032 and safety requirements of BS EN 62368-1.
